

I am the Case Manager for your child for the 2011-2012 School year. I look forward to working with you and supporting your student towards academic success!

At Ridgeview Middle School, we support students in a variety of ways. We are a full inclusion model and we have co-taught classes where there are two teachers in the classroom. We also have support classes where paraeducators work with classroom teachers to support students. Your child is a member of a grade level team and has a team of teachers working to educate and support them.

Please feel free to contact your child's teachers or myself at any time. We are looking forward to a great year.
