Members of the Board of Education:

Maryland State law requires that local education agencies publish at the close of each year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. In compliance with that requirement, we hereby submit the Comprehensive Annual Financial Report (CAFR) of the Montgomery County Public Schools (MCPS) for the fiscal year ended June 30, 2004.

This report has been prepared pursuant to Education Article Section 5-109 of the Annotated Code of Maryland. The report consists of management's representations concerning the finances of MCPS. Management assumes full responsibility for the completeness and reliability of all the information presented in this report. Management has established a comprehensive internal control framework. Internal accounting controls are designed to provide reasonable assurance that assets are properly safeguarded and accounted for, and to ensure the reliability of accounting information for preparing financial statements in conformity with GAAP. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

MCPS' financial statements have been audited by Ernst & Young LLP, an independent firm of certified public accountants. The independent auditor's report is presented as the first component of the financial section of this report. MCPS also is required to undergo a federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. In addition to reporting on the fair presentation of the financial statements, the single audit places special emphasis on internal controls and legal requirements involved in the administration of federal awards. These reports are available in MCPS' separately issued Single Audit Report.

Overview of the Report

The CAFR is divided into three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, a copy of the award Certificate of Excellence in Financial Reporting, a listing of officials, and the organization chart.

The financial section includes the report of independent auditors, Management's Discussion and Analysis (MD&A), the basic financial statements, and the combining and individual fund financial statements and supplementary data. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of MD&A. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

MCPS Profile

The Board of Education of Montgomery County is the elected body, corporate and politic, established under Maryland law to provide public education in kindergarten through twelfth grade to children residing within the borders of Montgomery County, Maryland. The Board is composed of five district members, two at-large members, and one student member elected for a one-year term. The Board determines educational policy and employs a superintendent of schools to administer the school system. Primary funding is provided by Montgomery County from its general revenues. Funds also are received from state and federal sources for general school aid and specific purpose grants. The budget is approved by the Montgomery County Council. The Board of Education has no power to levy and collect taxes or increase the budget. Because of the relationship with Montgomery County, MCPS is considered a component unit of the county government, as defined by GAAP for governmental entities.

The general purpose financial statements and supplementary data in this report include all funds administered by MCPS in conjunction with its mission of providing elementary and secondary public education. The reporting entity also includes MCPS' component unit, the MCPS Educational Foundation, Inc. The Educational Foundation is legally separate from MCPS but included in the MCPS reporting entity because of the significance of its financial relationship with MCPS and because MCPS is considered financially accountable for the Foundation.

Factors Effecting Financial Condition

Local economy. MCPS receives approximately 76 percent of its operating budget from Montgomery County. The economic condition and outlook of the county, therefore, play substantial roles in the economic condition of MCPS.

For the Washington metropolitan area, most indicators reflect positive performance for the region's economy, with increases in employment and consumer confidence, and continued price stability. Employment has increased 3.1 percent in 2004. The region's unemployment rate has decreased from 3.6 percent in 2003 to 3.0 percent. Both the region's and the county's economies are expected to outperform the nation's economy due to the large presence of the federal government in the area. The federal government comprises approximately 30 percent of the County's economy.

Montgomery County's economy has experienced significant improvement in 2004. Resident employment in the county grew by 2.4 percent, and unemployment decreased from 2.6 percent in 2003 to 2.2 percent in 2004. County retail sales tax receipts increased 7.4 percent in 2004 compared to a 4.0 percent increase in 2003. Construction of non-residential property grew both in terms of square footage and in added value compared to 2003. The amount of new commercial real estate grew by 40 percent and the value of construction grew by 55 percent. Existing home sales have grown by 9.8 percent. Both median and average home prices in the county have increased by more than 20 percent this year, which will benefit the county's revenue outlook through higher residential property assessments. The sharp increase in home prices may in part be attributed to demand exceeding supply, with residential construction activity in the county experiencing a 20 percent decline during the first half of 2004 compared with the same period in 2003.

Multiyear budgeting. Six-year budget projections are updated each year, used as a starting point for discussion and planning, and revised each year to reflect trends and factors affecting enrollment. Preliminary projections for 2005 through 2010 indicate annual increases of at least \$104.0 million (6.5 percent). These projections do not include funds to address the initiatives planned in the MCPS strategic plan, *Our Call to Action: Pursuit of Excellence*, to raise the bar and close the achievement gap between ethnic groups. In addition, the projections for 2006 through 2010 do not include negotiated salary increases. Each one-percent salary increase will add \$12.3 million in 2006.

Negotiated agreements. In February 2001, the Board of Education reached a three-year contract with the Montgomery County Education Association (MCEA) that expired on June 30, 2004. Negotiations on a successor contract began in January 2004 and were completed in March 2004. All aspects of the contract were open to negotiation. The salary agreement calls for a 2.0 percent increase effective July 1,

Members of the Board of Education

2004, an additional 2.75 percent increase effective July 1, 2005, a 3.0 percent increase effective July 1, 2006, and a midyear increase of 1.0 percent during 2006-07. The agreement also allows for additional negotiations during FY 2005 and FY 2006 on several issues, including impacts of the "No Child Left Behind" Act and implementation of a Career Lattice plan.

In February 2003, MCPS completed negotiations with the Montgomery County Association of Administrative and Supervisory Personnel (MCAASP) on a three-year contract that took effect July 1, 2003, and runs through June 30, 2006. The agreement provided for reopened negotiations for salary and benefits for the second and third years of the agreement. Several leave of absence items and one additional Article at the option of each party also were open for negotiations. The negotiations resulted in a three-year agreement on salary and benefits, with the basic contract being extended one year, now expiring June 30, 2007. The salary agreement calls for a 2.0 percent increase effective October 2, 2004, an additional 2.0 percent increase effective Iuly 1, 2005, and a 4.0 percent increase effective November 1, 2006. The salary schedule was restructured to be more uniform between lanes, and longevity increases for service as an administrator in MCPS were added. There will be negotiations next year on a limited number of issues, and more extensive negotiations during the fall and winter of 2005-2006 on language issues for the final year of the agreement.

In February 2003, MCPS also completed negotiations with SEIU Local 500 (representing supporting services employees), on a two-year contract that was effective July 1, 2003, and goes through June 30, 2005. This agreement also provided for reopened negotiations for salary and benefits for the second year of the agreement. The negotiations for salary and benefits for the second year resulted in a three-year agreement on salary and benefits and an extension of the contract through June 30, 2007. The salary agreement calls for a 2.0 percent increase effective July 1, 2004, an additional 2.75 percent increase effective July 1, 2006, and a midyear increase of 1.0 percent during 2006-07. There will be negotiations in the fall of 2004 on most contract language except salary and benefits.

During the fall of 2003, the three unions participated in joint negotiations regarding benefits for all employees. These negotiations resulted in agreement on benefits terms for the next three years. The results of those negotiations mean a reduction of about 20 percent in the projected increase in Board of Education health care benefits costs for active employees for the first year (FY 2005).

Enrollment increases. MCPS continues to experience enrollment growth. MCPS enrollment was 139,203 students in FY 2004, 312 more than in FY 2003. The September 30, 2004, enrollment is projected to be 140,492. To relieve overcrowding, accommodate more full-day kindergarten classes, and provide for increased enrollment, MCPS added 52 classrooms to six schools in FY 2004, reopened a high school and will add another 43 classrooms to six schools in FY 2006.

In 2005, salary and other costs of additional teachers and school-based personnel required for enrollment changes are projected to increase operating costs by \$9.7 million. Increased costs will result because of an increase at the high school level of 1,383 students, and a projected increase of 575 students requiring special education classes. There also will be an increase of \$2.1 million for transportation of these students. Employee benefits costing \$1.7 million will be required for the new employees needed for enrollment changes.

Cash management program. MCPS maintains a cash management program for the purpose of achieving maximum financial return on available funds. Temporary idle cash is invested on a daily basis in a money market mutual fund and in fully collateralized repurchase agreements. Investment earnings were \$174,387 in 2004. Excess cash during the year is invested by the Montgomery County Government for MCPS. MCPS does not benefit directly from the investment earnings derived from the county's cash management and investment programs.

Risk Management. Table 4 in the statistical section of this report presents the Montgomery County and Board of Education's Self-Insurance Fund. This fund was established in 1954 so that properties of the county, including schools, could be partially self-insured for fire insurance purposes. Effective July 1, 1978,

Members of the Board of Education

this fund was merged into an expanded self-insurance program to cover workers' compensation, general liability, boiler, and motor vehicle risks. It appears that, based upon experience, this fund is mutually beneficial for all participating agencies. Additional information on MCPS' risk management activity can be found in note 10 of the notes to the financial statements.

