## Operations-Overview

F.T.E. Positions 4,472.914

In addition, there are 67.5 positions funded by the Capital Improvements Program Budget, 22.0 funded by ICB. These non-operating budget positions are noted on other charts in this chapter. Also, there are 2,079.078 school-based positions shown on school charts in Chapter 1.

## Office of the Chief Operating Officer

M I S S I O N The Office of the Chief<br>Operating Officer (OCOO) ensures a high functioning operation essential for equity and excellence in classrooms and schools, which are foundational to high levels of learning for all students.

## MAJOR FUNCTIONS

## Employee Engagement and Labor Relations (Human Capital; Operational Excellence)

The Office of Employee Engagement and Labor Relations (OEELR) establishes and maintains productive relationships with our employees and the four employee associations. OEELR addresses matters of employee conduct and discipline; promotes respectful and equitable work environments; conducts formal negotiations with the four recognized employee organizations; and assists administrators in implementing union contracts and Board of Education policies and regulations.

## Facilities Management (Operational Excellence)

The Department of Facilities Management (DFM) is committed to operational performance excellence and continuous improvement with the primary goal to ensure that MCPS facilities meet the needs of all stakeholders. DFM supports student success by providing high quality learning environments through long-range planning, design and construction, operations and maintenance, property asset management, and resource conservation and sustainability.

## Materials Management (Operational Excellence)

The Department of Materials Management (DMM) economically facilitates the delivery of approved, highquality products, meals, resources, and services in an environment of cooperation, integrity, and excellence that is essential to the educational success of all students in MCPS. DMM coordinates the functions and operations of the warehouse and distribution network; instructional and library material processing; editorial, graphics, and publishing services; procurement; and food and nutrition services.

## Systemwide Safety and Emergency Management (Operational Excellence)

The Department of Systemwide Safety and Emergency Management (DSSEM) is committed to promoting safe and secure environments for MCPS students and staff with the highest level of customer service to work toward the common goal of success for every student. DSSEM leverages technology as well as partners with the school community and public safety and law enforcement agencies to provide support, resources, and training to all MCPS schools and facilities. DSSEM provides 24-hour security for MCPS and school system assets; liaises with local, state, and federal law enforcement agencies; coordinates and implements comprehensive safety, security, and emergency preparedness programs for the school district; and develops and implements security initiatives for closed-circuit television camera, visitor management, and access control systems.

## Student Transportation (Operational Excellence)

The Department of Transportation is responsible for the operation of regular and special program bus service for eligible students, vehicle maintenance and repair, employee recruiting and training, and transportation administrative services. Bus operations provide transportation services for more than 100,000 students daily. Ridership is composed of two categories-regular education and special education.

## OVERVIEW OF BUDGET CHANGES

## FY 2021 RECOMMENDED BUDGET

The FY 2021 recommended budget for this office is $\$ 21,441,604$, an increase of $\$ 9,764,379$ over the current FY 2020 budget. An explanation of this change follows.

## Same Service Level Changes-\$9,764,379

 Continuing Salary CostsFor FY 2021 lapse and turnover, the amount of unused budgeted salary that remains when an employee terminates service and is not immediately replaced or an employee terminates service and the backfill is hired at a lower salary, was calculated at $\$ 33,575,500$. In addition, the three year contract agreements that the Board of Education approved will expire at the end of FY 2020. Negotiations began in October 2019 with our three employee associations on new contracts to be effective July 1, 2020, and are continuing as of this publication. While final terms of these contracts have not yet been

## Office of the Chief Operating Officer 331

agreed on, in order to plan for the requirements of the FY 2021 Operating Budget, funds are included in this budget to support the negotiated agreements once they are finalized. Depending on the outcome of negotiations, a budget amendment may be needed to either add funds or realign funds from other areas.

Realignments to Meet Expenditure Requirements and Priorities-\$117,520
There is a realignment from chapter 1, Schools, of $\$ 117,520$ for temporary part-time salaries to the Office of the Chief Operating Officer to fund a 1.0 coordinator position in the Appeals Unit. The position will support all inquiries related to student appeals.

