Meet the Counselor

Welcome back to another school year! My name is Mrs. Jenkins and I am the School Counselor here at Woodfield ES. I have thoroughly enjoyed becoming acquainted with so many amazing children and their families. I already feel like a part of the Woodfield family due to the warm, inviting welcome from all of the staff, students, & parents!

I began my career with MCPS in 1999 and have many years working in the elementary setting. I earned my Bachelor’s Degree in Elementary Education at Virginia Tech “Let’s Go HOKIES!” and my Master’s Degree in School Counseling at Johns Hopkins University. I grew up in Montgomery County and currently live with my husband and two sons in Urbana.

Counseling Mission

The counseling program at Woodfield ES encourages all students to achieve success through a comprehensive, developmental counseling program that focuses on academic, career and personal/social development. As an advocate and leader, the counselor is committed to removing systemic barriers and promoting positive changes. Through collaboration with the school and community stakeholders, student learning will be assured. Academic excellence will be achieved by encouraging access, equity and social justice for all students.

Counseling Program

Overview
The counseling program at Woodfield is designed to provide support to every student, ensure equity, and provide tools to help students reach their academic potential. As the counselor, it is my goal to accomplish this by the 3 types of counseling.

Classroom Guidance

Each month we will focus on a topic related to the Woodfield core values: respect, responsibility, and being ready to learn. Students will receive a lesson from the counselor twice a month for 45 minutes. Lesson topics will be based on the needs of the students and may include conflict resolution, empathy, bullying, self-esteem, anger management, testing preparation, and personal awareness.

Small Group Counseling

Referrals and collaboration from teachers and parents will drive small group instruction. Students will be grouped together based on needs and age. With parent consent, students will be pulled for 6-8 sessions to discuss more specific and intensive needs such as social skills, changing families, self-esteem, organization/study skills, and more.

Individual Counseling

Students are able to fill out a referral form “Note to the Counselor” from each classroom when needed throughout the school year as issues arise. Individual counseling is short term and does not require parent consent prior to counseling. If you would like your child to opt out of individual counseling please contact the counselor. Teachers and parents can also be involved in referring a student for individual counseling.

Student Referral Form

Bullying, Harassment, and Intimidation

Bullying, harassment, or intimidation are serious and will not be tolerated. Bullying is a form of aggression in which one or more students physically and/or psychologically harass another student repeatedly over a period of time.

Here at Woodfield bullying is prevented with clear expectations regarding respectful, responsible, & ready to learn behavior. If you are unsure the situation involves bullying please consult with the School Counselor and/or Principal at school so that we can stop the bullying behavior when it occurs. The School Counselor will implement immediate remedial actions and collaborate with the Principal. Parents will be informed of the situation and outcomes. Parents can also help in prevention by helping their children understand the difference between bullying & teasing and appropriate problem solving strategies.