Accomplishments and Awards

SAT scores. The 2004 graduating class achieved the highest ever SAT scores. The systemwide average SAT score was 1102, an eight point improvement compared with 2003. The average included the highest ever mathematics score (561) and the highest average verbal score in 12 years (541). The higher SAT scores mark the achievements of the first graduating class taking the SAT who were exposed to the full range of ongoing high school reforms in MCPS.

Academic progress. MCPS students outperformed or matched all other school systems in the state in all but one subject area of the 2003 High School Assessments. The performance of MCPS African American and Hispanic students, while lower than their white and Asian classmates, nearly matched or outperformed some entire school system scores.

Maryland Quality Award. The Office of the Chief Operating Officer received the bronze medal in the Maryland Quality Award competition, administered by the University of Maryland Center for Quality and Productivity. The awards are based on the Baldrige Criteria for Performance Excellence.

Financial Reporting Award. For twenty-three consecutive years, MCPS has received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting. This award, valid for one year, is granted only after an intensive review of the <u>Comprehensive Annual Financial Report</u> by an expert panel of certified public accountants and practicing school business officials. MCPS plans to submit the 2004 financial statements to ASBO and believes such statements also meet ASBO standards.

Acknowledgements

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire Division of Controller staff. The high standard of conformity of this report reflects the professional competence of all individuals responsible for its preparation. We express our appreciation for a job well done.

Respectfully submitted,

Independent Auditors' Report

To the Board of Education of Montgomery County, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Montgomery County Public Schools (MCPS) as of and for the year ended June 30, 2004, which collectively comprise MCPS' basic financial statements as listed in the table of contents. These financial statements are the responsibility of MCPS' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all materials respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Montgomery County Public Schools as of June 30, 2004, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2004 on our consideration of MCPS' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 12 through 20 and the Required Supplementary Information on page 53, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally

ERNST & YOUNG

accepted in the United States. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise MCPS' basic financial statements. The introductory section, supplementary data, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary data have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Montgomery County Public Schools Management's Discussion and Analysis

This section of the Montgomery County Public Schools (MCPS) Comprehensive Annual Financial Report presents a narrative overview and analysis of the financial activities of MCPS for the fiscal year ended June 30, 2004. Readers are encouraged to consider the information presented here in conjunction with additional information presented in the transmittal letter, which can be found on pages 1-4 of this report.

Financial Highlights

- The assets of MCPS exceeded its liabilities at June 30, 2004 by \$1,176.8 million, which represents its net assets.
- MCPS' net assets increased during the year by \$29.6 million.
- 97.0 percent of capital asset additions were directed toward instructional facilities, including the modernization of four schools.
- MCPS successfully realized its commitment to the Montgomery County Council to generate \$10.0 million in FY 2004 savings to be used to fund the FY 2005 operating budget.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the MCPS financial statements. MCPS' basic financial statements comprise three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

District-Wide Financial Statements

The *district-wide financial statements* are designed to provide readers with a broad overview of MCPS' finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of MCPS' assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of MCPS is improving or deteriorating.

The *statement of activities* presents information showing how MCPS' net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., depreciation and earned but unused annual leave).

Both of the district-wide financial statements distinguish functions of MCPS that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of MCPS include most of the

district's basic services, such as regular and special education, transportation, and administration. The business-type activities of MCPS include food services and real estate management operations, adult education and summer school, field trip services, and entrepreneurial activities.

The district-wide financial statements include not only MCPS itself (known as the *primary government*), but also the MCPS Educational Foundation, Inc. for which MCPS is financially accountable. Financial information for the *component unit* is reported separately from the financial information presented for the primary government itself.

The district-wide financial statements can be found on pages 23-25 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. MCPS, like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of MCPS can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, unlike the district-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the district-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

MCPS maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund, both of which are considered to be major funds, and the special revenue fund.

MCPS adopts annual appropriated budgets for its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 26-30 of this report.

Proprietary funds. MCPS maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the district-wide financial statements. MCPS uses enterprise funds to account for its food services, adult education and summer school, real estate management, field trips, and entrepreneurial activities. Internal service funds are an accounting device used to accumulate and allocate costs internally among MCPS' various functions. MCPS uses an internal service fund to account for its

employee health benefit plan costs. Because this plan predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities*.

Proprietary funds provide the same type of information as the district-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the food services operation which is considered to be a major fund of MCPS. Data for the other four proprietary funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of these nonmajor proprietary funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 31-33 of this report.

Fiduciary funds. MCPS is the trustee, or fiduciary, for assets that belong to others, such as the MCPS Retirement and Pension Plan and the student activities funds. MCPS is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. MCPS excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

The basic fiduciary fund financial statements can be found on pages 34-35 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found on pages 37-52 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor proprietary funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 56-65 of this report.

	Governmental Activities			Business-Type Activities				Total		
	 2004		2003		2004		2003	2004	2003

Montgomery County Public Schools Net Assets (Amounts expressed in millions)

District-wide Financial Analysis

Net assets may serve as a useful indicator of a government's financial position. MCPS' net assets, the amount by which assets exceed liabilities, increased \$29.6 million to \$1,176.8 million. Most of the increase came from governmental activities, which increased by \$31.1 million to \$1,174.8 million. The largest portion of net assets reflects MCPS' investment in capital assets (e.g., land, school buildings, buses, and equipment), less any related outstanding debt used by MCPS to acquire those assets. Investment in capital assets, net of related debt increased \$40.8 million to \$1,270.1 million. These assets are used by MCPS in its instructional programs; consequently, these assets are not available for future spending.

Montgomery County and the State of Maryland fund MCPS school construction projects through the issuance of general obligation bonds. These bonds are not reflected in MCPS' investment in capital assets, as the resources needed to repay these bonds must be provided by Montgomery County and the State.

Unrestricted net assets decreased \$11.2 million to a \$93.3 million deficit at June 30, 2004. The decrease in unrestricted net assets is primarily attributed to a \$7.2 million increase in long-term liabilities, especially compensated absences, for which resources are accumulated only to liquidate current year liabilities.

Revenues by Source - Governmental Activities

Governmental activities. Total revenues for MCPS' governmental activities increased \$109.1 million (7.1 percent). Intergovernmental revenues increased \$127.5 million (9.1 percent), while operating program revenues declined \$37.2 million (34.2 percent). The State of Maryland restructured state aid programs in 2004, resulting in a shift of approximately \$40.0 million to unrestricted basic state aid from restricted operating grants. Intergovernmental revenues from Montgomery County increased \$75.3 million (6.8 percent) as required to fund the operating budget.

Total expenses increased \$89.7 million (5.9 percent) to \$1,618.6 million. The increase in instructional programs accounted for \$81.3 million (90.3 percent) of the increase in total expenses. Regular instruction increased \$61.6 million (6.7 percent), and special education increased \$13.3 million (6.2 percent). In 2004, instructional programs expenses accounted for 83.3 percent and support services accounted for 16.7 percent of total governmental activities expenses. The proportion of instructional program expenses to total expenses increased by .4 percent in 2004, reflecting a continuing focus on maximizing resources available to the classroom.

Montgomery County Public Schools Changes in Net Assets (Amounts expressed in millions)

Business-type activities. Business-type activities decreased MCPS' net assets by \$1.5 million, which is attributed to the food services operations. Revenues from the sale of food increased \$.8 million (4.4 percent) while nonoperating revenues rose \$1.2 million (8.1 percent). The number of reimbursable meals increased 242,000 (2.2 percent) to 11,174,000 during the year. Operating expenses increased \$1.7 million (4.9 percent). Increases in expenses were generally consistent

with the increase in revenues, except for fringe benefits which increased \$1.2 million (20.3 percent). The accelerated increase in fringe benefits resulted in a \$1.1 million decrease in food services net assets.

Other enterprise funds net assets decreased \$.4 million, due primarily to a decrease of \$.2 million in Entrepreneurial Fund science kit sales.

Revenues by Source - Business-type Activities

Financial Analysis of MCPS' Funds

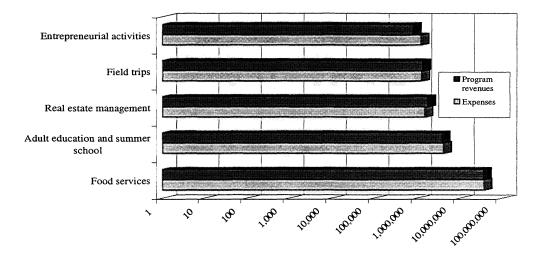

MCPS uses fund accounting to ensure accountability and to demonstrate compliance with finance-related legal and contractual provisions.