## Enterprise Funds-\$8,180,000

There is an additional $\$ 8,000,000$ budgeted in the School Bus Safety Camera Program Fund to cover additional revenue generated from the payment of citation fines by school bus camera tickets. These funds are a passthrough to Montgomery County with no impact on the tax-supported budget. The additional funding gives MCPS the appropriation authority to pay the county the ticket revenue received by MCPS. In addition, there is an increase of $\$ 150,000$ in the Student Online Learning Program for professional part-time salaries to support the increase in enrollment for student online learning programs. There also is an increase of $\$ 30,000$ in the Taylor Science Entrepreneurial Fund for program supplies.

## Office of Employee Engagement and Labor Relations

## MISSION The Office of Employee Engagement and Labor Relations (OEELR) establishes and maintains productive relationships with our employees and the

 three employee associations, to nurture a respectful organizational culture that strengthens the school system's ability to ensure all students thrive and achieve at the highest levels by negotiating and administering realistic and relevant union contracts, addressing matters of employee conduct and discipline, promoting respectful and equitable work environments, and assisting administrators in implementing union contracts and Board of Education policies and regulations.
## MAJOR FUNCTIONS

## Labor Contract Administration (Human Capital; Operational Excellence)

OEELR coordinates all employee relations activities with the employee associations that represent administrators/ principals, teachers, supporting services employees, and noncertified supervisory personnel. It conducts formal negotiations with the four recognized organizations on wages, hours, and other working conditions. It administers the negotiated agreements through regular contact with the employee associations, handles informal complaints, provides advice to management on contract interpretations, oversees the grievance and administrative complaint procedures, represents the Montgomery County Board of Education in grievance hearings and arbitrations, and prepares cases for presentation before the Public School Labor Relations Board, the Maryland State Board of Education, or court action.

## Negotiations with Employee Groups (Human Capital; Operational Excellence)

OEELR is responsible for negotiating with the Montgomery County Education Association (MCEA), the Service Employees International Union (SEIU) Local 500, and the Montgomery County Association of

Administrators and Principals (MCAAP). MCAAP represents administrative and supervisory personnel and noncertified supervisory personnel (MCAAP/Montgomery County Business and Operations Administrators) in separate bargaining units under one contract. The office administers all three negotiated agreements, manages informal complaints and grievances, prepares and presents arbitration cases, supports collaboration efforts enumerated in all three negotiated agreements, and provides support and training to MCPS supervisors and administrators. The office also is responsible for processing any requests for recognition of additional bargaining units or challenges of existing exclusive representatives by competing organizations.

## Compliance and Investigations (Operational Excellence)

The Department of Compliance and Investigations (DCI) is responsible for investigating allegations of employee misconduct, harassment, workplace bullying, and Equal Employment Opportunity Commission violations, and works with principals and supervisors to address findings and implement progressive discipline as appropriate. DCI also works with administrators and staff to ensure appropriate accommodations are provided as outlined in the Americans with Disabilities Act of 1990. In addition, DCI consults and coordinates with the MCPS General Counsel to support litigation and legal proceedings for employee discipline, harassment, and unemployment claims.

## OVERVIEW OF BUDGET CHANGES

## FY 2021 RECOMMENDED BUDGET

The FY 2021 recommended budget for this office is $\$ 1,274,833$, an increase of $\$ 165,889$ over the current FY 2020 budget. An explanation of this change follows.

## Same Service Level Changes-\$42,500

Realignments to Meet Expenditure Requirements and Program Priorities-\$40,000
There is a realignment from chapter 6, Office of Student and Family Support and Engagement, of \$40,000 for contractual services to the Office of Employee Engagement and Labor Relations budget to support staff assistance with processing Child Protective Services (CPS) background check forms.

## Office of Employee Engagement and Labor Relations

## Other-\$2,500

There is an increase of $\$ 2,500$ for office supplies to align with actual expenditures within the budget.

