GUIDING TENETS

CORE VALUES

- MCPS is committed to doing whatever it takes to ensure that every child, regardless of race, ethnicity, gender, socioeconomic status, language proficiency, or disability, learns and succeeds.
- Student outcomes shall not be predictable by race or ethnicity.
- MCPS has high expectations for all students, believing that all children can learn at high levels.
- Every student is a unique learner and MCPS will tailor instruction to meet the learning needs of each student.
- A comprehensive early years' program is critical for students to acquire the knowledge and skills to be successful in reading, writing, and mathematics.
- The pursuit of excellence for all students requires providing our neediest students with the extra support necessary to attain rigorous targets.
- MCPS demonstrates commitment to continuous improvement by reviewing, evaluating and improving our work and monitoring student performance data.
- MCPS is committed to a culture of respect that includes fair treatment, honesty, openness, and integrity.

MISSION

To provide a high-quality, world-class education that ensures success for every student through excellence in teaching and learning.

VISION

A high-quality education is the fundamental right of every child. All children will receive the respect, encouragement, and opportunities they need to build the knowledge, skills, and attitudes to be successful, contributing members of a global society.

SYSTEM GOALS

- Ensure success for every student
- Provide an effective instructional program
- Strengthen productive partnerships for education
- Create a positive work environment in a self-renewing organization
- Provide high-quality business services that are essential to the educational success of students

BOARD OF EDUCATION ACADEMIC PRIORITIES

- Organize and optimize resources for improved academic results
- Align rigorous curriculum, delivery of instruction, and assessment for continuous improvement of student achievement
- Develop, expand, and deliver literacy-based initiatives from prekindergarten through Grade 12
- Develop, pilot, and expand improvements in secondary content, instruction, and programs that support students' active engagement in learning
- Use student, staff, school and system performance data to monitor and improve student achievement
- Foster and sustain systems that support and improve employee effectiveness, in partnership with MCPS employee organizations
- Strengthen family-school relationships and continue to expand civic, business, and community partnerships that support improved student achievement

CRITICAL QUESTIONS

- What do students need to know and be able to do?
- How will we know they have learned it?
- What will we do when they haven't?
- What will we do when they already know it?

INTRODUCTORY SECTION

INTENTIONALLY BLANK

September 28, 2010

Members of the Board of Education:

Maryland state law requires that local education agencies publish at the close of each year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. In compliance with that requirement, we hereby submit the Comprehensive Annual Financial Report (CAFR) of the Montgomery County Public Schools (MCPS) for the fiscal year ended June 30, 2010.

This report has been prepared pursuant to Education Article Section 5-109 of the Annotated Code of Maryland. The report consists of management's representations concerning the finances of MCPS. Management assumes full responsibility for the completeness and reliability of all the information presented in this report. Management has established a comprehensive internal control framework. Internal accounting controls are designed to provide reasonable assurance that assets are safeguarded and accounted for properly, and to ensure the reliability of accounting information for preparing financial statements in conformity with GAAP. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the valuation of costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

MCPS financial statements have been audited by Clifton Gunderson LLP, an independent firm of licensed certified public accountants. The independent auditor's report is presented as the first component of the financial section of this report. MCPS also is required to undergo a federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. In addition to reporting on the fair presentation of the financial statements, the single audit places special emphasis on internal controls and legal requirements involved in the administration of federal awards. These reports are available in MCPS' separately issued Single Audit Report.

MCPS Profile

The Board of Education of Montgomery County is the elected body, corporate and politic, established under Maryland state law to provide public education in kindergarten through twelfth grade to children residing within the borders of Montgomery County, Maryland. The Board comprises five district members, two at-large members, and one student member elected for a one-year term. The Board determines educational policy and employs a superintendent of schools to administer the school system. Primary funding is provided by Montgomery County from its general revenues. Funds also are received from state and federal sources for general school aid and specific purpose grants.

The MCPS Operating Budget is approved by the Montgomery County Council. The Board of Education has no power to levy and collect taxes or increase the budget. Because of the relationship with Montgomery County, MCPS is considered a component unit of the county government, as defined by GAAP for governmental entities.

The general purpose financial statements and supplementary data in this report include all funds administered by MCPS in conjunction with its mission of providing elementary and secondary public education. The reporting entity also includes a component unit of MCPS, the MCPS Educational Foundation, Inc. The MCPS Educational Foundation, Inc. is legally separate from MCPS but included in the MCPS reporting entity because of the significance of its financial relationship with MCPS, and because MCPS is considered financially accountable for the Foundation.

Relevant Financial Policies

MCPS financial policies, endorsed by Board of Education policies and regulations, remain unchanged: organize and optimize resources for improved academic results; deliver high academic results at a low student cost; evaluate the use of resources for applicability to goals of the Board of Education's strategic plan; provide financial accountability and transparency to the citizens of Montgomery County; obtain a fair share of State aid; and carefully manage indebtedness and debt service.

MCPS uses zero-based budgeting as a tool to manage its exposure to rising costs and to assure spending is efficient. Innovative approaches to continuous improvement are employed to streamline processes and eliminate waste and to measure process performance in meeting the goals of the Board of Education's strategic plan.

Factors Affecting Financial Condition

Local economy—MCPS receives approximately 67 percent of its operating budget from Montgomery County. The economic condition and outlook of the county, therefore, play substantial roles in the economic condition of MCPS.

For the Washington Metropolitan Statistical Area (MSA), leading economic indicators have remained weak as a result of the national recession. According to the Center for Regional Analysis, the region's economy is expected to grow slowly during 2010. The region added approximately 15,000 jobs over the past year. The most recent unemployment rate was 6.4 percent, well below national levels, but significantly higher than recent years for the metropolitan area. The Washington MSA Coincident Index, a measure of the current state of the metropolitan economy, decreased by 1.5 percent during Fiscal Year (FY) 2010. The Washington MSA Leading Index increased by 2.1 percent in FY 2010, suggesting moderate growth in the region's economic expansion in the next six to eight months. Both the region's and the county's economies are expected to outperform the nation's economy due to the large presence of the federal government in the area. The federal government comprises approximately 30 percent of the county's economy. Consumer prices in the region increased 2.3 percent in the past year, slightly above the national

average, and higher than the previous year's regional inflation rate of 0.2 percent. Montgomery County's economy has experienced a weak economic performance during the last year. The primary reasons for the county's weak performance were declining employment, weak residential and nonresidential construction, and a continued decline in housing sales prices. Resident employment declined by 12,100 (3.0 percent) during FY 2010. Payroll employment decreased by 0.3 percent. However, the county's unemployment rate of 5.7 percent remains below the state average and one of the lowest in the state. Construction activity experienced mixed performance during FY 2010, increasing modestly from a historically low base. Because of strong nonresidential activity, new projects were up 11.7 percent in value. The value of new residential construction has decreased 8.9 percent this year, but the number of residential building permits issued increased by 17.3 percent. The number of residential sales increased during the year by 27.4 percent and housing inventories declined; however, average home prices in the county have decreased by 5.1 percent this year. While revenue from property taxes increased by 5.4 percent and real estate transfer and recordation taxes increased by 7.3 percent, revenue from income tax decreased by 20.6 percent in FY 2010. Purchases of goods and services were down by 1.5 percent in FY 2010.

Long-term financial planning—Six-year budget projections are updated each year, used as a starting point for discussion and planning, and revised each year to reflect trends and factors affecting enrollment. Preliminary projections for FY 2012 through FY 2016 indicate an annual increase for major known commitments of \$74.8 million for FY 2012, not including the effects of the loss of temporary federal stimulus aid, and similar projected increases for known commitments for FY 2013 through FY 2016, not including the cost of future negotiated agreements. Each one percent salary increase will add \$13.5 million in FY 2012. These projections do not include funds to address initiatives planned in the MCPS strategic plan, *Our Call to Action: Pursuit of Excellence*, to raise the bar and close the achievement gap between racial and ethnic groups.