Governmental funds. The focus of MCPS' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing MCPS' financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, MCPS' governmental funds reported combined ending fund balance of \$.5 million, an increase of \$4.1 million from the prior year. The unreserved, undesignated fund deficit of \$10.9 million was offset by reserved fund balance of \$11.4 million. Reserved fund balance is unavailable for new spending because it has already been reserved to liquidate prior period commitments.

The general fund is the principal operating fund of MCPS. At June 30, 2004, unreserved, undesignated fund deficit was \$.2 million and total fund balance was \$11.2 million. Unreserved, undesignated fund balance increased \$5.4 million, resulting from a plan to increase fund balance for use in funding MCPS' 2005 operating budget.

Capital projects fund deficit increased by \$2.7 million during 2004 to a deficit of \$10.8 million at June 30, 2004. The deficit reflects school construction funding reversions by the State occurring after the anticipated State funds had been expended.

Expenses and Program Revenues - Business-type Activities

Proprietary funds. MCPS' proprietary funds provide the same type of information found in the district-wide financial statements, but in more detail. Factors concerning the finances of those funds have already been addressed within the discussion of business-type activities.

General Fund Budgetary Highlights

The final amended budget for fiscal year 2004 was \$24.4 million higher than the original budget. The increases were a result of \$14.5 million in unexpended restricted program grants that carried forward to 2004, and \$9.9 million in supplemental appropriations for restricted program grants received during the year.

Actual budgetary fund balance increased by \$6.6 million. The increase in fund balance resulted from a plan that generated \$10.4 million in current year savings, offset by applying \$3.0 million in beginning fund balance toward funding the 2004 operating budget.

Actual revenues were \$19.7 million under budget for the year. Restricted revenues were \$18.1 million under budget, of which \$2.2 million comprised estimated restricted revenue that did not materialize and \$15.9 million in unrealized revenue for grants that carried forward into 2005.

Unrestricted revenues were \$1.5 million under budget. State aid for special education nonpublic placements was \$1.7 million under budget. Tuition assessed to nonresident students exceeded the budget by \$.5 million.

Actual expenditures were \$29.3 million under budget. Restricted expenditures were \$18.1 million less than the budget, which consisted of \$15.9 million in unspent funds for grants that carry forward into 2005 and \$2.2 million in grant authorizations expiring June 30, 2004.

Unrestricted expenditures were \$11.2 million under budget, due to a savings plan implemented during the year that, in agreement with the Montgomery County Council, would generate internal savings for use in funding 2005 budget initiatives. MCPS met its savings target.

Capital Asset and Debt Administration

Capital Assets. Capital assets include land and site improvements, schools and administrative buildings, school buses, and other vehicles and equipment. At June 30, 2004, MCPS' investment in capital assets for its governmental and business-type activities amounts to \$1,289.7 million, net of accumulated depreciation. This amount represents a net increase of \$36.5 million, or 2.9 percent from last year.

(Net of depreciation) (amounts expressed in millions)

Major capital asset highlights during the current fiscal year included the following:

- Modernization of a middle school, a high school and an elementary school and replacement of a middle school were completed during 2004. Modernization of an elementary school was near completion and the school will reopen in the spring of 2005.
- A new gym was completed at an elementary school.
- New construction projects for two schools began during 2004.

Additional information about capital assets can be found in note 6 to the financial statements.

Long-term debt. At June 30, 2004, MCPS had \$35.5 million in capital leases outstanding. MCPS acquires school buses, instructional computers and furniture, other vehicles, and heavy equipment through a master lease agreement with a financial institution. New capital leases for school buses, instructional computers and other equipment amounted to \$17.1 million during 2004. Principal payments on existing capital leases were \$15.4 million during the current year.

Additional information on MCPS' long-term debt can be found in note 8 to the financial statements.

Factors Bearing on MCPS' Future

The transmittal letter presents certain information on the local economy and budgetary, enrollment, and negotiated agreements issues affecting MCPS. There are three additional initiatives that could significantly impact MCPS.

No Child Left Behind. In 2002 the United States Congress approved the No Child Left Behind (NCLB) Act. This marked the most fundamental revision of federal education legislation since the adoption of the Elementary and Secondary Education Act (ESEA) in 1965. The new law calls for rigorous standards in all states and compulsory testing of students in grades 3 through 8 and grade 10. MCPS has aligned its plans and outcome measures with the standards of the NCLBA with the goal of having all schools meet Annual Yearly Progress (AYP) targets and having all teachers meet "highly qualified" standards as established by the State of Maryland.

Bridge to Excellence. The 2002 Maryland General Assembly adopted ground-breaking legislation to reform the system of educational funding in the state. The Bridge to Excellence Act (S. B. 856) provides an additional \$1.3 billion statewide to assure the adequacy of educational resources while redirecting resources more equitably to meet the needs of students with disabilities. In 2005, MCPS will receive an increase of \$19.4 million as a result of this legislation. When fully implemented in FY 2008, Montgomery County can expect approximately \$147 million in additional state resources.

Master Plan. In accordance with the mandates of this new law, MCPS has submitted to the Maryland State Department of Education (MSDE) a five-year Master Plan to indicate how its schools will meet established goals for student achievement. The strategic plan for the school system, *Our Call to Action: Pursuit of Excellence*, forms the basis of the Master Plan and was reviewed extensively by community leaders and local officials. The Master Plan includes specific plans for the implementation of the requirements of NCLB. The MSDE approved the five-year Master Plan as calculated to meet student achievement goals. MCPS has submitted the annual required update of the plan.

Requests for Information

This financial report is designed to provide a general overview of MCPS' finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, Montgomery County Public Schools, 7361 Calhoun Place, Suite 190, Rockville, Maryland 20855.

MONTGOMERY COUNTY PUBLIC SCHOOLS RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES WITH THE DISTRICT-WIDE STATEMENT OF ACTIVITIES JUNE 30, 2004

Total net change in fund balances - governmental funds	\$ 4,083,613
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays for capital project assets (\$128,053,894 less non-capitalized items of \$50,847,060) plus capital outlays for general fund assets (\$5,680,815) exceed depreciation expense (\$45,845,529) in the current period.	27.040.100
	37,042,120
The net effect of various miscellaneous transactions involving capital assets, such as the the loss on disposal of capital assets and the donation of land from developers is to	
decrease net assets.	(9,071)
Some of the capital assets and assets below the capitalization threshold acquired this year were financed with capital leases. The amount financed by the leases is reported in the governmental funds as a source of financing. On the other hand, the capital leases are not revenues in the statement of activities, but rather constitute long-term liabilities in the statement of net assets. Also, expenditures for principal repayment of capital leases are measured by the amount of	
financial resources used by governmental funds and have no effect on net assets.	(1,659,404)
In the statement of activities, certain operating expenses, such as compensated absences, are measured by the amounts accrued during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources expended.	(8,735,199)
An internal service fund is used to charge the costs of the employee benefit plan to the individual funds. The net expense of the internal service fund is reported with governmental activities in the statement of activities.	 370,104
Change in net assets of governmental activities	\$ 31,092,163

1. Summary of Significant Accounting Policies

The financial statements of MCPS have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of MCPS are described below.

a) Reporting Entity

The Board of Education of Montgomery County is the elected body, corporate and politic, established under Maryland law to provide public education in kindergarten through twelfth grade to children residing within the borders of Montgomery County, Maryland. The Board determines educational policy and employs a superintendent of schools to administer the public school system known as Montgomery County Public Schools (MCPS). Primary funding is provided by Montgomery County from its general revenues. Funds also are received from state and federal sources for general school aid and specific purpose grants. The budget is approved by the Montgomery County Council. The Board of Education has no power to levy and collect taxes or to increase the budget. Because of the relationship with Montgomery County, MCPS is considered a component unit of the county government, as defined by GAAP for governmental entities.

The accompanying financial statements present the primary government, MCPS, and its discretely presented component unit, the Montgomery County Public Schools Educational Foundation, Inc. (Foundation). The Foundation is included in the reporting entity because of the financial benefits provided through it to MCPS and because MCPS is considered to be financially accountable. The Foundation is reported in a separate column in the district-wide financial statements to emphasize that it is legally separate from MCPS. The Foundation is presented as an enterprise fund type.

The Foundation accepts grants and contributions from private organizations and individuals. All such funds received are used to enhance MCPS educational programs and to provide student scholarships. Complete financial statements can be obtained from the Office of the Chief Operating Officer, Montgomery County Public Schools, 850 Hungerford Drive, Rockville, Maryland 20850.

b) Basis of Presentation

The district-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of MCPS and its component unit except for fiduciary activities. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for support. Likewise, the primary government is reported separately from its legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Intergovernmental revenue and other items not properly included among program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor enterprise funds are aggregated and reported as nonmajor funds.