## Strategic Accelerator-\$123,389

Focus on Operational Excellence-\$123,389
The budget includes one strategic accelerator that focuses on operational excellence. To fund this strategic accelerator, the budget includes $\$ 72,392$ for professional part-time salaries, $\$ 29,997$ for supporting services parttime salaries, and $\$ 21,000$ for staff development training. This strategic accelerator enables the office to more rapidly investigate and bring MCPS grievance related and other cases to closure and reduce the time employees remain on administrative leave. In addition, these funds also will support work associated with CPS background checks.

M I S S I O N The Department of Facilities<br>Management (DFM) creates and maintains high-quality public facilities for learning through staff dedicated to excellence and continuous improvement.

## MAJOR FUNCTIONS

## Capital Programming and Long-range Planning (Operational Excellence)

The Division of Capital Planning develops plans to address the changes in student enrollment and instructional programs through development of high-quality data analysis, planning strategies, and long-range facility plans. Enrollment forecasts are developed in alignment with the six-year Capital Improvements Program and for long-term future projections. The accuracy of the forecast is critical as it is used for resource and staffing allocations, relocatable classroom placements, and by other offices and departments in MCPS that provide instructional programs required for student success.

## Facility Design and Construction (Operational Excellence)

DFM facilitates the design and construction processes for major capital projects including new schools, additions, the revitalization/expansion of aging facilities, and countywide systemic replacement projects. While the majority of staff and resources for these functions are funded through the capital budget, on-time and withinbudget completions to ensure school openings and operations are critical measures in supporting the strategic priority of operational excellence through creating modern, safe, and nurturing physical environments for staff and students.

## Building Operations and Maintenance (Operational

 Excellence)Together, the divisions of School Plant Operations and Maintenance provide a safe, healthy, high-quality learning environment for all students and staff. Averaging approximately 19,000 square feet of building space per building operations staff, school-based building service positions directly support operational excellence by providing numerous services such as housekeeping, safety inspections, preventative maintenance, and maintenance work request coordination. Building service staff also support the schools' important role in the community by assisting with outside use of school facilities by community partners. Facility maintenance and repair, facility
emergency response, environmental compliance, systemic asset replacement, and building automated controls services are accomplished through maintenance staff positions. These services are critical to provide safe, comfortable, and operational facilities on a daily basis.

## Real Estate Management (Operational Excellence)

Through a self-supporting entrepreneurial fund, the Real Estate Management Team negotiates and manages tenant leases, assists with the development of countywide master plans as it pertains to future school sites, acquires and manages future school sites, manages the artificial turf partnership program, and generates revenue through joint tenant, closed school and telecommunication tower leases that are used to offset MCPS-leased administrative and support space expenditures, and as a result, reduce funding required in the operating budget and requested from the county.

## Utility Management and Resource Conservation Services (Operational Excellence)

In context of the MCPS Environmental Sustainability Management Plan, the department continues to focus on energy conservation, water efficiency, and environmental stewardship. Through an array of efficiency measures and energy procurement strategies, such as energy retrofit projects and wholesale energy procurement, and increasing conservation awareness, the department continues to achieve substantial energy cost avoidance.

## OVERVIEW OF BUDGET CHANGES

## FY 2021 RECOMMENDED BUDGET

The FY 2021 recommended budget for this department is $\$ 167,457,670$, an increase of $\$ 3,222,189$ over the current FY 2020 budget. An explanation of this change follows.

## Same Service Level Changes-\$3,222,189 <br> Realignments to Meet Expenditure Requirements and Program Priorities-\$0

The FY 2021 recommended budget includes realignments that result in an overall budget neutral set of realignments within the Division of Maintenance. There are realignments resulting in decreases of $\$ 105,924$ for 3.0 general maintenance worker II positions, $\$ 47,418$ for a 1.0 glazier position, and corresponding increases of $\$ 103,544$ for 3.0 general maintenance worker I positions, $\$ 47,418$ for a 1.0 carpenter I position, and $\$ 2,380$ for maintenance supplies.