Negotiated agreements—During FY 2010, the Board of Education reached agreement on four-year contracts with all four employee associations. All contracts will expire on June 30, 2014. The contracts all provided for no step increases and no cost-of-living adjustments. All contracts provide for reopened negotiations on economic provisions during each of the next three years.

Enrollment—MCPS enrollment has increased by over 41,000 students in the past 20 years. After a brief period of relatively flat enrollment, from 2002 to 2007, enrollment began to increase substantially in 2008. Between 2008 and 2009 enrollment increased by 2,200 students and between 2009 and 2010 enrollment increased by 2,500 students. Enrollment on September 30, 2010, is expected to be about 144,000. As a result of increasing numbers of births in the county, and other factors that are increasing enrollment, total enrollment is projected to continue to grow, with 6,000 more students projected to enroll by 2016.

In regard to school capacity, MCPS is still catching up with enrollment increases that have already occurred, with additional space needs resulting from increases in county births, migration into MCPS from a number of sources, implementation of full-day kindergarten at all elementary schools, and implementation of class-size reductions in kindergarten and Grades 1 and 2 at elementary schools having high levels of Free and Reduced-price Meals System participation. This

year, MCPS is addressing over utilization at schools with 415 relocatable classrooms, 384 of which are at elementary schools where space issues are most pronounced. To relieve over utilization of schools, in FY 2010, MCPS added a total of 40 classrooms at 2 elementary schools and 1 high schools. In addition, in FY 2010 MCPS opened a new elementary school (with 33 classrooms). In FY 2011, MCPS will add another 48 classrooms to 5 elementary schools and 1 high school. Further increases in school capacity are programmed for FY 2012 to FY 2016.

Accomplishments and Awards

Graduation rates—According to the 2010 Diplomas Count report released by *Education Week*, MCPS has the highest graduation rate of any of the 50 largest school districts in the nation. The report calculated the MCPS graduation rate as 83.1 percent.

Top High Schools—Seven MCPS high schools were named to Newsweek magazine's list of the top 100 public high schools in the nation, the most for any school system. Inclusion on the list reflects a high school's ability to provide students with access to Advanced Placement and International Baccalaureate classes. Four MCPS high schools were on the list last year.

Broad Prize finalist—MCPS has been named one of five finalists for the prestigious Broad Prize for Urban Education. MCPS was chosen as a finalist from a pool of 100 school districts. The Broad Prize is the largest education prize in the country. Designation as a finalist means MCPS 2011 graduates will have access to at least \$250,000 in college scholarships. The winner of the Broad Prize receives \$1.0 million in college scholarships.

SAT scores—The systemwide average SAT score in FY 2010 was 1653, an all-time high for the district and an increase of 38 points over last year, with 77 percent of seniors taking the SAT and/or ACT test. The average SAT score was 144 points above the national average and 151 points above the Maryland state average. The average included a mathematics score of 560, a critical reading score of 545, and a writing score averaging 547. SAT scores show a reduced but significant gap between the average scores of White and Asian American students and those of African American and Hispanic students.

Academic progress—Students at all levels are demonstrating improved academic achievement. In 2009, 48 percent of the school system's seniors scored a 3 or higher on at least one Advanced Placement exam, which is three times the national average and almost double the average in Maryland. Nearly 64 percent of all MCPS seniors took one or more Advanced Placement exam. African American and Hispanic seniors in MCPS performed significantly better than their peers nationwide on Advanced Placement exams, with more African American students and Hispanic students scoring a 3 or better than the national average for all students. MCPS has the highest graduation rate (83.1 percent) among the nation's largest school districts. Record numbers of kindergarten students are reading—more than 90 percent in 2009, up from 39 percent in 2001, eliminating the achievement gap between White and Asian American students and their African American and Hispanic peers in this grade. A record 57 percent of Grade 8 students successfully completed Algebra 1 with a "C" or higher in 2009.

Financial Reporting Awards—The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to MCPS for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2009. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

For 29 consecutive years, MCPS has received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting. This award, valid for one year, is granted only after an intensive review of the Comprehensive Annual Financial Report (CAFR) by an expert panel of certified public accountants and practicing school business officials. MCPS plans to submit the 2010 CAFR to ASBO and believes the report continues to meet ASBO certificate program requirements.

Acknowledgements

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire Division of Controller staff. The high standard of conformity of this report reflects the professional competence of all individuals responsible for its preparation. We express our appreciation for a job well done.

Respectfully submitted,

Jerry D. Weast, Ed.D.

MONTGOMERY COUNTY PUBLIC SCHOOLS ORGANIZATION

INTENTIONALLY BLANK

FINANCIAL SECTION

Independent Auditor's Report

Board of Education of Montgomery County Public Schools Rockville, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Montgomery County Public Schools, a component unit of Montgomery County, Maryland, as of and for the year ended June 30, 2010 and the budgetary comparison for the general fund for the year ended June 30, 2010, which collectively comprise the Montgomery County Public Schools' basic financial statements as listed in the table of contents. These financial statements are the responsibility of Montgomery County Public Schools' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Montgomery County Public Schools as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof, and the budgetary comparison for the general fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated September 28, 2010, on our consideration of the Montgomery County Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 14 through 24 and the schedules of funding progress and employer and other contributing entities contributions on page 61 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Montgomery County Public Schools' basic financial statements. The introductory section, other supplementary information to the financial statements and the statistical section listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information to the financial statements has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Baltimore, Maryland September 28, 2010

Clifton Genderson LLP

Montgomery County Public Schools Management's Discussion and Analysis

This section of the Montgomery County Public Schools (MCPS) Comprehensive Annual Financial Report presents a narrative overview and analysis of the financial activities of MCPS for the fiscal year ended June 30, 2010. Readers are encouraged to consider the information presented here in conjunction with additional information presented in the transmittal letter, which can be found on pages 1–5 of this report.

Financial Highlights

- The assets of MCPS exceeded its liabilities at June 30, 2010, by \$1,664.7 million, which represents its net assets.
- MCPS' net assets decreased during the year by \$31.5 million.
- 80 percent of capital asset additions were directed toward instructional facilities, including the modernization of two elementary schools and one high school.
- MCPS successfully realized its commitment to the Montgomery County Council to generate \$10.3 million in FY 2010 savings to be used to fund the MCPS FY 2011 Operating Budget. Also, MCPS reduced spending by \$19,700,000 to help Montgomery County build its reserve accounts and maintain its "AAA" credit rating.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the MCPS financial statements. MCPS' basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of MCPS' finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of MCPS' assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of MCPS is improving or deteriorating.

The statement of activities presents information showing how MCPS' net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future fiscal periods (e.g., depreciation and earned but unused annual leave).

Both of the government-wide financial statements distinguish functions of MCPS that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user

fees and charges (business-type activities). The governmental activities of MCPS include most of the district's basic services, such as regular and special education, transportation, and administration. The business-type activities of MCPS include food services and real estate management operations, field trip services, and entrepreneurial activities.

The government-wide financial statements include not only MCPS itself (known as the *primary government*), but also the MCPS Educational Foundation, Inc. for which MCPS is financially accountable. Financial information for the *component unit* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 27–29 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. MCPS, like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of MCPS can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

MCPS maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund—both of which are considered to be major funds—and the special revenue fund.

MCPS adopts annual appropriated budgets for its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 30–34 of this report.

Proprietary funds. MCPS maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. MCPS uses enterprise funds to account for its food services, real estate management, field trips, and entrepreneurial activities. Internal service funds are an accounting device used to accumulate and allocate costs internally among MCPS' various functions. MCPS uses an internal service fund to account for its active employees' health benefit

plan costs. Because this plan predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities*.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the food services operation which is considered to be a major fund of MCPS. Data for the other three proprietary funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of these nonmajor proprietary funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 35–37 of this report.

Fiduciary funds. MCPS is the trustee, or fiduciary, for assets that belong to others, which includes the MCPS Retirement and Pension Plan, the OPEB Plan Trust, and the student activities funds. MCPS is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. MCPS excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The basic fiduciary fund financial statements can be found on pages 38–39 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 41–61 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor proprietary funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 64–74 of this report.

