French One-Way Immersion | Kindergarten: Quarter One

<p>French Language Arts</p> <p>French Immersion programs do not utilize a single textbook as their foundation. Instead, instruction is guided by the Common Core State Standards, which serve as the framework for curriculum design and instructional planning. This approach allows teachers to integrate authentic resources, literary works, and a variety of instructional materials that support both language acquisition and content mastery. By focusing on standards and adapting resources to meet the linguistic needs of their students, rather than using a prescribed text, students develop the critical thinking, communication, and problem-solving skills necessary for academic success while advancing their proficiency in French.</p>	<p>Math <u>Grade K Parent Roadmap</u></p> <p>Numbers to 10</p> <ul style="list-style-type: none"> • Key Terms: match; sort; hidden partners counting path; number story; zero; number sentence; 5-group; rows and columns; number path <p>Two-Dimensional and Three-Dimensional Shapes</p> <ul style="list-style-type: none"> • Key Terms: above, below, beside, in front of, next to, behind; circle; cone; cube; cylinder; face; flat; hexagon; rectangle; solid; sphere; square; triangle <p><small>**The Board of Education adopted the mathematics curriculum, “Eureka Math” by Great Minds.</small></p>
<p>Social Studies</p> <p>Civics</p> <p>Role and Responsibilities at Home and School</p> <ul style="list-style-type: none"> • Key Terms: roles, rights, responsibilities <p>Leaders in the Family, at School, and in the Nation</p> <ul style="list-style-type: none"> • Key Terms: leader, citizens, contribute, nation <p><small>**No core instructional textbook</small></p>	<p>Science</p> <p>What is Weather?</p> <p>In this unit, students explore weather by making daily observations and noticing patterns in sunlight, rain, wind, and snow. They learn how weather affects our lives and how scientists predict it to keep us safe. Students also use their knowledge to design and test small structures, like shade shelters and roofs, to protect from sun and rain.</p> <ul style="list-style-type: none"> • Key terms: weather, sunlight, temperature, wind, rain, snow, heat, observation, pattern, forecast, engineer, shelter <p><small>**No core instructional textbook</small></p>

[These](#) supplemental instructional materials might also be included in Kindergarten. Supplemental materials are additional approved books for teachers to use to teach a topic. Ask your child’s teacher for more information about supplemental materials used in your child’s classroom. If any listed instructional material conflicts with your family’s sincerely held religious beliefs, you may request your child’s excusal by submitting [this request form](#). For additional information, visit [our website](#).

Families: Put this on your refrigerator and review at home!