MCPS reports the following major governmental funds:

The general fund is the primary operating fund of MCPS. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The capital projects fund accounts for financial resources to be used in the acquisition or construction of school sites and buildings and other major capital facilities.

MCPS reports the following major proprietary fund:

The food services fund accounts for the operations of 191 cafeterias and the central production facility, providing for the preparation and sale of meals to students and other agencies and customers.

Additionally, MCPS reports the following fund types:

The special revenue fund accounts for the use of Cable TV franchise fees that are legally restricted to expenditure for specific purposes.

The internal service fund accounts for the financing of employee health benefits provided to other funds of the government on a cost reimbursement basis.

The pension trust fund accounts for the activities of the MCPS Employees' Retirement and Pension System, which accumulates resources for pension benefit payments to qualified MCPS employees.

The agency fund accounts for assets held by elementary and secondary schools for student groups. Agency funds are custodial in nature (i.e., assets equal liabilities) and do not involve measurement of results of operations.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Food Services enterprise fund, of the nonmajor enterprise funds, and of the internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

c) Measurement focus, basis of accounting

The district-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Revenue from USDA commodities is considered earned when the commodities are used. The value of unused commodities is reported as deferred revenue. Employee and employer contributions to the pension trust fund are recognized as revenue in the period that the contributions are due.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. All governmental fund revenues are considered available if the revenues are collected within ninety days after year-end. MCPS' primary sources of funding are intergovernmental revenues which are either unrestricted as to purpose of expenditure or are restricted to a specific purpose. Unrestricted funds are recorded as revenues at the time of receipt or earlier if they meet the availability criterion. Restricted funds are recognized as revenue when all eligibility requirements imposed by the provider have been met and the resources are available. Restricted funds received in excess of recorded expenditures are recorded as deferred revenue. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except for principal and interest on capital leases, and expenditures related to compensated

absences and claims and judgments, which are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from capital leases are reported as other financing sources.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the district-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. MCPS has elected not to follow subsequent private-sector guidance.

When both restricted and unrestricted resources are available for use, it is MCPS' policy to use restricted resources first, then unrestricted resources as they are needed.

d) Cash and Investments

MCPS maintains an active pooled cash and investment program which is managed in accordance with the Annotated Code of Maryland. Overnight investments in repurchase agreements and money market investments are stated at amortized cost. Investment income is allocated to the various funds based on their average equity in the pool. The assignment of allocated investment income to the general fund is reported as an operating transfer.

Pension Trust Fund investments consist of a group pension immediate participation contract carried at contract value and separate funds carried at fair value. Equity and bond securities are valued at closing sales prices as reported on national or international securities exchanges at current exchange rates, or at closing bid prices as reported by investment dealers. The fair value of mortgages and real estate investments are based on independent appraisals.

Internal Service Fund investments are stated at fair value. For purposes of the statement of cash flows, the Internal Service Fund and the Food Services Fund consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

The cash in the Agency Fund represents the independent activity fund cash balances in the separate bank accounts of individual schools and other groups. The bank accounts are maintained by each of the locations. The administrator at each location is required, under MCPS policy, to deposit any funds in excess of current needs with a federally or state insured financial institution or in the MCPS Centralized Investment Fund. All such funds earn market rate interest and are available to the schools on a demand basis.

The Agency Fund and the component unit invest in certain external investment pools. The Maryland Local Government Investment Pool consists of funds from local governments placed in the custody of the state and funds from the state. Oversight responsibility for the pool resides with the state treasurer. The Montgomery County investment pool invests funds for itself and participating agencies pursuant to the Annotated Code of Maryland, County Code and the county's short-term investment policy as approved by the County Council. The fair value of MCPS' position in the aforementioned pools is the same as the value of pool shares.

e) Inventories and Prepaid Items

Inventories are stated at the lower of cost or market. For supplies, instructional materials, food, and food related inventories, cost is determined by the average cost method; for transportation supplies, cost is determined by the first-in, first-out method. Commodities received from the U.S. Department of Agriculture (USDA) are stated at fair market value. Unused USDA commodities in inventory at year end are reported as deferred revenue as title does not pass to MCPS until the commodities are used. The cost of all inventories is recorded as an expenditure/expense at the time the individual inventory items are consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both district-wide and fund financial statements.

f) Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the district-wide financial statements. Capital assets are defined by MCPS as assets with an initial, individual cost of more than \$5,000 (\$600 for the Food Services Fund) for equipment and \$200,000 for buildings and structural additions, and an estimated useful life in excess of one year. Purchased or constructed capital assets are valued at cost where historic records exist and at estimated historic cost where no historic records exist. Donated capital assets are valued at estimated fair market value at the date received.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend asset lives are not capitalized.

Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Land and building improvements	20
Portable classrooms	15
Furniture, heavy equipment and vehicles	12
Technology, light equipment and vehicles	5

g) Compensated Absences

MCPS employees are permitted to accumulate earned but unused annual and sick leave benefits. It is MCPS policy to pay employees who separate from service with MCPS the accumulated amount of earned but unused annual leave and, for employees with at least five years credited service, one quarter of vested, accumulated sick leave. Administrators with thirty or more years credited service receive 30 percent of vested, accumulated sick leave. All annual and vested sick leave is accrued when incurred in the district-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only at the time of employee resignations and retirements.

h) Long-Term Obligations

Long-term obligations are reported as liabilities in the district-wide and proprietary fund financial statements. Only the portion of long-term obligations expected to be paid from expendable available financial resources is reported as a liability in the governmental fund financial statements and the face amount of capital lease issuances is reported as other financing sources.

i) Fund Equity

Governmental funds, in the fund financial statements, report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

2. Budgetary Information

a) Overview

The majority of current funding for MCPS is provided by Montgomery County, the State of Maryland, and the federal government. Under Maryland school statutes, the MCPS annual budget is presented to the Montgomery County Council no later than March 1 and is to be adopted by the Council by May 31. In general, the county is then responsible to fund the budget so adopted, to the extent that funds are not raised from other sources (state and federal governments, etc.). The

Board of Education has no power to levy taxes or to spend funds not appropriated by the Montgomery County Council.

Formal budgetary integration, including encumbrance accounting, is employed as a management control device during the year for the governmental and proprietary fund types. Management is authorized to transfer funds within major categories of expenditure (i.e., administration, instructional salaries, etc.) up to \$100,000. Transfers in excess of \$100,000 require the approval of the superintendent and the Board of Education; transfers between major categories require the approval of the Montgomery County Council. By state law, major categories of expenditure may not exceed budgeted amounts for the year ending June 30.

The budgeted amounts reflected in the accompanying financial statements recognize budget revisions made during the year, all of which were properly reported and/or approved, as applicable. During 2004, supplemental appropriations increasing the operating budget by \$9,873,057 and increasing the capital budget by \$5,119,680 were approved.

Encumbrances outstanding at year-end in the governmental funds are reported in accordance with GAAP as reservations of fund balance since they do not constitute expenditures or liabilities. Encumbrances outstanding for the proprietary funds are eliminated for financial statement presentation. Annual appropriations that are not spent, encumbered, or designated at year-end lapse. Outstanding encumbrances at year-end are reappropriated in the subsequent year.

Capital projects are funded primarily by Montgomery County and by the state. Funds are budgeted and appropriated on a project basis and on an annual basis. Capital projects funds do not lapse at the end of each year, but may be expended until project_completion.

b) Budgetary Presentation

The general fund statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual has been prepared on the legally prescribed budgetary basis of accounting to demonstrate compliance with the legally adopted budget. The budgetary basis of accounting employs the modified accrual basis plus encumbrances, except for compensated absence expenditures that are reported on a cash basis.

The basis used to prepare the legally adopted budget differs from GAAP as follows:

- Encumbrances outstanding are charged to budgetary appropriations in the current period.
- Expenditures for compensated absences are accounted for on a cash basis.
- State of Maryland retirement contributions made on behalf of MCPS employees are a legal obligation of the State, and so are not included in the MCPS budget.
- Capital lease financing is accounted for as other financing sources for GAAP purposes.

