

My Response to Reading Scores

Graphing Responses to Reading using the MSA BCR Rubric.

Some ideas for how to use this EXCEL workbook.

Students can graph their individual growth in response to reading . The teacher can also graph a guided reading groups response to reading. The example in this workbook is for a guided reading group of 8 students. You would need 2 sheets to graph an entire marking period. The individual graph is for the entire marking period. Modify as needed for your class.

MSA Brief Constructed Response Rubric

- 3** The response demonstrates an understanding of the complexities of the text.
 - * Addresses the demands of the question
 - * Effectively uses text-relevant information to clarify or extend understanding
- 2** The response demonstrates a general understanding of the text.
 - * Partially addresses the demands of the question
 - * Contains text support
- 1** The response demonstrates minimal understanding of the text.
 - * Minimally addresses the demands of the question
 - * Uses minimal information to show understanding of the text in relation to the question
- 0** The response is completely incorrect or irrelevant to the question, or missing.

Student Checklist

	YES	NO
1. I have reread my responses to see if anything needs to be added, deleted, or changed.		
2. I have checked my response to make sure that any information that I added was connected to the passage.		
3. I captured the main idea or message.		
4. A reader would understand what the passage was mainly about from reading my summary.
