

Sherwood Academy of Business and Hospitality

Academy Description: Students in the Business Academy learn how to develop and run a business by learning and applying industry standard business and accounting procedures. Hospitality Management focuses on preparing students to learn the skills necessary to be successful in the culinary industry. The Academy of Hospitality and Tourism program focuses on learning about the various business elements of the hospitality and tourism industry. These pathways provide students a solid foundation to enter college business and hospitality programs a step ahead of their peers.