## New Schools/Space—\$1,884,766

There is an increase of $\$ 492,656$ in utilities for electricity, gas, water and sewer expenses related to an additional 481,426 square feet of space for the combined expansion of Seneca Valley High School and other modernizations of schools. In the Division of School Plant Operations, the budget includes an additional $\$ 838,290$ for 26.5 building services positions as a result of the additional square feet of space. The budget also includes an increase of $\$ 67,820$ for custodial and uniform supplies. In the Department of Facilities Management, the budget includes an increase of $\$ 486,000$ for relocatable classrooms, as a result in a shift in costs of 50 units from the Capital Budget to the Operating Budget after one year of funding in the Capital Budget.

## Other-\$367,423

In the Division of Maintenance, the budget includes a total of \$250,000 for contractual services and facility code compliance matters related to fall protection, elevator inspections, and environmental compliance mandates. In the Division of School Plant Operations, there is an increase of \$50,000 for air conditioning filters to schools and facilities to fund ongoing deficits, and $\$ 54,513$ for vehicle replacement funds for high mileage repair shop vehicles. In the Department of Facilities Management, there is an increase of $\$ 88,656$ in building rental costs for leased facilities, and a decrease of $\$ 75,746$ for electricity, gas, and water and sewer expenses due to changes in rates.

## Enterprise Funds—\$970,000

In the Real Estate Management Fund, there is an increase of $\$ 1,000,000$ to support artificial turf replacement at schools. There also is a decrease of $\$ 77,111$ for a 1.0 building service manager I position and a 1.0 building service assistant manager position. In addition, the budget includes an increase of $\$ 31,987$ for a 1.0 building service worker position, $\$ 5,124$ for contractual services and $\$ 10,000$ for legal services. These budget changes to positions can be made due to the elimination of the Tilden Center.

Division of School Plant Operations - 329/327/328/330

\title{
MISSION The Department of Transportation (DOT) provides safe, timely, and efficient transportation that contributes to the educational success of all students through staff committed to excellence and continuous improvement. We provide access to education.
}

\section*{MAJOR FUNCTIONS}

\section*{Regular Education Transportation (Operational Excellence)}

DOT supports the strategic priority of learning, accountability, and results through daily transportation of more than 100,000 students on regular education school buses to neighborhood schools, Head Start, magnet, International Baccalaureate, language immersion, consortium, and other programs. DOT's framework for routing in support of consortium schools, allowing students to choose from a variety of magnet programs that match their interests and skills, ensures that our students are challenged, demonstrate progress in an area of interest, and maximize their potential to keep them on track for graduation and postsecondary success.

DOT continually evaluates safety and on-time arrival data to improve key performance outcomes in these areas. On-time bus arrivals at schools are a key indicator for the effectiveness of ensuring that students are in class ready for instruction at the prescribed time. Late arrival of students at schools causes disruption in classrooms and may preclude some students from having school provided breakfast.

\section*{Special Education Transportation}

\section*{(Operational Excellence)}

With a focus on learning, accountability, and results, as well as community partnerships and engagement, approximately 5,000 students are transported daily on special education buses to special education programs.

Many students require transportation to specialized programs outside of their home school or require specialized equipment and/or a bus attendant. DOT fully supports the system goal of academic excellence for all students by closely monitoring our investment of resources and aligning resources to meet the individual needs of each student. Additionally, DOT is committed to developing and maintaining partnerships with our parents and
schools so that communication among all partners is achieved to support student and family needs.

\section*{Field Trips (Operational Excellence)}

Over 14,000 supplemental transportation services are provided on an annual basis for field trips and extracurricular activities for instructional programs and to enrich the educational experience for MCPS students on a cost-recovery basis. DOT recognizes and supports the importance of additional learning opportunities provided by field trips, clubs, and sports which require a strong partnership and collaboration with our schools and communities. Student involvement and engagement in these activities contributes to academic and personal success as they move toward graduation and postsecondary careers.