Government-wide Financial Analysis

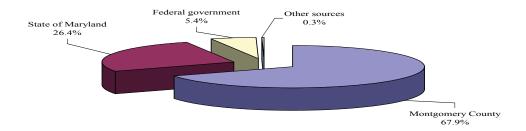

Net assets may serve as a useful indicator of a government's financial position. MCPS' net assets, the amount by which assets exceed liabilities, decreased \$31.5 million to \$1,664.7 million. Most of the decrease came from governmental activities, which decreased by \$29.8 million to \$1,668.6 million. The largest portion of net assets reflects MCPS' investment in capital assets (e.g., land, school buildings, buses, and equipment), less any related outstanding debt used by MCPS to acquire those assets. Investment in capital assets, net of related debt for governmental activities increased \$71.3 million to \$1,972.4 million. These assets are used by MCPS in its instructional programs; consequently, these assets are not available for future spending.

Montgomery County and the State of Maryland fund MCPS school construction projects through the issuance of general obligation bonds. These bonds are not reflected in MCPS' investment in capital assets, as the resources needed to repay these bonds must be provided by Montgomery County and the State of Maryland.

The unrestricted net assets deficit increased \$102.5 million to a \$311.6 million deficit at June 30, 2010. The increase in unrestricted net assets deficit is primarily attributed to the increase in the net OPEB obligation of \$89.1 million. The net OPEB obligation arose from and will continue to increase as MCPS transitions to full funding of the annual required contribution for postemployment health benefits over a period of eight years.

The deficit in unrestricted net assets arises from the district's funding policies for its noncurrent liabilities, especially for compensated absences and other postemployment benefits. The fiscal condition of MCPS remains strong, as intergovernmental revenues continue to grow sufficiently to meets its fiscal obligations and to fund its current operations.

Revenues by Source - Governmental Activities

Governmental activities. Total revenues for MCPS' governmental activities decreased \$39.0 million (1.6 percent). Intergovernmental revenues decreased \$82.5 million (3.7 percent), and operating grants revenues increased \$48.3 million (62.1 percent). Intergovernmental revenues from Montgomery County decreased \$105.7 million (6.4 percent). In an effort to assist

Montgomery County in responding to a short-fall in tax revenues, MCPS agreed to reduce its revenue appropriation from the County by \$99.2 million. Intergovernmental revenue from the State of Maryland increased \$19.5 million (3.3 percent), related to an increase in unrestricted *Bridge to Excellence* formula-driven grants. The increase in operating grants revenue is attributed to revenue received under the *American Recovery and Reinvestment Act of 2009* (ARRA). ARRA revenue included \$6.3 million for Title I and other programs, \$14.3 million for special education, and \$27.8 million in ARRA State Fiscal Stabilization Fund revenue used to pay utility expenses.

Total expenses increased \$75.4 million (3.3 percent) to \$2,379.3 million. In 2010, instructional programs expenses accounted for 83.1 percent, (82.9 percent in 2009), and support services accounted for 16.9 percent (17.1 percent in 2009) of total governmental activities expenses. The proportion of instructional expenses to total expenses continues to rise as internal savings and cost reduction programs remain the primary source for funding instructional program initiatives. Employee healthcare and other postemployment healthcare benefits increased \$29.2 million

(8.2 percent), principally due to increased funding of OPEB obligations. Salaries increased \$15.6 million (1.2 percent) as a result of student enrollment increases. Negotiated salary rates were frozen at 2009 rates. Capital project expenditures increased \$50.4 million (26.7 percent).

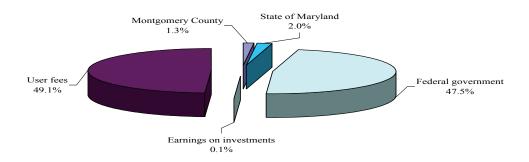

Business-type activities. Business-type activities decreased MCPS' net assets by \$1.7 million. Total revenues changed little from prior year. Charges for services decreased \$3.3 million (11.8 percent) principally due to additional snow days reducing cafeteria days of operation. The number of reimbursable meals decreased approximately 200,000 (1.5 percent) to 12,900,000. Operating grants related to federal student lunch programs increased \$3.2 million (14.7 percent).

Total expenses decreased \$0.2 million (0.4 percent). Food services operating expenses decreased \$0.8 million (1.7 percent). Food costs decreased \$0.8 million (6.4 percent) due to reduction in cafeteria operating days.

Revenues by Source - Business-type Activities

Financial Analysis of MCPS' Funds

MCPS uses fund accounting to ensure accountability and to demonstrate compliance with finance-related legal and contractual provisions.

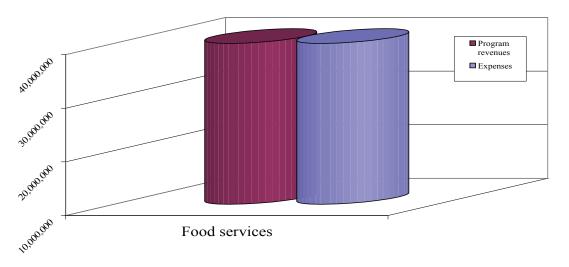

Governmental funds. The focus of MCPS' governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing MCPS' financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, MCPS' governmental funds reported combined ending fund balance of \$13.8 million, a decrease of \$29.4 million from the prior year. The unreserved, undesignated fund balance was \$0.4 million and the reserved fund balances were \$13.4 million. Reserved fund balances are unavailable for new spending because it has already been reserved to liquidate prior-period commitments.

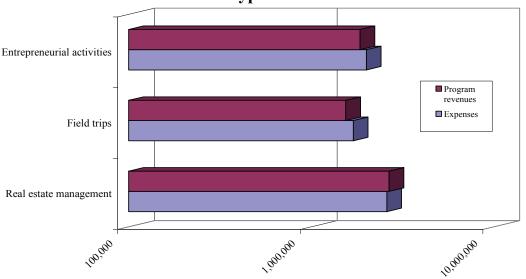

The general fund is the principal operating fund of MCPS. At June 30, 2010, unreserved, undesignated fund balance was \$0.2 million and total fund balance was \$13.5 million. Unreserved, undesignated fund balance decreased \$44.1 million, resulting primarily from the use of \$44.2 million of undesignated fund balance to fund the 2010 appropriation.

The capital projects fund 2009 deficit of \$13.8 million was reduced to zero at June 30, 2010. The deficit reflected school construction funding reversions by the State of Maryland that occurred after the anticipated state funds had been expended. During 2010, Montgomery County contributed \$5.8 million and the MCPS general fund transferred \$8.0 million to replace the \$13.8 million in lost revenue from the state. No additional reversions arose during 2010.

Program Revenues and Expenses - Major Fund Business-type Activities

Program Revenues and Expenses - Non-Major Fund Businesstype Activities

Proprietary funds. MCPS' proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Factors concerning the finances of those funds have already been addressed within the discussion of business-type activities.

General Fund Budgetary Highlights

The final amended budget for FY 2010 was \$1.2 million higher than the original budget. The increase was a result of supplemental appropriations for restricted program grants received during the year.

Actual budgetary fund balance decreased by \$47.0 million to \$12.8 million. The decrease in fund balance resulted primarily from the use of \$44.2 million in prior-year fund balance to fund the 2010 operating budget and the transfer of \$8.0 million to reduce the capital projects fund deficit.

Actual revenues were \$112.4 million under budget for the year. Unrestricted revenue from Montgomery County was \$99.2 million under budget, as a result of an effort by MCPS to assist Montgomery County in responding to a shortfall in tax revenues. Unrestricted revenue from the State of Maryland was under budget by \$1.0 million, due to a decrease in funding for students placed in nonpublic facilities. Restricted revenues were \$11.6 million under budget, of which \$2.3 million comprised estimated restricted grants that did not materialize, and \$9.3 million in unrealized revenue for grants that carried forward into 2011.

