

## **Welcome to Module 2**

Welcome to Module 2 of “Teaching the ESOL Student in the Mainstream Classroom”.

In this second module, you will gain quite a bit of background into the theories and scientific nature of language development. Once we understand the process of learning a second language, we are much better able to meet the needs of our students.

So let’s get started with Module 2! The first thing you will need to do is click on the Review/Preview button to the right for a brief introduction.

See you again soon!