Adjustments to reconcile the budgetary statement to the GAAP fund statement are as follows:

	Revenues		Expenditures and Encumbrances		Other Financing <u>Sources</u>		Effect on Fund <u>Balance</u>
As reported - budgetary basis	\$ 1,452,241,486	\$	1,446,265,836	\$	610,339	\$	6,585,989
Reconciling items:							
2004 Encumbrances outstanding			(3,868,022)				3,868,022
Expenditures of prior year encumbrances Increase in compensated			3,221,172				(3,221,172)
absences			485,098				(485,098)
State of Maryland retirement contributions	77,291,357		77,291,357				-
Capital lease financing As reported - GAAP basis	\$ 1,529,532,843	\$.	4,398,502	\$	4,398,502 5,008,841	\$	- 6,747,741
•	, , , , , , , , , , , , , , , , , , ,	• •		ໍ່ສ		·	

Capital Projects Fund encumbrances of \$41,081,777 are not reflected in the governmental fund balance sheet as the offsetting revenues are not available until the expenditures on a GAAP basis

are incurred.

Beginning June 15 of each fiscal year, MCPS issues purchase orders and begins shipment of inventory to various locations for items such as supplies, textbooks, and construction contracts that will be charged to the budget of the next fiscal year. These obligations and warehouse shipments are not reflected in the accompanying financial statements. At June 30, 2004, \$14,557,961 of such purchase orders had been issued.

c) Deficit Fund Equity

The Capital Projects Fund had an unreserved, undesignated fund deficit of \$10,802,854. The deficit reflects school construction funding reversions by the State of Maryland that occurred after the anticipated funds had been spent. The Entrepreneurial Activities Fund had a deficit in unrestricted net assets of \$1,156,327 at June 30, 2004. It is anticipated that the deficit will be eliminated as the level of fund activity expands and cost cutting measures take effect. The Adult Education Fund had a deficit in unrestricted net assets of \$280,966 at June 30, 2004, due to discontinuation of a \$300,000 tuition subsidy by the Montgomery County Council after tuition rates for 2004 had been established. Tuition rates have been restructured to reflect the elimination of this annual subsidy.

Net assets of the Internal Service Fund represent equity reserved for future claim losses and benefits under the employee benefit plan.

3. Cash and Investments

a) Authorization and Balances

Cash and investments at June 30, 2004, are summarized as follows:

		Primary Government	Component Unit
Equity in pooled cash and investments	\$	12,323,149	\$
Cash and cash equivalents		4,242,267	12,423
Cash with escrow agent		329,327	
Cash-fiduciary funds		2,733,687	
Investments – cash equivalents		15,597,169	
Investments		-	2,924,602
Investments-fiduciary funds		728,108,565	
Total	\$ _	763,334,164	\$ 2,937,025
Deposits and Investments Summary:			
Deposits	\$	7,631,657	\$ 12,423
Investments		755,362,646	2,924,602
Cash on hand, escrow agent		339,861	. ,
Total	\$	763,334,164	\$ 2,937,025

MCPS is required, in accordance with a lease agreement with the Montgomery County Revenue Authority, to maintain an operations and maintenance fund which is to be used only to support the food services operations. The agreement requires the fund to maintain a balance of \$1,000,000. Withdrawals from the fund, which may be made at any time, must be restored to the fund within twelve months of the date of withdrawal. No withdrawals were made from the fund during 2004. The balance in the operations and maintenance fund at June 30, 2004, was \$1,010,241.

The Annotated Code of Maryland requires that funds on deposit with a financial institution be fully secured by deposit insurance, surety bonds, obligations of the United States or its agencies, obligations of the State of Maryland or any of its agencies, or obligations of a county, other governmental authority, or municipal corporation in the State of Maryland. Deposits throughout the year were fully insured or collateralized.

The Annotated Code of Maryland authorizes MCPS to invest in obligations for which the United States has pledged its faith and credit for the payment of principal and interest, in obligations issued by a federal agency in accordance with an act of Congress, in repurchase agreements collateralized at not less than 102 percent of the principal amount by obligations of the United States and its agencies, in money market mutual funds operated in accordance with SEC Rule 2A-

7, or in any investment portfolio created under the Maryland Local Government Investment Pool. MCPS was in compliance with the above mentioned investment statutes throughout the fiscal year.

The Pension Trust Fund and the Internal Service Fund are authorized to invest in domestic and foreign equities, obligations of the United States and its agencies, securities issued or guaranteed by a foreign government, marketable corporate bonds, collateralized obligations, commercial paper, bankers' acceptances, money market funds, and pooled real estate investments. Fixed income investments are to be made primarily in issues rated "A" or better by Moody's and "A" or better by Standard & Poor's rating agencies.

The Annotated Code of Maryland allows the MCPS Employees' Retirement and Pension System (Pension Trust) to participate in securities lending transactions. The Pension Trust, in October 2002, entered into a Securities Lending Authorization Agreement with the Northern Trust Company (Northern) to lend its securities to broker-dealers and banks pursuant to a form of borrowing agreement.

During 2004, Northern lent Pension Trust securities for which it is custodian. Pension Trust securities not under the custodianship of Northern are not part of the Securities Lending Authorization Agreement. Northern receives from borrowers both cash and non-cash collateral. Non-cash collateral includes United States government securities and irrevocable letters of credit. Northern does not have the ability to pledge or sell collateral unless the borrower is in default under the agreement. Borrowers are required to deliver cash and/or non-cash collateral having a market value of not less than 102 percent (105 percent if the borrowed securities and collateral are denominated in non-U.S. currencies) of the market value of the borrowed securities. The Pension Trust did not impose any restriction during 2004 on the amount of securities Northern may lend.

Northern indemnifies the Pension Trust against any losses, damages or expenses it may incur if Northern is unable to recover the borrowed securities, and distributions made with respect to those securities, as a result of Northern's failure to make a reasoned determination of borrower creditworthiness or to demand adequate and appropriate collateral. During 2004, there were no losses resulting either from borrower default or investment losses in collateral pools. The Pension Trust and the borrowers maintain the right to terminate all securities lending transactions on demand.

The cash collateral is invested in the Northern Core USA Collateral Section (Fund). Fund investments include United States government securities, domestic and foreign bankers' acceptances, certificates of deposit and time deposits, and U.S. dollar denominated obligations issued or guaranteed by foreign governments. The fund is accounted for on an amortized cost basis. The fund is not registered with the Securities and Exchange Commission, but operates in accordance with the requirements of SEC Rule 2a-7. Northern believes that the value of the Pension Trust's position in the Fund on an amortized cost basis approximates the valuation of the Fund if valued at fair value.

The market value of Pension Trust securities on loan at June 30, 2004 was \$52,522,356. Collateral held was \$53,836,429, including cash collateral of \$42,985,964. Because loans are terminable at will, their duration did not generally match the duration of the investments made with cash collateral. At June 30, 2004, the Pension trust had no credit risk exposure to borrowers.

b) Deposits

At year-end, the reported balance of MCPS' deposits was \$7,631,657 and the bank balance was \$19,018,935. Of the bank balance, \$19,018,935 was covered by federal depository insurance or by collateral held by MCPS' agent in MCPS' name.

The reported balance of the Educational Foundation, the discreetly presented component unit, was \$12,423 and the bank balance was \$18,543. All of the bank balance was covered by federal depository insurance.

c) Investments By Category of Risk

Investments are categorized below to give an indication of the level of risk assumed by MCPS at year-end. Category "1" includes investment securities that are insured or registered or held by MCPS or its agent in MCPS' name. Category "2" includes uninsured and unregistered investment securities held by the counterparty's trust department or agent in MCPS' name. Category "3" includes uninsured and unregistered investment securities held by a counterparty, or by its trust department or agent but not in MCPS' name. There were no unusual variations in form or amounts of investments or deposits, including insurance and location of collateral, throughout the fiscal year, except when significantly higher cash flows at certain times during the year, would increase the amount of investments in repurchase agreements.

	Category 1	Category 2	Category 3		Carrying Amount/ Fair Value
Pension Trust investments:			 		
Common stock:					
Not on securities loan	\$ 146,822,590 \$	\$-	\$ -	\$	146,822,590

d) Cash on Hand and with Escrow Agent

At year-end, the primary government had \$339,861, of which \$10,534 is on hand in petty cash accounts, and \$329,327 is cash with an escrow agent held for approximately one day in U.S. Government obligations that are not in MCPS' name (Category 3).

4. Interfund Receivables, Payables and Transfers

Balances due to/from other funds at June 30, 2004, consist of the following:

Due to the general fund from other governmental funds representing advances of pooled cash Due to the general fund from enterprise funds representing advances of	\$ 4,602,111
pooled cash Due to the internal service fund from the general fund for employee	7,852,825
benefit plan expenditures Total	\$ 7,656,750

Following is a summary of balances due from other funds reported in fund financial statements:

Due from other funds, Balance Sheet-Governmental Funds	\$ 12,454,936
Due from other funds, Statement of Net Assets-Proprietary Funds	7,656,750
Total	\$ 20,111,686

16,584

Interfund balances are repaid currently from reimbursable expenditures and proceeds from the sale of goods and services.

