### **Maryland Facility AED Report Form for Cardiac Arrests**

All facilities registering with MIEMSS for Public AED use will be required to fill out a Facility AED Report Form when:

- 1. A suspected Cardiac Arrest occurs at your facility whether or not the AED was applied; OR
- 2. Any time the Facility AED pads are put on a person (regardless of the person's medical condition). This includes the use of a Facility AED <u>for any reason</u> by either an authorized employee or an unauthorized person.

#### WHEN DOES THE REPORT NOT NEED TO BE FILLED OUT?

The report does not need to be filled out for non-cardiac related false alarms when the AED is retrieved but the pads are not applied. (Example: A customer feels ill and the AED is brought to the patient's side. The caregiver at the scene does not put the AED pads on the patient because the patient is not suspected of having a cardiac arrest.)

#### WHO SHOULD FILL OUT THE REPORT?

The report form should be filled out immediately after an incident occurs at your facility by the main Facility Caregiver at the scene and the Facility AED Operator (if a different person). The main Facility Caregiver at the scene is defined as the facility employee who begins the resuscitation process prior to the Facility AED operator arriving. In some circumstances, the Facility Caregiver and the Facility AED Operator may be the same person. If the person initiating resuscitation is not a facility employee, then the Facility AED Operator should be the person who fills out the form. The facility is not responsible for tracking down bystanders who are active in the resuscitation process. However, the report form should accurately reflect that a bystander and not a facility employee initiated the CPR process. The Facility AED Coordinator should review the report and help clarify any questions that the caregiver may have concerning the report.

# WHAT IS THE TIME FRAME FOR FILLING OUT THE REPORT & SENDING IT BACK TO MIEMSS?

The report should be *filled out immediately following the incident* so that the information is still fresh in the mind of the main Facility Caregiver and the Facility AED Operator. If the caregiver has questions about the form, he/she will have 48 hours to consult with the Facility's AED Coordinator. The AED Coordinator is responsible for seeing that the report is *returned to MIEMSS within 48 hours following the incident.* 

#### WHO WILL SEE THIS REPORT?

This is a confidential report. The AED Coordinator should keep the original copy on file at the facility and a copy should be sent to MIEMSS for quality control purposes. It will be viewed only by the main Facility Caregiver at the incident, the Facility AED operator (if different from the main Facility Caregiver), the Facility AED Coordinator, and MIEMSS. MIEMSS will use the report for quality assurance and research purposes only.

# WHAT IS THE RESPONSIBILITY OF THE FACILITY'S AED COORDINATOR REGARDING THE REPORT FORM?

1. The Facility AED Coordinator should answer any questions the main caregiver/AED operator has when filling out the form. Any further questions should be directed to MIEMSS Office of Special Programs (410) 706-4740.

- 2. The Facility AED Coordinator is responsible for seeing the form is <u>fully completed</u>. The AED Coordinator must return to MIEMSS within 48 hours of the incident:
  - A copy of the Facility AED Report Form,
  - A copy of the AED Summary Report (internal report generated from the facility AED) and
  - A copy of the FDA Incident Form (if applicable).
- 3. The Facility AED Coordinator is responsible for keeping on file at the facility: the original AED Report Form, a copy of the AED Summary Report and a copy of the FDA Incident Form (if applicable). Because these are confidential reports, the facility file should be in a secure room and locked.

#### WHERE DO I SEND THE MIEMSS REPORTS?

The forms can be returned to MIEMSS by either Fax or Express Mail.

MIEMSS Fax: (410) 706-4366 OR Express Mail to MIEMSS: 653 West Pratt Street

Baltimore MD 21201
