

# Rockville HS - WBL (Work Based Learning)

Internship is an additional programmatic elective that provides students with experiential learning related to their future education and chosen career field. Each internship requires an identified sponsor, verification of hours and sponsor evaluations. Note: If a student needs an internship to complete a CTE Program of Study (POS), the course on their schedule should be the course code related to that specific CTE POS (the course code can be repeated to match the number of internship hours the student is working). Students can find Internship opportunities on the Work Based Learning Navigator software through their Clever login. Students may be required by the sponsoring organization to provide appropriate documentation. This may include a social security number and/ or proof of citizenship. Hours required per semester: Single-period : .5 credit = 75 hours, Double-period: 1.0 credit = 150 hours and Triple-period: 1.5credits = 225 hours

Course Title	GR	Description
Internship Single Period  COURSE CODE: WBL2014 A/B	11-12	Students are required to complete 75 hours of work based learning experience per semester. This can be done as an In-School internship or an Out-of-School internship.