\section*{Career and Technology Education, Outdoor Education, and After-school Activities (Community Partnerships and Engagement; Operational Excellence)}

Community partnerships and engagement are supported by providing transportation for students to attend various career and technology programs that enhance the educational options for students. Students, at some point in their MCPS journey, are transported to one or more outdoor education programs. Middle and high schools are provided bus service to take students to their neighborhoods following afterschool activities, ensuring equitable access to extracurricular experiences. DOT cultivates strong partnerships and collaboration with our schools and communities to realize the additional learning opportunities provided by career and technology education, outdoor education, and after-school activities. Student involvement and engagement in these activities enhance academic and personal success as students move toward college and career readiness.

\section*{Vehicle Maintenance and Repair (Operational Excellence)}

Focusing on operational excellence, the Fleet Maintenance Unit manages vehicle maintenance, five repair facilities, provides fuel distribution, and repairs 1,378 buses and 150 other MCPS vehicles. Most repair services are provided at the five depot repair facilities; some specialized services are contracted out. Ensuring safe, reliable, and on-time service to the over 100,000 students transported on a daily basis is a key element of ensuring academic excellence for all.

\section*{Human Resources and Training (Human Capital; Operational Excellence)}

Human resource services managed within the department include advertising and recruiting; hiring; prior employment record checks; drug testing; safety training; and maintenance of licensing, certification, and medical record assessments. DOT continues to facilitate the rapid deployment of new school bus operators by authorization from the state of Maryland to conduct Motor Vehicle Administration driver record checks and commercial driver's license testing on MCPS premises. The training and employment plan is aimed at employee retention with an overall goal of reducing training and recruiting needs and costs. DOT contributes to the strategic priority of human capital management through an emphasis on professional growth and development.

School bus operator and attendant training and retention is facilitated by ongoing cooperative professional growth activities with Service Employees International Union (SEIU) Local 500. DOT plans to work collaboratively with our labor partners on a professional development program to encourage our diverse group of employees to consider future careers as teachers. Additionally, in a Maryland State Department of Education comparison of statewide transportation training programs, MCPS DOT offers more learning opportunities for its staff than any other Maryland school system.

\section*{Transportation Administrative Services}
(Human Capital; Operational Excellence)
DOT designs all bus routes and manages employee assignments, planning, training, personnel services, accounting, and related services to more than 2,100 permanent and temporary employees. The systemwide bidding process for midday and other extra work developed jointly between SEIU Local 500 and DOT continues to provide assignment stability resulting in improved service to customers. Pre-employment, post-accident, random, and reasonable suspicion drug-testing programs required by federal law also are administered.

\section*{OVERVIEW OF BUDGET CHANGES}

\section*{FY 2020 CURRENT BUDGET}

The current FY 2020 budget for this department is changed from the budget adopted by the Board of Education on June 12, 2019. The change is a result of a realignment of \(\$ 8,000\) from student transportation to chapter 1, schools, to support activities related to The Blueprint for Maryland's Future—Transitional Supplemental Instruction grant.

\section*{FY 2021 RECOMMENDED BUDGET}

The FY 2021 recommended budget for this department is \(\$ 120,327,061\), an increase of \(\$ 5,129,656\) over the current FY 2020 budget. An explanation of this change follows.

\section*{Same Service Level Changes-\$1,867,763 Student Enrollment-\$1,120,050}

Due to projected enrollment growth, there is an increase for eight additional buses at an annual lease/purchase cost of \(\$ 173,413\). In addition, there is an increase of \(\$ 435,283\) for 15.0 bus operator I positions, and \(\$ 373,507\) for 15.0 bus attendant positions. Furthermore, there is an additional \(\$ 137,847\) budgeted for substitute bus drivers, bus repairs, parts, and supplies.