Transfers to/from other funds consist of the following:

From non-major enterprise funds to the general fund to assign allocated	
investment income to the general fund	\$

5. Due From Employees

The \$764,291 reported as due from employees arose from past transition to a unified pay cycle calendar for twelve-month employees. Repayment is made from final paychecks when employees separate from active employment with MCPS.

6. Capital Assets

Capital asset activity for the year ended June 30, 2004 was as follows:

	Beginning Balance		Increases	Decreases		Ending Balance
Governmental Activities:						
Nondepreciable capital assets:						
Land	\$ 66,207,419	\$	340,180	\$ -	\$	66,547,599
Construction in Progress	101,449,370		82,439,873	88,600,498		95,288,745
Total nondepreciable capital assets	167,656,789	_	82,780,053	 88,600,498		161,836,344
Depreciable capital assets:						
Buildings and improvements	1,410,935,727		75,631,835	1,306,909		1,485,260,653
Site improvements	105,692,987	-	7,595,502			113,288,489
Vehicles and equipment	114,298,251		5,725,151	1,718,125		118,305,277
Total depreciable capital assets	1,630,926,965	_	88,952,488	 3,025,034	•	1,716,854,419

Business-type activities	_			_		
capital assets, net	\$	5,560,050	\$ (539,834)	\$_	10,325	\$ 5,009,891

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
Regular instruction	\$ 37,766,348
Special education	229,089
School administration	24,682
Student transportation	6,064,101
Operation of plant	187,857
Maintenance of plant	407,831
Administration	1,165,621
Total depreciation expense-governmental activities	\$ 45,845,529
Business-type activities:	
Food services	\$ 1,070,620
Real estate management	4,998
Total depreciation expense—business-type activities	\$ 1,075,618

The increase in governmental-activities accumulated depreciation, in addition to depreciation expense, included accumulated depreciation of \$44,336 on capital assets transferred from Food Services. Commitments for ongoing construction in progress at June 30, 2004, were \$32,342,345.

7. Payables

Accounts payable and other current liabilities of the governmental and business-type activities at June 30, 2004 are as follows:

	_	Governmental Activities	 Business-type Activities	. .	Total
Accounts payable	\$	16,597,362	\$ 216,254	\$	16,813,616
Retainage payable		9,616,720			9,616,720
Accrued salaries and withholdings		46,863,054			46,863,054
Claims payable		20,339,593			20,339,593
Due to employees-advance					
premium withholding		2,040,313			2,040,313
Accrued interest payable	_		 11,624		11,624
Total accounts payable and other current liabilities	\$	95,457,042	\$ 227,878	\$	95,684,920

8. Leases

a) Operating Leases

Expenditures under lease agreements for office space and equipment were approximately \$2,550,000 in 2004. Commitments for fiscal year 2005 under lease agreements are approximately

\$1,262,000. Lease agreements typically provide for automatic termination on July 1 of any year in which funds to meet rental payments are not appropriated.

The Montgomery County Revenue Authority (MCRA) issued \$6,750,000 of Lease Revenue Bonds in 1994 to finance the renovation and expansion of the MCPS food services centralized production facility. The MCPS leases the facility from MCRA for a period of fifteen years. The Lease Revenue Bonds are payable from the lease payments. The lease payments are payable by the Food Services Fund solely from revenues deposited in the Pledged Revenue account. Pledged revenues include all receipts, revenues, and income of the Food Services Fund, excluding amounts received from the state, the county, or the federal government. Monthly lease payments, which totaled \$669,938 in 2004, continue through March 1, 2008. Annual lease payment obligations are as follows:

	 Total
Fiscal year ending June 30:	
2005	\$ 669,625
2006	671,750
2007	672,375
2008	504,000
Total	\$ 2,517,750

MCPS has the option to prepay the lease at the lease payment price, plus an additional amount equal to the bond redemption premium if applicable. The MCRA will convey ownership of the facility to Montgomery County on expiration of the lease agreement. Among other things, the lease agreement requires MCPS to set fees, as necessary, so that each fiscal year total revenues of the Food Services Fund, plus excess cash, will be at least equal to total expenditures, as defined; and that the Food Services Fund shall not sustain a cumulative deficit of \$1,000,000 or more of total expenditures, as defined, over total revenues over any period of four successive fiscal years and fail to restore the operations and maintenance fund by the end of each successive four year period. MCPS is in compliance with the covenants of the lease agreement.

b) Capital Leases

Under a master lease arrangement, MCPS acquires school buses, vehicles, technology and other equipment under noncancellable capital leases that expire at various times through fiscal year 2009. Lease payments, including interest, in fiscal year 2004 were \$10,933,093 for the General Fund, \$5,516,015 for the Capital Projects Fund and \$279,188 for the Food Services Fund.

Assets acquired through capital leases are as follows:

	_	Governmental Activities	 Food Services Fund
Vehicles and equipment	\$	50,638,922	\$ 192,562
Less: accumulated depreciation		(18,204,199)	(50,221)
Total	\$	32,434,723	\$ 142,341

Future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2004, were as follows:

Fiscal year ending June 30		Governmental Activities		Food Services Fund
2005	\$	15,403,343	\$	110,620
2006		12,067,834		110,620
2007		7,962,757		64,690
2008		1,517,730		64,690
2009	_	727,367		-
Total minimum lease payments		37,679,031		350,620
Less : Amount representing interest		(2,456,218)		(25,674)
Present value of future minimum lease payments	\$	35,222,813	- \$ -	324,946

\$19,357,775 of outstanding capital lease obligations for governmental activities at June 30, 2004, were used to acquire capital assets.

9. Long-Term Liabilities

a) Technology Loans

MCPS received non-interest bearing technology loans from Montgomery County of \$3,116,320, that were used to replace certain business information systems. The loans are to be repaid from the General Fund over a period of eight years. Loan repayments in 2004 were \$428,465.

Annual technology loan payments are as follows:

	 Amount
	•
2005	\$ 328,420
2006	328,420
2007	328,420
2008	328,420
2009	 328,420
Total	\$ 1,642,100

b) Changes in Long-Term Liabilities

Long-term liability activities during 2004 were as follows:

Governmental Activities:		Beginning <u>Balance</u>		Additions		Reductions		Ending <u>Balance</u>		Due Within <u>One Year</u>
Capital leases Compensated absences Net pension obligation Technology loans payable Total	\$ \$_	33,563,409 64,259,099 3,923,538 2,070,565 103,816,611	\$	16,783,521 14,377,570 955,241 - 32,116,332	\$	15,124,117 5,607,906 313,883 428,465 21,474,371	\$ \$	35,222,813 73,028,763 4,564,896 1,642,100 114,458,572	\$ \$	14,143,796 5,801,390 <u>328,420</u> 20,273,606
Business-Type		Beginning <u>Balance</u>		Increases		Decreases		Ending <u>Balance</u>		Due Within <u>One Year</u>
Activities: Capital leases Compensated absences Total	\$ \$_	286,156 988,232 1,274,388	\$ \$_	303,438 155,090 458,528	\$ \$	264,648 3,110 267,758	\$ \$	324,946 1,140,212 1,465,158	\$ \$_	98,995 - 98,995

Compensated absences and net pension obligation for the governmental activities are generally liquidated by the General Fund.

10. Risk Management

MCPS is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees or students; natural disasters; and employer health benefits. MCPS participates in the Montgomery County Liability and Property Coverage Self-Insurance Program. Under this program, MCPS receives coverage for general liability, workers' compensation, public official liability, property and motor vehicle risks, generally up to a maximum of \$100,000 per claim. MCPS' premium payments to the fund are based upon actuarially determined funding rates for the covered risks. MCPS purchases commercial insurance for claims in excess of coverage by the self-insurance program and for other risks not covered by the program. Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The employee health benefits plan is financed through an internal service fund, the Employee Benefit Trust Fund. The Employee Benefit Trust Fund provides plan coverage under contracts with

several health maintenance organizations (HMO's) and through a point of service plan. MCPS funds participating in the plan make payments to the Employee Benefit Fund in amounts sufficient to cover plan costs, which are comprised of premiums paid to HMO's and actuarial estimates of amounts needed to pay prior- and current-year claims and to establish a reserve for incurred but not reported claims (IBNR). The claims payable of \$20,339,593 reported in the Internal Service Fund at June 30, 2004, is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the Internal Service Fund's claims payable for fiscal years 2003 and 2004 are reflected below.