Actual expenditures were \$123.9 million under budget. Restricted expenditures were \$11.6 million less than the budget, which consisted of \$9.3 million in unspent funds for grants that carry forward into 2011, and \$2.3 million in estimated restricted grants that did not materialize.

Unrestricted expenditures were \$112.3 million under budget. A savings plan implemented during the year reduced expenditures by \$32.8 million. In agreement with the Montgomery County Council, \$19.7 million in savings would be used by Montgomery County to increase its reserve accounts and \$10.3 million would be used in funding the FY 2011 budget. Seventy-nine and one-half million dollars budgeted for county debt service was not spent after the Maryland State Department of Education ruled that debt service expenditures would not qualify for determining the county's maintenance of effort requirement.

Capital Asset and Debt Administration

Capital Assets. Capital assets include land and site improvements, schools and administrative buildings, school buses, and other vehicles and equipment. At June 30, 2010, MCPS' investment in capital assets for its governmental and business-type activities amounts to \$1,996.6 million, net of accumulated depreciation. This amount represents a net increase of \$65.9 million or 3.4 percent from last year. The net value of buildings, less accumulated depreciation, increased \$145.0 million and construction in progress decreased \$86.0 million.

To relieve overcrowding, reduce the number of relocatable classrooms, and accommodate full-day kindergarten, in FY 2010, MCPS added 40 classrooms to two elementary schools and one high school. In FY 2011, MCPS will add 48 classrooms to five elementary schools and one high school.

Additional information about capital assets can be found in note 6 to the financial statements.

Long-term debt. At June 30, 2010, MCPS had \$33.1 million in capital leases outstanding. MCPS acquires school buses, instructional computers and furniture, other vehicles, and heavy equipment through a master lease agreement with a financial institution. New capital leases for school buses, instructional computers, and other equipment amounted to \$6.4 million during 2010. Principal payments on existing capital leases were \$20.3 million during the current year.

Additional information on MCPS' long-term debt can be found in notes 8 and 9 to the financial statements.

Factors Bearing on MCPS' Future

The transmittal letter presents certain information on the local economy and long-term financial planning, enrollment, and negotiated agreement issues affecting MCPS. There are four additional initiatives that significantly impact MCPS.

Postemployment Healthcare Benefits. The Governmental Accounting Standards Board (GASB) issued Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefit Plans Other Than Pension Plans (OPEB) in June 2004. The Statement was effective in FY 2008 for MCPS. The Statement established standards for the measurement, recognition and reporting of OPEB expenditures and related liabilities. The Statement requires MCPS to recognize an expenditure for OPEB during the period of active service for its employees, and, to the extent not currently funded, to recognize a liability for unfunded OPEB costs. MCPS worked jointly with the county and other county agencies to develop a common approach for funding OPEB that would be acceptable to the Montgomery County Council, the funding authority for MCPS. MCPS initially agreed with the County Council to phase in full funding of the annual OPEB cost over a five-year period. The FY 2008 OPEB contribution was based on a five-year phase in. Subsequently, MCPS agreed with a County Council request to

extend the phase-in period to eight years beginning with the FY 2009 contribution to the unfunded actuarial accrued liability (UAAL).

The FY 2010 UAAL contribution of \$11.9 million was appropriated by the Montgomery County Council, with provision that payment would be made to the OPEB Plan Trust only if county resources were not otherwise required to address a FY 2010 fiscal shortfall. The FY 2010 payment was not made, due to declining county tax revenues. A significant increase in funding will be required in FY 2011 to maintain progress toward completion of the eight-year phase-in.

MCPS created the OPEB Plan Trust to account for its OPEB activity. Additional information about MCPS' OPEB funding can be found in note 12 to the financial statements.

No Child Left Behind. In 2002, the United States Congress approved the *No Child Left Behind Act* (NCLB). This marked the most fundamental revision of federal education legislation since the adoption of the *Elementary and Secondary Education Act* (ESEA) in 1965. The law calls for rigorous standards in all states and compulsory testing of students in Grades 3 through 8 and Grade 10. MCPS has aligned its plans and outcome measures with the standards of NCLB with the goal of having all schools meet Adequate Yearly Progress (AYP) targets and having all teachers meet "highly qualified" standards as established by the State of Maryland.

The 2002 Maryland General Assembly adopted ground-breaking Bridge to Excellence. legislation to reform the system of educational funding in the state. The Bridge to Excellence Act (BTE) (S.B. 856) provides an additional statewide funding to assure the adequacy of educational resources while redirecting resources more equitably to meet the needs of students with disabilities, limited English proficient students, and students impacted by poverty. In FY 2009, the Maryland General Assembly funded for the first time 60 percent of the Geographic Cost of Education Index (GCEI) adjustment to recognize the higher cost of education in some school districts. Montgomery County received \$18.4 million in added state aid as a result of the Maryland **GCEI** adjustment. The General Assembly initially FY 2010 BTE and GCEI funding due to a projected shortfall in general state revenues. Subsequently, the Maryland General Assembly was able to restore funding for both BTE and GCEI using federal grant funds available through the American Recovery and Reinvestment Act (ARRA) State Fiscal Stabilization Fund (SFSF). This federal funding will be available through FY 2011 to support mandated BTE state aid formulas.

Master Plan. In accordance with the mandates of this law, MCPS has submitted to the Maryland State Department of Education a five-year Master Plan to indicate how its schools will meet established goals for student achievement. The strategic plan for the school system, *Our Call to Action: Pursuit of Excellence*, forms the basis of the Master Plan and was reviewed extensively by community leaders and local officials. The Master Plan includes specific plans for the implementation of the requirements of NCLB. The Maryland State Board of Education approved the five-year Master Plan, and MCPS has submitted the annual required updates to the plan, which also have been approved by the Maryland State Board of Education.

Requests for Information

This financial report is designed to provide a general overview of MCPS' finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the chief financial officer, Montgomery County Public Schools, 7361 Calhoun Place, Suite 190, Rockville, Maryland 20855.

MONTGOMERY COUNTY PUBLIC SCHOOLS RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES WITH THE DISTRICT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2010

| Total net change in fund balances - governmental funds | \$ | (29,409,540) |
|--|----|--------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays for capital project assets (\$178,597,204 less non-capitalized items of \$42,892,494) plus capital outlays for general fund assets (\$6,056,398) exceed depreciation expense (\$71,136,187) in the current period. | | 70,624,921 |
| The net effect of various miscellaneous transactions involving capital assets, such as the the loss on disposal of capital assets and the donation of land from developers is to decrease net assets. | | (4,423,181) |
| Some of the capital assets and assets below the capitalization threshold acquired this year were financed with capital leases. The amount financed by capital leases is reported in the governmenta funds as a source of financing. On the other hand, the capital leases are not revenues in the statement of activities, but rather constitute long-term liabilities in the statement of net assets. Also, expenditures for principal repayment of capital leases are measured by the amount of financial resources used by governmental funds and have no effect on net assets. | I | 14,053,421 |
| In the statement of activities, certain operating expenses are measured by the amounts accrued during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources expended, as follows: Annual OPEB cost Compensated absences Change in net pension obligation (87,877,722) (1,575,300) 3,098,291 | | (86,354,731) |
| An internal service fund is used to charge the costs of the employee benefit plan to the individual funds. The net expense of the internal service fund is reported with governmental activities in the statement of activities. | | 5,743,538 |
| Change in net assets of governmental activities | \$ | (29,765,572) |

1. Summary of Significant Accounting Policies

The financial statements of MCPS have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of MCPS are described below.

a) Reporting Entity

The Board of Education of Montgomery County is the elected body, corporate and politic, established under Maryland law to provide public education in kindergarten through twelfth grade to children residing within the borders of Montgomery County, Maryland. The Board determines educational policy and employs a superintendent of schools to administer the public school system known as Montgomery County Public Schools (MCPS). Primary funding is provided by Montgomery County from its general revenues. Funds also are received from state and federal sources for general school aid and specific purpose grants. The budget is approved by the Montgomery County Council. The Board of Education has no power to levy and collect taxes or to increase the budget. Because of the relationship with Montgomery County, MCPS is considered a component unit of the county government, as defined by GAAP for governmental entities.