\section*{Bus Replacement-\$567,713}

The department's budget reflects a reduction of \(\$ 2,338,752\) in lease payments on buses purchased in prior years. Offsetting this reduction is a \(\$ 2,906,465\) increase for the lease/purchase of 115 buses to replace those that have reached the end of their normal service life.

\section*{Other-\$20,000}

The budget includes an increase of \(\$ 20,000\) for uniforms for new bus staff members per union contract. In addition, the budget for diesel fuel will remain at \(\$ 2.25\) per gallon, resulting in no increase to the fuel budget from the prior year.

\section*{Enterprise Funds—\$160,000}

There is an increase of \(\$ 160,000\) in the Field Trip Fund to address budget appropriation needs to meet expected revenue projections within the fund. Additional funds within the Field Trip fund have no impact on the taxsupported budget.

\section*{Strategic Accelerator-\$3,261,893}

Focus on Operational Excellence-\$2,740,075
The budget includes one strategic accelerator that focuses on operational excellence. To fund this strategic accelerator, the budget includes 17 additional buses at an annual lease/purchase cost of \(\$ 385,786\). In addition, there is an increase of \(\$ 843,361\) for 29.063 bus operator I positions, and \(\$ 373,507\) for 15.0 bus attendant positions. There also is an additional \(\$ 387,421\) budgeted for substitute bus drivers, bus repairs, parts, and supplies. Primarily, these funds are budgeted to address Choice programs implemented in the budget. Furthermore, there is an addition of \(\$ 750,000\) for school bus mobile apps for tracking real-time GPS. Additionally, \$476,648 for employee benefits is added to chapter 10, Department of Employee and Retiree Services budget.

Focus on Learning, Accountability, and
Results-\$521,818
The budget includes one strategic accelerator that focuses on learning, accountability, and results. To fund this strategic accelerator, the budget includes \$181,896 for after school activities related to the Excel Beyond the Bell program, and \$339,922 for student transportation costs related to Finance Park and other transportation programs directed under the leadership of the Chief Academic Officer.

\title{
M I S S I O N The Department of Materials \\ Management (DMM) economically facilitates \\ the delivery of approved, high-quality \\ products, meals, resources, and services, \\ in an environment of cooperation, integrity, and excellence, that are essential to the educational success of all students in MCPS and support the programs of our community partners.
}

\section*{MAJOR FUNCTIONS}

\section*{Supply and Property Management (Operational Excellence)}

DMM manages a warehouse and distribution network that provide the necessary textbooks, classroom and office supplies, science kits, furniture, equipment, and test materials to MCPS schools and offices. An efficient and effective mail service, for both internal (Pony) and external mail, is provided. DMM, with a laser-like focus on operational effectiveness and a culture of commitment to supporting schools, strives to effectively deliver the resources and services required of all instructional programs. This is accomplished by listening to the needs of its customers, understanding requirement expectations, and anticipating needs to formulate strategies to meet targeted goals, align work across other offices, and benchmark best practices in the supply chain industry.

\section*{Instructional and Library Material Processing (Operational Excellence)}

DMM maintains a database of approved textbooks and library and instructional materials. It also circulates videos requested by teachers for classroom use. School library media purchases are processed centrally to ensure uniformity, facilitate systematic cataloging of records, and save time for school staff. Staff collaboratively engage with offices and school-based staff to ensure all materials fully support the instructional program.

\section*{Editorial, Graphics, and Publishing Services (EGPS) (Operational Excellence)}

EGPS is responsible for providing document preparation, graphic content, and editorial support to schools and offices. Products include public information materials, student daily planners and handbooks, student diplomas and certificates, and other guides used in the academic programs. Custom color printing also is provided. Copy-Plus provides centralized duplication for instructional materials permitting teachers to maximize time spent providing instruction. TeamWorks provides copier equipment and maintenance for the high-volume copiers located in all schools and many offices. There is a focus to provide additional copier resources to highly impacted schools and schools with large enrollments.

