

Client Meeting

PROJECT: WOODLIN ELEMENTARY SCHOOL
219-20-00

DATE: 04 August 2020

ATTENDEES: MCPS:
Ken Futch, Project Manager, MCPS
Dennis Cross, MCPS
DJ Connelly – MCPS, Educational Planner

ADTEK:
Douglas Ostazeski, Civil Engineer

Design Collective:
Scott McGovern
Scott Vieth
Fred Marino
Brock Scarborough
Brian Reetz
Anna Dennis

See Sign-in Document For Community Attendees

CC: Cassandra Scott, WES
Katherine Manzanares, MCPS
Ashley Beesam, ADTEK

COMMENTS: Notes

MEETING MINUTES

Ken Futch and Principal Jackson opened the meeting by addressing the community and introducing DCI. Then DCI walked through the presentation.

- Project goals
- Site
- Review past design decisions
- Refined Site Diagram
- Refined Plan Diagram
- Q&A

MEETING NOTES

From Paul Mortensen to Everyone: (6:28 PM)

The bridge was certainly one of the icons of this proposal. Very sorry to see it leave. Certainly a very long winding accessible path is not as nice and takes up a lot of land.

From Becky Wasserman to Everyone: (6:30 PM)

Agree that loss of bridge seems too bad. Not totally clear why we have to go with option 2.

Client Meeting

DATE: 04 August 2020

From Emily Menashes to Everyone: (6:32 PM)

What were the school's safety concerns with the bridge? I thought that was a really creative solution and hate it see it go. When community is using upper fields now, they use upper parking lots, so that wouldn't really be a chance. But, the bridge gives such easier access to the upper area for LFI kids or others who have mobility issues.

From Paul.Mortensen to Everyone: (6:34 PM)

Like the green roof with access to the classrooms.

From Bill Le Roy to Everyone: (6:35 PM)

Will you provide an analysis under the Chapter 10 of the ADA?

From Joanna Snyder to Everyone: (6:36 PM)

Agreed! Green roof is a great consideration

From Bill Le Roy to Everyone: (6:36 PM)

There is a 20% rule related to provide equal accommodations.

From Victoria Hougham to Everyone: (6:37 PM)

Do you have any more detail on the layout on child bathrooms? Rock creek forest ES has fantastic bathroom layouts where the entrances have a number of sinks so that hand washing can happen very regularly without fully going into the bathroom. This might be a good time to think about more sinks in the cafeteria too!

From Bill Le Roy to Everyone: (6:37 PM)

Ch 10 is related to the site

From Dan Hattis to Everyone: (6:38 PM)

Is there any thought about providing access to sinks near the cafeteria so that students can wash hands prior to eating? That's missing from the current school. Would help control spread of illness

From Bill Le Roy to Everyone: (6:40 PM)

The upper field space access is a challenge to provide reasonable accommodations to ensure equal treatment.

From Dan Hattis to Everyone: (6:41 PM)

Thanks and what is the latest on timing of construction? Are there any remaining barriers to this moving forward on a timely basis?

From Bill Le Roy to Everyone: (6:42 PM)

Consider incorporating the Fibonacci series in wall or floor patterns allowing the building to be used a teaching tool?

From Victoria Hougham to Everyone: (6:43 PM)

Client Meeting

DATE: 04 August 2020

Will there be any other opportunities for community feedback, info sessions, and status updates?

From Bill Le Roy to Everyone: (6:43 PM)

Other thought can go to Ken F.

Next Meeting: TBD

The above is the author's interpretation of the items discussed. Any corrections or discrepancies should be brought to the author's attention within seven days, or the minutes will stand as written.
