

Trex Plastic Film Recycling

What can be recycled?

Plastic film items, such as plastic bags, plastic overwrap, and bubble wrap.

Trex shreds plastic films and turns them into a wood replacement product. This product can be turned into benches, decks, or anywhere wood would normally be used.

Incentive

By participating in this recycling program, your school could win a prize. For more details on how to participate and what your school can win, check the [Trex website](https://www.nextrex.com).

For more information:

visit www.nextrex.com or email sustainability@mcpsmd.org

DIRECTIONS

- Collect plastic film items
 - Ensure all items are clean and dry before recycling. More detailed instructions can be found on the Trex website.
- Collect these items in a box or plastic bag.
- In order to be entered into the contest, you must make an account for your school at [nextrex.com](https://www.nextrex.com)
- As you collect plastic, you can record the number of bags of film you collect into the nextrex system.
- Bring your collected items to a Safeway, Giant, or Goodwill store to be recycled.
