HELP US KEEP STUDENTS SAFE

Whether teens are walking to school, the park, or a friend’s house, here are a few tips to make sure they get there safely.

Drive safely – drivers are often the cause of crashes!
• Slow down and watch for teens and others walking.
• Stop for people in crosswalks.
• Yield to pedestrians, especially when turning.
• Never drive distracted.

Engage your teen.
• Ask about his or her walking pattern. Emphasize the importance of looking up, listening, and making eye contact when crossing the street.
• Act out various scenarios that your teen might encounter while walking. Demonstrate that it’s easy to put your phone down or take headphones off before crossing the street.
• Set a good example by putting away your phone when driving or walking.

What to say to your teen:
• Pedestrians don’t always have the right of way. Cross at crosswalks and wait for the walk signal.
• Look up! Keep your head up and devices down while crossing the street.
• Make eye contact with drivers to be sure they see you.
• If you’re wearing headphones, pull them down or turn the volume off before you cross the street.
• If you need to use your phone, stop on the sidewalk and find a safe area to talk or text.
