

Computer Equipment and Resources

TPES has over 100-networked PC computers throughout the building. These computers provide staff and student with access to many resources. The computer lab, located in the Media Center, houses 19 computers. Computer resources include several online subscriptions including: Facts for Learning, Amazing Animals Encyclopedia, SIRS Discoverer, Newsbank, World Book Online and Encyclopedia Britannica. In addition, we have several networked software packages including; Microsoft products, Kidspiration, Mighty Math series and Pair-It Books. The media center's catalog, Spectrum, is also available on select computers. Supervised access to the Internet is also provided.