The accompanying financial statements present the primary government, MCPS, and its discretely presented component unit, the Montgomery County Public Schools Educational Foundation, Inc. (Foundation). The Foundation is included in the reporting entity because of the financial benefits provided through it to MCPS and because MCPS is considered to be financially accountable. The Foundation is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from MCPS.

The Foundation accepts grants and contributions from private organizations and individuals. All such funds received are used to enhance MCPS educational programs and to provide student scholarships. Complete financial statements can be obtained from the Office of the Chief Operating Officer, Montgomery County Public Schools, 850 Hungerford Drive, Rockville, Maryland 20850.

b) Basis of Presentation

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of MCPS and its component unit except for fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. An exception to this general rule is that interfund services provided or used between functions have not been eliminated in the statement of activities because to do so would distort the net cost data for functional activities reported in the total column of that statement. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for support. Likewise, the primary government is reported separately from its legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Intergovernmental revenue and other items not properly included among program revenues are reported as general revenues.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are

reported as separate columns in the fund financial statements. Nonmajor enterprise funds are aggregated and reported as nonmajor funds.

MCPS reports the following major governmental funds:

The general fund is the primary operating fund of MCPS. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The capital projects fund accounts for financial resources to be used in the acquisition or construction of school sites and buildings and other major capital facilities.

MCPS reports the following major proprietary fund:

The food services fund accounts for the operations of 210 cafeterias and the central production facility, providing for the preparation and sale of meals to students and other agencies and customers.

Additionally, MCPS reports the following fund types:

The special revenue fund accounts for the use of Cable TV franchise fees that are legally restricted to expenditure for specific purposes.

The internal service fund accounts for the financing of active employee health benefits provided to other funds of the government on a cost reimbursement basis.

The pension and other employee benefits trust funds account for the activities of the MCPS Employees' Retirement and Pension System that accumulates resources for pension benefit payments to qualified MCPS employees, and the OPEB Plan Trust that accumulates resources for postemployment health benefits.

The agency fund accounts for assets held by elementary and secondary schools for student groups. Agency funds are custodial in nature (i.e., assets equal liabilities) and do not involve measurement of results of operations.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Food Services enterprise fund, of the nonmajor enterprise funds, and of the internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and the internal service fund include cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

c) Measurement focus, basis of accounting

The government-wide, proprietary, and certain fiduciary (pension and other employee benefit trust) fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Revenue from USDA commodities is considered earned when the commodities are used. The value of unused USDA commodities is reported as unearned revenue. Employee, employer, and other contributing entities' contributions to the pension and other employee benefit trust funds are recognized as revenue in the period that the contributions are due. Pension and other postemployment benefits expenses and refunds are recognized when due and payable. Agency funds, which have no measurement focus, also use the accrual basis of accounting to recognize assets and liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. All governmental fund revenues are considered available if the revenues are collected within ninety days after year-end. MCPS' primary sources of funding

are intergovernmental revenues which are either unrestricted as to purpose of expenditure or are restricted to a specific purpose. Unrestricted funds are recorded as revenues at the time of receipt or earlier if they meet the availability criterion. Restricted funds are recognized as revenue when all eligibility requirements imposed by the provider have been met and the resources are available. Restricted funds received in excess of recorded expenditures are recorded as unearned revenue. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except for principal and interest on capital leases, and expenditures related to compensated absences and claims and judgments, which are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from capital leases are reported as other financing sources.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. MCPS has elected not to follow subsequent private-sector guidance.

When both restricted and unrestricted resources are available for use, it is MCPS' policy to use restricted resources first, then unrestricted resources as they are needed.

d) Cash and Investments

MCPS maintains an active pooled cash and investment program which is managed in accordance with the Annotated Code of Maryland. Overnight investments in repurchase agreements and money market investments are stated at amortized cost. Investment income is allocated to the various funds based on their average equity in the pool. The assignment of allocated investment income to the general fund is reported as a transfer.

Pension Trust Fund investments consist of a group pension immediate participation contract carried at contract value and separate funds carried at fair value. Equity and bond securities are valued at closing sales prices as reported on national or international securities exchanges at current exchange rates, or at closing bid prices as reported by investment dealers. The fair value of mortgages and real estate investments are based on independent appraisals.

OPEB Plan Trust investments, consisting of equity and bond index funds, are stated at fair value.

Internal Service Fund investments are stated at fair value. For purposes of the statement of cash flows, the Internal Service Fund and the Food Services Fund consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

The cash in the Agency Fund represents the independent activity fund cash balances in the separate bank accounts of individual schools and other groups. The bank accounts are maintained by each of the locations. The administrator at each location is required, under MCPS policy, to deposit any funds in excess of current needs with a federally or state insured financial institution or in the MCPS Centralized Investment Fund. All such funds earn market rate interest and are available to the schools on a demand basis.

The Agency Fund and the component unit invest in certain external investment pools. The Maryland Local Government Investment Pool consists of funds from local governments placed in the custody of the state and funds from the state. Oversight responsibility for the pool resides with the state treasurer. The Montgomery County investment pool invests funds for itself and participating agencies pursuant to the Annotated Code of Maryland, County Code and the county's short-term investment policy as approved by the County Council. The fair value of MCPS' position in the aforementioned pools is the same as the value of pool shares.

e) Inventories and Prepaid Items

Inventories are stated at the lower of cost or market. For supplies, instructional materials, and transportation parts, cost is determined by the average cost method; for transportation fuels, food and food related inventories, cost is determined by the first-in, first-out method. Commodities received from the U.S. Department of Agriculture (USDA) are stated at fair value. Unused USDA

commodities in inventory at year-end are reported as deferred revenue as title does not pass to MCPS until the commodities are used. The cost of all inventories is recorded as an expense/ expenditure at the time the individual inventory items are consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

f) Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by MCPS as assets with an initial, individual cost of more than \$5,000 (\$600 for the Food Services Fund) for equipment and \$200,000 for buildings and structural additions, and an estimated useful life in excess of one year. Purchased or constructed capital assets are valued at cost where historic records exist and at estimated historic cost where no historic records exist. Donated capital assets are valued at estimated fair market value at the date received.

Capital outlays for capital assets and improvements are capitalized as projects are constructed. Outlays for normal maintenance and repairs that do not add to the value of an asset or materially extend asset lives are not capitalized. Capital outlays for technology modernization are capitalized to the extent individual costs exceed capitalization thresholds.

Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

| Assets | <u>Years</u> |
|--|--------------|
| Buildings | 40 |
| Land and building improvements | 20 |
| Portable classrooms | 15 |
| Furniture, heavy equipment and vehicles | 12 |
| Technology, light equipment and vehicles | 5 |

g) Compensated Absences

MCPS employees are permitted to accumulate earned but unused annual and sick leave benefits. It is MCPS policy to pay employees who separate from service with MCPS the accumulated amount of earned but unused annual leave and, for employees with at least five years credited service, one quarter of vested, accumulated sick leave. Employees with thirty or more years credited service receive 30 percent of vested, accumulated sick leave. Members of the Montgomery County Education Association receive 30 percent only if they submit retirement or termination notice by April 1, for an effective date of July 1. All annual and vested sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only at the time of employee resignations and retirements.

h) Long-Term Obligations

Long-term obligations are reported as liabilities in the government-wide and proprietary fund financial statements. Only the portion of long-term obligations expected to be paid from expendable available financial resources is reported as a liability in the governmental fund financial statements, and the face amount of capital lease issuances is reported as other financing sources.

i) Fund Equity

Governmental funds, in the fund financial statements, report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

2. Budgetary Information

a) Overview

The majority of current funding for MCPS is provided by Montgomery County, the State of Maryland, and the federal government. Under Maryland school statutes, the MCPS annual budget is presented to the Montgomery County Council no later than March 1 and is to be adopted by the Council by May 31. In general, the county is then responsible to fund the budget so adopted, to the extent that funds are not raised from other sources (state and federal governments, etc.). The Board of Education has no power to levy taxes or to spend funds not appropriated by the Montgomery County Council.

