

BID 9758.1, Questions and Answers

1) I would like to know when the service will start-date and end-date of the service?

Please see D. Contract Term and revised quotation form

2) You will need 1 each trailer?

See revised quotation form

3) Is this lease for only one year (August through June)?

See revised quotation form

4) In the scope you specify the trailers as 8 station ADA trailers with a 200 gallon fresh water tank and 700 gallon waste tank at a minimum. You also mention a single stall ADA compliant unit as an alternate. If we have a trailer with standard access men's and women's units and a single ADA stall is this acceptable?

A: Yes

5) How should we indicate that on the bid sheet?

A: See revised quotation form

6) We may also be able to bid the standard access 8 stall trailers with the single ADA trailer as the alternate. Can we quote both configurations and if so how do we indicate that?

A: See revised quotation form. See clause H under the General Conditions.

7) Will the trailers be removed from the site between June and August or will they remain on site for rental and service?

A: Units shall be removed from site(s) once school is out for summer break (tentatively June 21, 2023).

8) You mention in Section II.C.2 pricing shall include Day/Week/Month pricing in Appendix C. The Price sheet I have in Appendix C does not have spaces for that. Should we supply pricing on a different page?

A: See revised quotation form

9) Is site water and power available at each location?

A: Power will be available, water is the responsibility of the supplier.

10) If site water is plumbed to the trailer that would affect the service pricing. Does the service include the water supply fill?

A: Yes

11) I could not find the specific delivery dates per address. Are all locations expected to deliver on 6/29 and keep until 6/28/23? Please also advise about servicing needs, I did not see that within the material.

See C. Special Requirements under Contract Administration
