INCOME TAX WITHHOLDING FOR RETIREES

Each retiree is responsible for having the required State income tax withheld based upon their overall income and projected tax liability. However, it is not necessary to have withholdings from each individual income source. Instead, retirees normally need to have one Federal and one State withholding account (depending upon your state of legal residence, and applicable state tax laws). Individuals who do not have enough income tax withheld may wish to file estimated taxes or they may be subject to penalties if their withholding is not adequate.

Some states exclude pension income from taxable wages while other states exclude pension income once you have attained a certain age, such as age 65. Other states treat pension income as fully taxable. Therefore, it is critical to familiarize yourself with the tax laws and withholding requirements of your state of residence or consult a qualified tax or financial advisor for additional questions or information.

Each year, you file Federal and State income tax returns to determine your actual tax liability. Then, based upon the amount withheld during the tax year, you will either owe additional taxes or receive a tax refund. As your income grows over time, you may need to increase your tax withholdings to insure that adequate taxes have been withheld. Several forms are used to establish or update the amount of federal and state taxes that are withheld from your pension. The forms you will need depend upon your state of residence, and whether you receive your core retirement benefit from the State Teachers' Retirement System or the MCPS Employee's Retirement/Pension System through MCPS' agent, Aetna, Inc.

The following four examples illustrate the common situations based upon plan membership and state of residence. Each example will explain the necessary forms and where to send them to establish or adjust your withholding amount.

Your withholding rate is determined by the type of payment you will receive.

- For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100% on line 2. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its territories.
- For an eligible rollover distribution, the default withholding rate is 20%. You can choose a rate greater than 20% by entering the rate on line 2. You may not choose a rate less than 20%.

See page 2 for more information.

Complete this line if you would like a rate of withholding that is different from the default withholding rate. See the instructions on page 2 and the Marginal Rate Tables below for additional information. Enter the rate as a whole number (no decimals)	2	22	%

General Instructions

Section references are to the Internal Revenue Code.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular

intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

2023 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See page 2 for more information on how to use this table.