\section*{Procurement (Operational Excellence)}

The Procurement Unit purchases goods and services through contract awards to vendors who meet product specifications. The unit monitors vendor performance and product quality to ensure maximum customer satisfaction. Maryland state law requires MCPS to advertise for sealed bids for materials, equipment, and supplies that cost more than \(\$ 25,000\). In FY 2010, the state passed a funding accountability law (pertaining to MCPS only) that provides for web-based reporting to the public; several other jurisdictions have since followed with similar information. In addition, the Board of Education has tasked the Procurement Unit with promoting outreach efforts and actively recruiting minority, female, and disabled vendors. Excellent customer service is paramount to providing the resources needed to successfully support instructional programs.

\section*{Food and Nutrition Services (Operational Excellence)}

The Division of Food and Nutrition Services provides high-quality, nutritious meals in a cost-effective and efficient operation. The division administers five child nutrition programs, a central production facility, and a food warehouse and distribution center. A hungry child cannot learn, therefore, breakfast and lunch meals, as well as after-school snacks and suppers, are provided to students during the school year. Summer meals are provided to MCPS students enrolled in academic and other programs. The division also provides nutrition education and support to schools and various community groups. This division strives to continually identify, through the use of data and process review, opportunities to reach more students in need of food supports to improve their opportunities to learn.

\section*{OVERVIEW OF BUDGET CHANGES}

\section*{FY 2021 RECOMMENDED BUDGET}

The FY 2021 recommended budget for this department is \(\$ 71,820,593\), an increase of \(\$ 1,294,683\) over the current FY 2020 budget. An explanation of this change follows.

\section*{Same Service Level Changes-\$1,221,352 Student Enrollment-\$69,029}

Due to ongoing enrollment growth and additional square feet of space with new schools, there is an increase of \$69,029 for 2.0 warehouse worker positions in the Supply and Property Management Unit within the Department of Materials Management. Additional warehouse workers are necessary to keep up with increased school needs for food and supplies as there have been minimal staffing changes within the unit over the past 15 years.

Realignments to Meet Expenditure Requirements and Priorities-\$0
There are a number of realignments budgeted to address priority spending needs within this department. In the Department of Materials Management, there is a realignment of \(\$ 45,058\) for a 1.0 administrative secretary I position to fund a 1.0 buyer assistant II position within the Procurement Unit. In addition, there is a realignment of \(\$ 10,000\) from contractual services to postage to support additional mailing service needs.

Other-\$163,023
In the Editorial, Graphics, and Publishing Unit, there is an increase of \(\$ 54,087\) for instructional materials, \(\$ 34,000\) for program supplies, and \$9,936 for lease/purchase of refurbished school copiers. The increase in instructional materials is due to increased demand for instructional documents requested by teachers through the Copy-Plus program. Additional funds for program supplies are for toner and parts on school copiers. In addition, there is an increase of \(\$ 65,000\) for postage due to increased mailing expenditures related to Partnership for Assessment of Readiness for College and Careers and Measures of Academic Progress assessments.

\section*{Enterprise Funds—\$989,300}

Within the Division of Food and Nutrition Services, the budget includes an increase of \(\$ 989,300\) to address budget appropriation needs to meet expected revenue projections within the enterprise fund. The increase will have no impact on the tax-supported budget, as all funds within enterprise funds are self-supported.

\section*{Strategic Accelerator-\$73,331}

Focus on Operational Excellence-\$73,331
The budget includes one strategic accelerator that focuses on operational excellence. To fund this strategic accelerator, the budget includes \(\$ 73,331\) for a 1.0 buyer II position. The position will assist current staff with active bids as well as handling purchase orders in the Procurement Unit. Additionally, \(\$ 28,724\) for employee benefits is added to chapter 10, Department of Employee and Retiree Services budget.