	Beginning Payable	Incurred Claims (Including IBNR)	 Claim Payments	 Ending Payable
2003 2004	\$ 24,437,715 20,955,038	\$ 118,967,009 131,932,806	\$ (122,449,686) (132,548,251)	\$ 20,955,038 20,339,593

11. Defined Benefit Pension Plans

Substantially all of MCPS' employees working at least 4 hours a day in an approved job classification are covered under one of three mandatory defined benefit retirement plans. Two of these are multi-employer plans administered by the Maryland State Retirement System (MSRS); and one is a single-employer plan, the MCPS Employees' Retirement and Pension System, administered by MCPS.

State Plans

a) Plan Description

MCPS professional and administrative employees participate in one of two state plans, the State Teachers' Retirement System or the State Teachers' Pension System, the costs of which are borne by the state. Effective July 1, 1980, new MCPS teacher and administrative personnel became members of the State Teachers' Pension System. Members in the existing State Teachers' Retirement System have the option to transfer from the old to the new plan. Benefits at retirement are based upon years of service and the average earned compensation of an eligible employee during any three consecutive years that provide the highest average earned compensation. Benefits vest after five years of creditable service.

The financial statements of the State Teachers' Retirement System and the State Teachers' Pension System are included in the comprehensive annual financial report of the Maryland State Retirement System. A copy of that report may be obtained by writing to The Maryland State Retirement System, 120 East Baltimore Street, Baltimore, Maryland 21202.

b) Funding Policy

Covered employees are, by statute, required to contribute to these plans. MCPS is not required to contribute. The employer's share of contributions to these two plans for MCPS employees, which amounted to \$77,291,357 in 2004, is the legal responsibility of the state. MCPS has recognized in the governmental fund statements revenue and expenditures in the amount equal to the state's contribution payment.

MCPS Plan

a) Plan Description

The MCPS Employees' Retirement and Pension System is funded and administered as a single plan with two separate benefit structures, the retirement system and the pension system. Retirement system benefits cover employees hired prior to January 1, 1980. The retirement system provides retirement benefits, as well as death and disability benefits, to employees who are not members of the State Teachers' Retirement System and supplements the state benefits to members of the State Teachers' Retirement System. Benefits at retirement are based on years of service and the average earned compensation of an eligible employee during any three years that provide the highest average earned compensation, and are adjusted for changes in the consumer price index after retirement. Benefits at early retirement are reduced by an early retirement factor. Benefits vest after five years of creditable service.

Pension system benefits cover employees hired after January 1, 1980. Members in the retirement system may elect to participate in the pension system, in which case their excess contributions are refunded. The pension system provides retirement benefits, as well as death and disability benefits, to employees who are not members of the State Teachers' Pension System and supplements the state benefits to members of the State Teachers' Pension System. Benefits are based on years of service and a percentage of the average earned compensation of an eligible employee during any three consecutive years that provide the highest average earned compensation and are adjusted for changes in the consumer price index after retirement of not more than 3 percent per year. Benefits at early retirement are reduced by an early retirement factor. Benefits vest after five years of creditable service.

At July 1, 2003, the date of the latest actuarial report, MCPS' plan membership consisted of:

Retirees and beneficiaries currently receiving benefits	8,661
Terminated plan members entitled to benefits but not yet receiving them	3,158
Active plan members	20,123
Total	<u>31,942</u>
Active plan members	20,123

b) Contributions

Plan members are required by resolution to contribute to the plan. Covered teachers and other members of the retirement system contribute .5 percent and 5.5 percent, respectively, of their salary to the plan. Covered teachers and other members of the pension system contribute .1 and 2.1 percent of their salary to the plan. MCPS is required by resolution to contribute the remaining actuarially determined amounts necessary to finance the combined coverage of plan members. Benefits and contribution provisions are established and may be amended only by the Board of Education. Administrative costs are financed through investment earnings.

c) Investment Concentrations

The following investments represented 5 percent or more of plan net assets at June 30, 2004:

Northern Trust Quantitative S&P 500 Index Fund \$ 80,704,042

d) Annual Pension Cost and Net Pension Obligation

MCPS' annual pension cost and net pension obligation to the plan for the current year were as follows:

Annual required contribution Interest on net pension obligation Adjustment to annual required contribution	\$ 20,540,668 313,883 (346,460)
Annual pension cost Contributions made	20,508,091 19,866,733
Increase in net pension obligation	 641,358
Net pension obligation beginning of year	3,923,538
Net pension obligation end of year	\$ 4,564,896

The annual required contribution for the current year was determined as part of the July 1, 2002 actuarial valuation using the projected unit credit cost method and actuarial assumptions shown in e) below.

e) Actuarial Information

Additional information as of the latest actuarial valuation follows:

Valuation date	7/1/03
Actuarial cost method	Projected unit credit
Amortization method	Increasing 3.5% per year. Open for gains/losses.
	Closed for other changes.
Remaining amortization period	Weighted average of 15 years
Asset valuation method	5-year, smoothed market
Actuarial Assumptions:	
Investment rate of return	8%
Projected salary increases	3.5 – 8%
Cost of living adjustments	3.5%

12. Other Postemployment Benefits

Employees receiving a Board of Education approved retirement are eligible, in accordance with bargaining agreements between the Board of Education and employee associations, for continued MCPS Employee Benefit Plan health care coverage if they have been covered under the MCPS Employee Benefit Plan for at least five years. Employees covered less than five years under the plan may continue plan coverage at higher premium rates. Currently, approximately 6,200 retirees meet those eligibility requirements. Effective July 1, 2003, the percent of MCPS and retiree contributions to the cost for health care, including dental, vision and prescription drugs, and life insurance benefits for retirees and their dependents, are being adjusted annually from a 70/30 percent split to a 64/36 percent split by July 1, 2006. The benefits that are provided for retired employees under the MCPS Employee Benefit Plan are subject to the extent of assets in the Employee Benefit Trust Fund and to the extent of the annual budgetary appropriation. MCPS contributions are financed on a pay-as-you-go basis and postretirement benefits are not accrued over the service life of employees.

During the year, expenditures of \$43,288,974 were recognized by the Internal Service Fund for postretirement health care and life insurance benefits. There is a deficit of \$233,519 in net assets available for future postretirement benefit payments at June 30, 2004. In 2004, MCPS contributed \$29,871,655 towards the costs of these benefits.

13. Contingencies

a) Litigation

MCPS, in the normal course of its operations, is subject to lawsuits and claims. While the outcome of these matters are uncertain, MCPS believes that any losses not otherwise covered by insurance, which may ultimately be incurred as a result of lawsuits and claims, will not have a material adverse effect on MCPS' financial condition. Additionally, it is the opinion of counsel that under current law, MCPS would have governmental immunity in non-contractual matters for any individual judgments in excess of \$100,000, except for civil rights cases.

b) Supported Projects

Certain programs, referred to as supported projects, serving specific needs and purposes of the school system and the welfare of the students, are funded by special federal and state grants and are included in the General Fund and the Enterprise Funds. Grant activities are subject to audit by the granting agencies.

c) In the opinion of management, the ultimate resolution of any of these matters will not be material to the basic financial statements of MCPS.

NONMAJOR ENTERPRISE FUNDS

June 30, 2004

Adult Education and Summer School – Accounts for all activities related to the adult education program and the self-supporting portion of the summer school program.

Real Estate Management – Accounts for the rental of surplus space in school buildings for complementary programs such as child care and for the administration of potential future school sites.

Field Trip – Accounts for the operation of transportation services for student field trips and for external organizations.

Entrepreneurial Activities – Provides supplemental funding for the instructional program through the sale of MCPS expertise, services and products.

AGENCY FUNDS

Individual Fund Financial Statements

June 30, 2004

Agency funds are used to account for assets held as an agent for organizations or other governmental units. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Agency Funds account for independent activity funds held by elementary and secondary schools for student groups.

STATISTICAL SECTION

STATISTICAL SECTION (Unaudited)

Selected statistical information is presented to give report users a better perspective of the school system. The MCPS statistical tables 1-3 differ from financial statements in that they include prior years' information and other nonaccounting data.

Table 4 reflects the financial operations of the Montgomery County and Board of Education Self-Insurance Fund. The fund provides partial self-insurance for fire, workers' compensation, general liability, boiler, and motor vehicle risks.

Table 5 describes MCPS' insurance in force for various risk categories.

Since MCPS' revenues are primarily provided by Montgomery County, trend data on the county's overall revenues, expenditures, debt, and tax levies is also relevant to an understanding of MCPS' financial condition and resources. Such data is presented in Tables 6 - 20.

NOTES:

* Exempt and nontaxable property are not included in this table.