Formal budgetary integration, including encumbrance accounting, is employed as a management control device during the year for the governmental and proprietary fund types. Management is authorized to transfer funds within major categories of expenditure (i.e., administration, instructional salaries, etc.) up to \$100,000. Transfers in excess of \$100,000 require the approval of the superintendent and the Board of Education; transfers between major categories require the approval of the Montgomery County Council. By state law, major categories of expenditure may not exceed budgeted amounts for the year ending June 30.

The budgeted amounts reflected in the accompanying financial statements recognize budget revisions made during the year, all of which were properly reported and/or approved, as applicable. During 2010, supplemental appropriations increasing the operating budget by \$1,191,695 and increasing the capital budget by \$29,890,784 were approved.

Encumbrances outstanding at year-end in the governmental funds are reported in accordance with GAAP as reservations of fund balance since they do not constitute expenditures or liabilities. Encumbrances outstanding for the proprietary funds are eliminated for financial statement presentation. Annual appropriations that are not spent, encumbered, or designated at year-end lapse. Outstanding encumbrances at year-end are reappropriated in the subsequent year.

Capital projects are funded primarily by Montgomery County and by the state. Funds are budgeted and appropriated on a project basis and on an annual basis. Capital projects funds do not lapse at the end of each year, but may be expended until project completion.

b) Budgetary Presentation

The general fund statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual has been prepared on the legally prescribed budgetary basis of accounting to demonstrate compliance with the legally adopted budget. Generally, the budgetary basis of accounting employs the modified accrual basis plus encumbrances. The basis used to prepare the legally adopted budget differs from GAAP as follows:

- Encumbrances outstanding are charged to budgetary appropriations in the current period.
- Expenditures for compensated absences are accounted for on a cash basis.
- State of Maryland retirement contributions made on behalf of MCPS employees are a legal obligation of the State, and so are not included in the MCPS budget.
- Federal government Medicare Part D payments made to the OPEB Plan Trust on behalf of MCPS retired employees for postemployment prescription benefits are not included in the MCPS budget.
- Capital lease financing is accounted for as other financing sources for GAAP purposes.

Adjustments to reconcile the budgetary statement to the GAAP fund statement are as follows:

| | Revenues | | Expenditures and Encumbrances | Other Financing Sources | | Effect on Fund Balance |
|---|------------------|----|-------------------------------|-------------------------------|----|---------------------------|
| As reported - budgetary basis | \$ 1,997,529,709 | \$ | 2,036,435,117 | \$ (8,061,864) | \$ | (46,967,272) |
| Reconciling items: | | | | | | |
| 2010 Encumbrances outstanding | | | (6,104,012) | | | 6,104,012 |
| Increase in compensated absences State of Maryland retirement | | | 2,425,447 | | | (2,425,447) |
| contributions Federal Medicare Part D | 149,981,157 | | 149,981,157 | | | - |
| contributions | 4,605,413 | | 4,605,413 | | | - |
| Capital lease financing | | _ | 6,125,021 | 6,125,021 | _ | - |
| As reported – GAAP basis | \$ 2,152,116,279 | \$ | 2,193,468,143 | \$ (1,936,843) | \$ | (43,288,707) |

Capital Projects Fund encumbrances of \$175,783,057 are not reflected in the governmental fund balance sheet as the offsetting revenues are not available until the expenditures on a GAAP basis are incurred.

Beginning June 15 of each fiscal year, MCPS issues purchase orders and begins shipment of inventory to various locations for items such as instructional materials, textbooks, and construction contracts that will be charged to the budget of the next fiscal year. These obligations and warehouse shipments are not reflected in the accompanying financial statements. At June 30, 2010, \$29,442,817 of such purchase orders had been issued.

c) Deficit Fund Equity

The Entrepreneurial Activities Fund increased its deficit by \$152,284, to a deficit in net assets of \$671,174 at June 30, 2010. It is anticipated that the deficit will be eliminated, over time, as the level of fund activity expands and cost monitoring measures continue.

Net assets of the Internal Service Fund represent equity reserved for future claim losses and benefits under the employee benefit plan.

3. Deposits and Investments

Cash and investments at June 30, 2010, are summarized as follows:

| | Primary Government | Component Unit |
|---------------------------------------|---------------------------|-----------------------|
| Equity in pooled cash and investments | \$ 19,379,458 | \$ |
| Cash and cash equivalents | 6,678,135 | 30,133 |
| Cash-fiduciary funds | 3,545,201 | |
| Investments – cash equivalents | 32,939,818 | |
| Investments | | 5,435,899 |
| Investments-fiduciary funds | 873,715,946 | |
| Total | \$ 936,258,558 | \$ 5,466,032 |
| Deposits and Investments Summary: | | |
| Deposits | \$ 6,002,066 | \$ 30,133 |
| Investments | 930,250,429 | 5,435,899 |
| Cash on hand | 6,063 | |
| Total | \$ 936,258,558 | \$ 5,466,032 |

a) Deposits

Custodial credit risk. In the case of deposits, this is the risk that in the event of a bank failure, MCPS' deposits may not be returned to it. The Annotated Code of Maryland requires that funds on deposit with a financial institution be fully secured by deposit insurance, surety bonds, obligations of the United States or its agencies, obligations of the State of Maryland or any of its agencies, or obligations of a county, other governmental authority, or municipal corporation in the State of Maryland.

At June 30, 2010, the reported balance of MCPS' deposits was \$6,002,066 and the bank balance was \$10,350,737. The bank balance was covered either by federal depository insurance or by collateral held by MCPS' agent in MCPS' name.

b) Investments

Investments as of June 30, 2010, are as follows:

| Investment Type | Fair Value |
|---|-------------|
| Pension Trust Investments: | |
| Common and preferred stocks \$ | 458,237,543 |
| Short-term investments | 14,977,832 |
| U.S. Government and agency securities | 100,068,313 |
| Fixed income securities | 169,779,721 |
| Real estate | 51,207,662 |
| Participation contract | 3,513,053 |
| Private equity | 8,913,821 |
| Securities lending short-term investment pool | 23,401,156 |
| Subtotal Pension Trust Investments | 830,099,101 |
| OPEB Plan Trust Investments: | |
| Equities index funds | 24,546,770 |
| Bond index fund | 6,295,868 |
| Subtotal OPEB Plan Trust investments | 30,842,638 |
| Other Investments: | |
| Repurchase agreements | 477,067 |
| Mutual funds | 56,057,416 |
| Maryland Local Government Investment Pool | 11,808,607 |
| Montgomery County investment pool | 965,600 |
| Total investments \$ | 930,250,429 |

Securities lending transactions. The Annotated Code of Maryland allows the MCPS Employees' Retirement and Pension System (Pension Trust) to participate in securities lending transactions. The Pension Trust uses the Bank of New York Mellon (BNY), its custodial bank, to lend its securities to broker-dealers and banks pursuant to a form of borrowing agreement.

During 2010, BNY lent Pension Trust securities for which it is custodian. Pension Trust securities not under the custodianship of BNY are not part of the Securities Lending Authorization Agreement. BNY may receive from borrowers both cash and non-cash collateral. Non-cash collateral includes United States government securities and irrevocable letters of credit. BNY does not have the ability to pledge or sell collateral unless the borrower is in default under the agreement. Borrowers are required to deliver cash and/or non-cash collateral having a market value of not less than 102 percent of the market value of the borrowed securities (105 percent if the borrowed securities and collateral are denominated in non-U.S. currencies).