\title{
Department of Systemwide Safety and Emergency Management
}

\author{
MISSION The Department of \\ Systemwide Safety and Emergency \\ Management (DSSEM) promotes a safe and \\ secure learning and working environment for \\ students and staff.
}

\section*{MAJOR FUNCTIONS}

\section*{Comprehensive School System Emergency Preparedness (Operational Excellence)}

DSSEM staff members design, develop, and conduct safety and security training programs for all security staff, school-based administrators, and all other schooland facility-based staff. DSSEM is responsible for developing overall school system emergency response protocols and working in partnership with public safety agencies to mitigate emergency scenarios that affect the school system. Staff provides security support and performs security assessments for all existing schools and facilities. Staff investigates and recommends corrective action regarding serious security issues and responds to critical incidents that occur in schools and facilities. DSSEM staff reviews and assesses the readiness of all staff to react in emergency situations and develop les-son-learned summaries for review with MCPS stakeholders and public safety partners

\section*{School Security Program Infrastructure Development and Management (Operational Excellence)}

DSSEM staff members facilitate the design and installation of all security systems. These systems include, but are not limited to, access control systems, visitor management systems, and digital surveillance systems. Staff works with selected security contractors and MCPS technology staff to survey and study all new security technology. DSSEM staff members perform site evaluations and review construction plans for safety and security concerns in new and modernization construction projects.

\section*{24-Hour Facility and Property Security}
(Operational Excellence)
DSSEM's Electronic Detection Section monitors perimeter intrusion, motion detectors, glass breakage, refrigeration, boiler, and power outage alarms at all MCPS schools and facilities after hours, on weekends, and on holidays. Security patrollers respond to schools and facilities for reports of alarms, burglaries, vandalism, suspicious individuals, trespassers, and various other calls for service.

\section*{Systemwide Safety Programs \\ (Operational Excellence)}

The department implements online safety and health training programs, responds to safety-related incidents and concerns, manages the MCPS Automated External Defibrillator (AED) Program, and ensures compliance with student and employee safety and health regulations. In efforts to improve safety in schools and minimize work-related injuries, the department administers seven major safety programs and provides ten online safety training courses to over 23,000 staff members on an annual basis. DSSEM provides essential central office support to schools in coordinating compliance efforts centrally to relieve schools of this additional work and allow the focus to remain on teaching and learning.

\section*{OVERVIEW OF BUDGET CHANGES}

\section*{FY 2021 RECOMMENDED BUDGET}

The FY 2021 recommended budget for this department is \(\$ 4,229,583\), an increase of \(\$ 384,904\) over the current FY 2020 budget. An explanation of this change follows.

\section*{Same Service Level Changes-\$73,548}

Realignments to Meet Expenditure Requirements and Program Priorities—\$73,548
The FY 2021 recommended budget includes additional realignments that result in an overall budget neutral set of changes between departments and offices. There is a realignment from chapter 8, Office of Chief Technology Officer of \(\$ 73,548\) to the Department of Systemwide Safety and Emergency Management budget to support a 1.0 video records specialist position. In addition, there is a realignment of \(\$ 30,000\) from contractual services within the Department of Systemwide Safety and Emergency Management budget to lease/purchase to create a vehicle replacement schedule for high mileage vehicles.

\section*{Department of Systemwide Safety and Emergency Management 337/315}

\section*{Strategic Accelerator-\$311,356}

Focus on Operational Excellence-\$311,356
The budget includes one strategic accelerator that focuses on operational excellence. To fund this strategic accelerator, the budget includes \(\$ 271,356\) for 6.0 office security monitor positions, and \(\$ 40,000\) for lease/purchase of vehicles. The primary purpose for the additional positions is to have security measures in place for elementary schools as the office security monitor positions will act as school rovers. The additional funds requested in the budget for lease/purchase will be used to purchase vehicles for the office security monitor positions. Additionally, \(\$ 110,954\) for employee benefits is added to chapter 10, Department of Employee and Retiree Services budget.

\section*{Department of Systemwide Safety and Emergency Management}

F.T.E. Positions 29.5
*The 234.0 positions in schools also are shown on K-12 charts in Chapter 1 and Office of Special Education and Student Services in Chapter 5