* The following classes of property are not taxed: 1) personal property not used in a trade, business, or profession, and 2) business inventories.

* Intangible personal property is exempt from taxation except in two instances: shares of stock in certain domestic utilities and oil pipeline corporations (shown above) and intangible personal property of corporations under a contract with the State, granted charter exemptions from property taxation.

* Property owned by the Federal government, the State, or a subdivision or agency of either, is exempt. Also exempt are real and personal property used for religious, educational, or charitable purposes. Specific exemptions involve historical property, societies and museums, conservation property, cemeteries, certain fraternal and service organizations, continuing care facilities for the aged, nonprofit housing property, and dwelling houses of disabled veterans and blind persons.

(1) Fiscal Year 2002 is the first year that all real property in the State of Maryland is assessed at 100 percent of full assessed value instead of the previous 40 percent assessment method.

NOTES (County taxes only):

* There are no limits on State or County tax rates.

* Taxes are due July 1 and become delinquent the following October 1.

* Certain homeowners may elect to pay their real property taxes on a semi-annual basis by September 30 and January 31.

* No discounts are allowed.

* There is interest and penalty at 20 percent for tax bills that become delinquent from October 1, 1982.

* For tax bills that became delinquent prior to October 1, 1982, there is interest of 8 percent until October 1, 1982, and 20 percent thereafter.

Tax bills based upon certifications received after September 1 may be paid within thirty days without interest.

* Costs of tax sale, which vary, are added to tax bills. The last sale cost \$25 per parcel.

* Taxes on real property are collected by sale. Taxes on personal property are enforced by legal action. Corporations may lose charter for

failure to pay taxes.

* Tax sale date: second Monday in June.

* Taxes collected for other fiscal units are remitted based on actual collections.

* Tax rates for FY02, FY03, and FY04 are for real property only (personal property rates are presented in parenthesis). Real property rates are based on 40 percent of real property assessments. The rates for personal property remain the same (based on 100 percent of the property assessment). The levy amounts include both real and personal property.

NOTES:

* Tax rates for FY02, FY03, and FY04 are for real property only (personal property rates are presented in parenthesis). Real property rates are based on 40 percent of real property assessments. The rates for personal property remain the same (based on 100 percent of the property assessment). The levy amounts include both real and personal property.

(1) As of July 1, 1995, the Suburban District became the Urban Maintenance Tax. As of July 1, 1996, the Urban Maintenance Tax became part of the General Fund.

(2) Parking Lot Districts also carry a tax rate of one-half the amount shown which applies to property zoned commercial but not used as such.

NOTES:

* Tax rates for FY02, FY03, and FY04 are for real property only (personal property rates are presented in parenthesis). Real property rates are based on 40 percent of real property assessments. The rates for personal property remain the same (based on 100 percent of the property assessment). The levy amounts include both real and personal property.

(1) Effective July 1, 1997, the citizens of Takoma Park, which was located partly in Montgomery County and partly in Prince George's County, voted by referendum to have the City located entirely in Montgomery County. This consolidation explains the significant increase in the Takoma Park tax levies between years 1997 and 1998.

NOTES:

* Tax rates for FY02, FY03, and FY04 are for real property only (personal property rates are presented in parenthesis). Real property rates are based on 40 percent of real property assessments. The rates for personal property remain the same (based on 100 percent of the property assessment). The levy amounts include both real and personal property.

MONTGOMERY COUNTY, MARYLAND RATIO OF NET DIRECT DEBT TO ASSESSED VALUE AND NET DIRECT DEBT PER CAPITA LAST TEN FISCAL YEARS

Fiscal Year	Population (1)	Assessed Value End of Period (2)	Net Direct Debt (3,4,5)	Ratio of Net Direct Debt to Assessed Value	Net Direct Debt per Capita
1995	804,600	\$ 29,172,981,104	\$ 942,693,054	3.23 %	6 \$ 1,172

NOTES:

- (1) Source: Maryland-National Capital Park and Planning Commission, Research and Technology Center. Round 6.4 Cooperative Estimates. Data are for January on a calendar year basis except for 2000 which is for April.
- (2) Fiscal Year 2002 is the first year that all real property in the State of Maryland is assessed at 100 % of actual value instead of the previous 40% assessment method.
- (3) Source: Montgomery County Department of Finance, "Debt Service Program Bonded Debt Fiscal Year."
- (4) All County general obligation debt matures serially. All County general obligation debt is backed by a general tax guarantee and therefore is included in this table regardless of the source of funds actually used for the payment. Also included are Short-Term BANs/Commercial Paper Outstanding and Long-Term Notes Payable.
- (5) Net direct debt is the same as general bonded debt.

Legal Debt Margin as a Percentage of Debit Limit	78%	74%	77%	74%

(1) Fiscal Year 2002 is the first year that all real property in the State of Maryland is assessed at 100 percent of full assessed value instead of the previous 40 percent assessment method.

(2) As a Charter County, the legal debt limit is provided by Article 25A, Section 5(P), of the Annotated Code of Maryland. Prior to June 1, 2001, the legal debt limit was 15% of the assessable base (real and personal property) of the County. During that time, the assessable basis for real property was 40% of the full assessed value. Effective June 1, 2001, real property in the State of Maryland began being assessed at 100% of full assessed value instead of the previous 40% assessment method. Also effective June 1, 2001, the section of the Code referred to above was amended in conjunction with the real property assessment change. Under the amendment, the legal debt margin is a total of 6% of the assessable basis (presented at 100%) of real property of the County and 15% of the County's assessable basis of personal property and operating real property.

NOTES:

(1) Net direct debt of the County includes general obligation bonds, commercial paper bond anticipation notes, and long-term notes payable. Overlapping debt is the debt of other governmental entities in the County that is payable in whole or in part by taxpayers of the County. It includes general obligation bonds, revenue bonds, mortgages payable, notes payable, commercial paper bond anticipation notes, certificates of participation, and bank loans.

(2) Self supporting debt is payable solely from the earnings of the enterprise for whose construction or improvement the debt was issued.

(3) Entities are wholly within Montgomery County.

NOTES:

(1) For FY03, excludes expenditures relating to long-term equipment notes, other lease and long-term notes, and issuing costs, which totaled \$21,183,621. Also excludes BANs retired through issuance of general obligation bonds amounting to \$155,000,000. In prior years, also excluded: a) WMATA debt service participation, b) participation in State of Maryland General Public School Construction Loans subsequent to June 30, 1967, not included as general bonded debt pursuant to State law, c) debt service related to closed schools, and d) State reimbursement for college audit findings.

(2) Includes General, Special Revenue, Debt Service, and beginning in FY02, Permanent Funds. Prior to FY02, also includes General Fund operating transfers to component units for purposes of education; such amounts are classified as education expenditures beginning in FY02. Beginning in FY97, excludes BANs retired through issuance of general obligation bonds. See Table 1.

NOTES:

- (1) The debt service requirements noted are for the Bethesda and Silver Spring Parking Lot Districts and will be payable solely from the revenues of the Bethesda and Silver Spring Parking Lot Districts.
- (2) "Revenues" means the parking fee revenues, parking fine revenues and parking tax revenues of a district and interest income (excluding income earned from the investment of the proceeds and the investment proceeds of the bonds, any additional bonds and any general obligation bonds of the County payable from unlimited ad valorem taxes in addition to net revenues of a district).
- (3) "Current Expenses" shall mean and include the reasonable and necessary costs of operating, maintaining, repairing and insuring the facilities within or operated by a district. This includes, without limitation, salaries and wages, annually appropriated lease payments and costs of materials, supplies and services, but excluding depreciation, principal of and the interest payments on the bonds and any additional bonds.
- (4) Includes debt service related to general obligation bonds.

2003	111,150,845	52,617,828	58,533,017	38,893,389	150	110	40

NOTES:

- (1) Per the Solid Waste Disposal Master Authorization section 5.13 "Rates and Charges; Rate Covenant", the County must charge rates such that revenues when combined with up to 25 percent of certain cash balances held by the fund will, in each fiscal year, at least equal the sum of 100 percent of operating expenses plus 110 percent of debt service.
- (2) "Revenues" means all monies in the Solid Waste Disposal Fund, all rents, rates, fees, service charges, user charges, etc., received by or imposed by the County in connection with the Disposal System.
- (3) "Operating Expenses" means and includes the reasonable or necessary costs and expenses of the County (not including long term expenses) of operating, maintaining, repairing, insuring, and administering the Disposal System or providing Disposal Services.
- (4) Includes debt service payments made on bonds issued by Northeast Maryland Waste Disposal Authority.
- (5) Data is not readily available for 1994 1999.