The following represents the balances relating to securities lending transactions at June 30, 2010.

| Securities lent for cash collateral: | Unde | Cash Collateral Investment Value | | | |
|--------------------------------------|------|----------------------------------|----|------------|--|
| U.S. Government | \$ | 7,405,758 | \$ | 7,558,744 | |
| Domestic equities | | 10,709,542 | | 11,001,033 | |
| International Equities | | 1,004,593 | | 1,068,019 | |
| Domestic fixed-income | | 3,682,536 | | 3,773,360 | |
| Total | \$ | 22,802,429 | \$ | 23,401,156 | |

BNY indemnifies the Pension Trust against any losses, damages or expenses it may incur if BNY is unable to recover the borrowed securities, and distributions made with respect to those securities, as a result of BNY's failure to make a reasoned determination of borrower creditworthiness or to demand adequate and appropriate collateral. During 2010, there were no losses resulting from

borrower default. The Pension Trust and the borrowers maintain the right to terminate all securities lending transactions on demand.

The cash collateral is invested in the BNY Pooled Employee ASL Short-Term Fund (the "Fund"). The Fund invests only in instruments that are eligible investments for a money market mutual fund under SEC Rule 2a-7. The Fund is accounted for on an amortized cost basis. BNY believes that the value of the Pension Trust's position in the Fund on an amortized cost basis approximates the valuation of the Fund if valued at fair value.

Because loans are terminable at will, their duration does not generally match the duration of the investments made with cash collateral.

Interest rate risk. MCPS manages its exposure to fair value losses arising from increasing interest rates by limiting the duration of its investment portfolios. Internal pooled investments duration is limited to less than six months. The investment policy of the Centralized Investment Fund limits maturity to three years or less. The Pension Trust investment policy specifies that fixed-income portfolio duration should not exceed plus or minus one year from the Barclay's Capital Aggregate Bond Index. The OPEB Plan Trust investment policy requires that the weighted average duration of the portfolio not vary from the Barclay's Capital Aggregate Bond Index by more than plus or minus 20 percent.

Modified duration estimates the sensitivity of a bond's price to interest rate changes. The greater the duration of a bond, the greater its price volatility may be in response to changes in interest rates. As of June 30, 2010, fixed income investments had the following sensitivity to interest rates:

| Investment Type | Fair Value | Modified Duration in Years |
|---------------------------------------|-------------------|-------------------------------|
| Pension Trust Investments: | | |
| U.S. Government | \$ 37,202,244 | 9.84 |
| U.S. agencies | 2,900,718 | 5.86 |
| Government mortgage-backed securities | 59,965,351 | 2.58 |
| Asset-backed securities | 14,822,675 | 2.28 |
| Commercial mortgage-backed securities | 16,148,191 | 2.76 |
| Collateralized mortgage obligations | 11,139,799 | 3.96 |
| Corporate bonds | 88,563,872 | 5.29 |
| Municipal/sovereign bonds | 3,648,524 | 10.12 |
| Mutual Funds | 35,456,659 | N/A |
| Short-term | 14,977,832 | N/A |
| Sub-total Pension Trust Investments | 284,825,865 | |
| Other Investments: | | |
| OPEB Plan Trust bond index fund | 6,295,868 | N/A |
| Repurchase agreements | 477,067 | N/A |
| Mutual funds | 56,057,416 | N/A |
| Pooled Investments | 12,774,207 | N/A |
| Total | \$ 360,430,423 | |

Credit risk. The Annotated Code of Maryland authorizes MCPS to invest in obligations for which the United States has pledged its faith and credit for the payment of principal and interest, in obligations issued by a federal agency in accordance with an act of Congress, in repurchase agreements collateralized at not less than 102 percent of the principal amount by obligations of the United States and its agencies, in money market mutual funds operated in accordance with SEC Rule 2A-7, or in any investment portfolio created under the Maryland Local Government Investment Pool.

The Pension Trust Fund, the OPEB Plan Trust and the Internal Service Fund are authorized to invest in domestic and foreign equities, obligations of the United States and its agencies, securities issued or guaranteed by a foreign government, marketable corporate bonds, collateralized obligations, commercial paper, bankers' acceptances, money market funds, and pooled real estate investments. Fixed income investments are to be made primarily in issues rated "A" or better by Moody's and "A" or better by Standard & Poor's rating agencies.

Pension Trust fixed-income investments at June 30, 2010, had the following credit risk characteristics:

| S&P/Moody's Quality Rating | Percent of Fixed-Income Investments | Fair Value |
|-------------------------------|---|-------------------|
| US Government | | |
| Obligations * | 34.9 % | \$ 99,256,263 |
| ĀAA | 15.5 | 44,214,012 |
| AA | 6.4 | 18,363,900 |
| Α | 10.3 | 29,231,959 |
| BBB | 7.1 | 20,147,713 |
| BB | 1.5 | 4,208,558 |
| В | 1.5 | 4,387,082 |
| CCC | 1.1 | 3,215,049 |
| CC/D | 0.1 | 382,825 |
| Not rated | 21.6 | 61,418,504 |
| Total | 100.0 % | \$ 284,825,865 |

^{*} Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government that are not considered to have credit risk.

The OPEB Plan trust fixed-income investments in mutual funds are not rated by the rating agencies.

Other MCPS investments are rated AAA by Standard and Poor's, except the Montgomery County investment pool which is not rated by the rating agencies.

Concentration of credit risk. The investment policy of the Pension Trust limits the equity holdings in any one company to not more than five percent of the value of assets within a portfolio. Not more than ten percent of the market value of a fixed-income portfolio shall be invested in securities of any one issuer, except U.S. Government and Agency obligations.

The investment policy of the OPEB Plan Trust requires that equity investments be adequately diversified. Not more than ten percent of the market value of an individual manager's account may be invested in fixed-income securities of any one issuer, except U.S. Government and Agency obligations.

Foreign currency risk. The Pension Trust's exposure to foreign currency risk is derived from its positions in foreign currency denominated investments. The investment policy of the Pension Trust provides guidance for the amount of investments made in foreign currency-denominated equity securities. The target allocation for foreign currency-denominated equity investments is 19 percent. The investment policy states that investment managers are, to diversify the portfolio

under their management to minimize the risk of large losses. The system's foreign currency risk at June 30, 2010, is as follows:

| | | Fixed | | Private | Total Fair |
|------------------------|---------------|----------------|------|-----------|------------------|
| Currency | Equities | Income | _ | Equity | Value |
| European Currency Unit | \$ 18,615,119 | \$ (77,235) | \$ | 2,777,763 | \$ 21,315,647 |

c) Cash on Hand

At year-end, the primary government had \$6,063 on hand in petty cash accounts.

4. Interfund Receivables and Payables

Balances due to/from other funds at June 30, 2010, consist of the following:

| Due to the general fund from other governmental funds representing | |
|--|------------------|
| advances of pooled cash | \$ 24,266 |
| Due to the general fund from enterprise funds representing advances of | |
| pooled cash | 12,038,378 |
| Due to the internal service fund from the general fund for employer and | |
| employee benefit plan contributions | 9,864,981 |
| Due to pension and employee benefits trust funds representing OPEB | |
| investments held in a non irrevocable trust by the internal service fund | 12,973,471 |
| Total | \$ 34,901,096 |

Following is a summary of balances due from other funds reported in fund financial statements:

| Due from other funds, Balance Sheet-Governmental Funds | \$ 12,062,644 |
|---|------------------|
| Due from other funds, Statement of Net Assets-Proprietary Funds | 9,864,981 |
| Due from general and internal service funds, Statement of Net Assets- | |
| Fiduciary Funds | 12,973,471 |
| Total | \$ 34,901,096 |

Interfund balances are repaid currently from reimbursable expenditures and proceeds from the sale of goods and services.

Transfers to/from other funds consist of the following:

From the general fund to the capital projects fund to cover a shortfall in State of Maryland school construction funding

\$ <u>8,061,864</u>

5. Due From Employees

The \$437,426 reported as due from employees arose from past transition to a unified pay cycle calendar for twelve-month employees. Repayment is made from final paychecks when employees separate from active employment with MCPS.

