

Safety

Susan Burkinshaw
Beth Kennington

The Safety Committee was formed in early 2009 and consists of stakeholder members of the school community, including parents, students, teachers, security team and the Educational Facilities Officer (an MCPD police officer).

The goal of the committee is to hear about issues affecting the personal safety of the students who attend the school and of staff employed at NWHS, to learn about issues, evaluate school safety-related data and, when necessary, to independently investigate the protocols employed by school staff in order to communicate the same with the school leadership.

The committee's goals at the local level are for broad accountability, information sharing and to offer a venue for all members to share concerns, from which to take back information to representative groups, to voice those concerns, information and priorities with the school administration and MCPS.
