MCPS YARD WASTE

Montgomery County Regulation 1-15 requires MCPS to recycle yard waste.

1. When collecting leaves, grass clippings, or other yard waste that needs to be removed from your location, please place them in **CLEAR** plastic bags. Large branches should be kept separate.

2. Place the bags in a designated area and do not mix with bulk trash items. Do not place on the loading dock.

3. Use Asset Essentials to submit a work order. In the comment section, specify that you are requesting a pickup for yard waste and the number of bags to be picked up.

Thank you for doing your part to keep yard waste out of the trash!
