

INTEGRATED PEST MANAGEMENT NOTICE
School Year 2026–2027

Elementary Schools: Maryland Law requires that school staff and parents/guardians of all students be notified prior to planned pesticide applications in the school or on school grounds, or within 24 hours of an emergency application. Without exception, notices will be sent to all parents/guardians and circulated among school staff members.

Secondary Schools and Administrative Centers: Maryland Law requires that school-based staff, parents/guardians of middle or high school students, and staff at administrative centers who wish to be notified prior to pesticide applications in the building or on the grounds must request that they be placed on the school's pesticide notification list. To do so, please fill out the enrollment form attached to this notice and return it to your school or administrative center.

All Facilities: The Integrated Pest Management (IPM) Program implemented in Montgomery County Public Schools is a proactive approach designed to control insect and rodent control in school facilities and on school grounds. The IPM Program includes frequent inspections of all school facilities to examine for pests and the conditions that favor pest invasions. As a first step in pest control, the IPM approach employs a number of preventive strategies and alternatives to pesticide application, such as employee education, source reduction, inspection, identification of potential problem areas, and improved sanitation. Each strategy is monitored and evaluated, and modifications, if necessary, are completed. Pesticides will be used only as a last resort or in an emergency

Pesticides and bait stations, by product name and common name, which may be used in buildings or on grounds during the school year include, **but are not limited to:**

<u>Product Name</u>	<u>Common Name</u>
Advion Cockroach Bait Arena	Indoxacarb
Advion Cockroach Gel Bait	Indoxacarb
Alpine WSG	Dinotefuran
Altosid Pro-G Mosquito IGR	Methoprene
Avert Dry Flowable Roach Bait	Abamectin
Contrac Soft rodent Bait	Bromodiolone
Cynoff EC	Cypermethrin
Cy-Kick CS	Cyfluthrin
Deltadust Insecticide Dust	Deltamethrin
Demon WP	Cypermethrin
Demon Max	Cypermethrin
Drione Insecticide Dust	Pyrethrins
Dylox 6.2 grams Granules	Trichlorfon

<u>Product Name</u>	<u>Common Name</u>
First Strike Soft Rodent Bait	Difethialone
Fastrac Soft Rodent Bait	Bromethalin
Garlon 4 Ultra	Triclopyr-2-Butoxyethyl Ester
Garlon 3A	Triclopyr 2-[(3,5,6-trichloro-2-pyridinyl)oxy]
Gentrol Point Source Roach Control	Hydropene
Gentrol IGR Concentrate	Hydropren
Gentrol CompleteEC3	Hydropene, Lambda-cyhalothrin
Maxforce FC Ant Bait	Fipronil
Niban Granular Bait	Orthoboric acid
Nibor D Insecticide	Disodium octaborate tetrahydrate
NiborD Foam & IGR	Disodium octaborate tetrahydrate
Optigard Ant Gel Bait	Thiamethoxam
Optigard cockroach Gel Bait	Emamectin benzoate
Phantom Termiticide Insecticide	Chlorfenapyr
Premise 75 Termiticide	Imidacloprid
Premise Foam insecticide	Imidacloprid
PT Tri-Die	Pyrethrins
PT Wasp fFreeze II	Prallethrin
PT565 plus XLO	Pyrethrins
Rat-Sorb Deodorizer	Camphoraceous
Rozol Tracking Powder	Chlorophacinone
Talon G Rodent Bait	Brodifacoum
Talstar Professional Multi-Insecticide	Bifenthrin
Termidor SC Termiticide	Fipronil
Terro PCO Ant Bait	Sodium borate
Tim-bor Pro Insecticide Fungicide Powder	Disodium octaborate tetrahydrate
ULP BP100	Pyrethrins
ZP Tracking Powder	Zinc Phosphide

Mr. Idris Ahmad, Integrated Pest Management Supervisor, Environmental Services/Indoor Air Quality, Department of Facility Maintenance, maintains copies of Safety Data Sheets and product labels for all pesticides and bait stations used in school buildings or on grounds. If you would like to review this information, please contact Mr. Ahmad at 240-740-2330 or via e-mail at Idris_Y_Ahmad@mcpsmd.org.
