

### **Participating in Extended Pay? Look for Your Payouts Starting June 26, 2026**

If you are a 10-month employee who enrolled in Extended Pay last fall, you will receive the money deducted from your paychecks during the school year on the following pay dates:

- June 26, 2026
- July 10, 2026
- July 24, 2026
- August 7, 2026
- August 21, 2026
- September 4, 2026

Because your summer pay was already calculated and withheld during the school year, these payments are considered payouts rather than earnings. As a result, you will not see the payouts listed under Gross Pay on your Pay Statements. Instead, they will appear under Net Pay.

Extended Pay payouts are post-tax, so no additional taxes will be withheld.
