Have a Sustainable Thanksgiving

Celebrate with gratitude, good food, and choices that are kind to people and the planet.

Plan Ahead

Make a menu, check what you have, and buy only what you need.

Choose Less Waste

Use reusable containers and avoid single-use plastics, like disposable plates and utensils.

Eat Responsibly

Save leftovers and enjoy them later, or share with family, friends, or neighbors.

Keep It Out of the Trash

Compost food scraps (if available) and recycle bottles, cans, cardboard, and paper.

Give Back

Consider donating nonperishable food items to a local food bank.

Don’t forget to turn off lights and unplug applicances as you leave for break!