6. Capital Assets

Capital asset activity for the year ended June 30, 2010 was as follows:

| Governmental Activities: | | Beginning <u>Balance</u> | | <u>Increases</u> | | <u>Decreases</u> | | Ending <u>Balance</u> |
|---|---------------|---|---------------|--|------------|--|-----------|---|
| Nondepreciable capital assets: Land Construction in progress Total nondepreciable capital assets | \$ | 68,857,319 176,514,372 245,371,691 | \$ | 1,364,782 128,787,379 130,152,161 | | 214,816,091 214,816,091 | \$ | 70,222,101 90,485,660 160,707,761 |

| Total accounts payable and other | - | | . – | | - | |
| current liabilities | \$_ | 149,953,641 | . \$ _ | 402,771 | . \$ | 150,356,412 |

8. Leases

a) Operating Leases

Expenditures under lease agreements for office space and equipment were approximately \$5,849,000 in 2010. Commitments for fiscal year 2011 under lease agreements are approximately \$3,175,000. Lease agreements typically provide for automatic termination on July 1 of any year in which funds to meet rental payments are not appropriated.

b) Capital Leases

Under a master lease arrangement, MCPS acquires school buses, vehicles, technology and other equipment under noncancelable capital leases that expire at various times through fiscal year 2014. Lease payments, including interest, in fiscal year 2010 were \$11,827,927 for the General Fund, \$10,100,836 for the Capital Projects Fund and \$177,825 for the Enterprise Fund.

Assets acquired through capital leases are as follows:

| | _ | Governmental Activities | · - | Enterprise Fund |
|--------------------------------|------|----------------------------|----------------|--------------------|
| Vehicles and equipment | \$ | 35,155,852 | \$ | 289,470 |
| Less: accumulated depreciation | | (8,466,582) | | (29,035) |
| Total | \$ _ | 26,689,270 | \$ | 260,435 |

Future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2010, were as follows:

| Fiscal year ending June 30 | _ | Governmental Activities | | Enterprise Fund |
|--|------|----------------------------|--------|--------------------|
| 2011 | \$ | 16,573,342 | \$ | 124,085 |
| 2012 | | 10,629,283 | | 103,090 |
| 2013 | | 4,957,444 | | 40,262 |
| 2014 | | 2,098,657 | | 40,262 |
| 2015 | _ | 741,940 | | |
| Total minimum lease payments | | 35,000,666 | | 307,699 |
| Less : Amount representing interest | | (2,215,841) | | (20,356) |
| Present value of future minimum lease payments | \$ _ | 32,784,825 | _ \$ _ | 287,343 |

\$20,127,625 of outstanding capital lease obligations for governmental activities at June 30, 2010, was used to acquire capital assets.

9. Long-Term Liabilities

Long-term liability activities during 2010 were as follows:

| Governmental | Beginning <u>Balance</u> | | <u>Additions</u> | Reductions | Ending <u>Balance</u> | Due Within One Year |
|-------------------------------|-----------------------------|-----|------------------|------------------|--------------------------|------------------------|
| Activities: Capital leases | \$ 46,838,246 | \$ | 6,125,021 | \$ 20,178,442 | \$ 32,784,825 | \$ 15,376,174 |
| Compensated absences | 100,965,576 | | 12,341,445 | 8,340,698 | 104,966,323 | 8,829,463 |
| Net OPEB obligation | 126,824,349 | | 94,822,167 | 6,944,445 | 214,702,071 | - |
| Net pension obligation | 3,098,291 | | 232,372 | 3,330,663 | - | - |
| Total | \$ 277,726,462 | `\$ | 113,521,005 | \$ 38,794,248 | \$ 352,453,219 | \$ 24,205,637 |

| Business-Type | | Beginning <u>Balance</u> | <u>Increases</u> | <u>Decreases</u> | Ending <u>Balance</u> | Due Within <u>One Year</u> |
|----------------------|------|-----------------------------|------------------|------------------|--------------------------|-------------------------------|
| Activities: | | | | | | |
| Capital leases | \$ | 151,621 | \$ 303,737 | \$ 168,015 | \$ 287,343 | \$ 113,961 |
| Compensated absences | | 1,626,769 | 157,229 | 58,425 | 1,725,573 | 59,412 |
| Net OPEB obligation | | 1,774,667 | 1,372,444 | 98,603 | 3,048,508 | |
| Total | \$ _ | 3,553,057 | \$ 1,833,410 | \$ 325,043 | \$ 5,061,424 | \$ 173,373 |

Compensated absences and net pension obligation for the governmental activities are generally liquidated by the General Fund.

10. Risk Management

MCPS is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees or students; natural disasters; and employee health benefits. MCPS participates in the Montgomery County Liability and Property Coverage Self-Insurance Program. Under this program, MCPS receives coverage for general liability, workers' compensation, public official liability, property, and motor vehicle risks, generally up to a maximum of \$100,000 per claim. MCPS' premium payments to the fund are an actuarially determined

reflection of the covered risks. MCPS purchases commercial insurance for claims in excess of coverage by the self-insurance program and for other risks not covered by the program. Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The active employees' health benefits plan is financed through an internal service fund, the Employee Benefit Plan Trust Fund. The postemployment health benefits plan is financed through a fiduciary fund, the OPEB Plan Trust. The funds provide plan coverage for active and retired employees under contracts with several insurance companies and health maintenance organizations (HMO's). MCPS funds participate in the plans by making payments to the trust funds in amounts sufficient to cover normal plan costs, which are comprised of premiums paid to insured plans, and actuarial estimates of amounts needed to pay prior- and current-year claims and to establish a reserve for incurred but not reported claims (IBNR). An additional payment is made to the OPEB Plan Trust to cover amortization of the actuarial accrued liability (see note 12). Claims payable of \$18,380,085 and \$7,424,499 reported in the Internal Service Fund and the Fiduciary Funds, respectively at June 30, 2010, are based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in claims payable for fiscal years 2009 and 2010 are reflected below.

| | _ | Beginning Payable | - | Incurred Claims (Including IBNR) | Claim Payments | | Ending Payable |
|-----------------------|----|----------------------|----|---|-----------------------|----|-------------------|
| 2009 | | | | | | | |
| Internal Service Fund | \$ | 16,438,489 | \$ | 177,183,658 | \$ (175,120,657) | \$ | 18,501,490 |
| Fiduciary Funds | | 6,852,279 | | 55,521,164 | (56,387,276) | _ | 5,986,167 |
| Total | \$ | 23,290,768 | \$ | 232,704,822 | \$ (231,507,933) | \$ | 24,487,657 |
| 2010 | | | | | | | |
| Internal Service Fund | \$ | 18,501,490 | \$ | 188,920,070 | \$ (189,041,475) | \$ | 18,380,085 |
| Fiduciary Funds | | 5,986,167 | | 62,465,725 | (61,027,393) | | 7,424,499 |
| Total | \$ | 24,487,657 | \$ | 251,385,795 | \$ (250,068,868) | \$ | 25,804,584 |

11. Defined Benefit Pension Plans

Substantially all of MCPS' employees working at least 4 hours a day in an approved job classification are covered under one of three mandatory defined benefit retirement plans. Two of these are cost-sharing multi-employer type plans administered by the Maryland State Retirement System (MSRS); and one is a single-employer plan, the MCPS Employees' Retirement and Pension System, administered by MCPS.

State Plans

Plan Description. Eligible MCPS professional and administrative employees participate in one of two state plans, the Maryland State Teachers' Retirement System or the Maryland State Teachers' Pension System, the costs of which are borne by the state. Effective January 1, 1980, new MCPS teacher and administrative personnel became members of the Maryland State Teachers' Pension System. Members in the existing Maryland State Teachers' Retirement System had the option to transfer from the old to the new plan. Benefits at retirement are based upon years of service and the average earned compensation of an eligible employee during any three consecutive years that provide the highest average earned compensation. Benefits vest after five years of creditable service.

The financial statements of the Maryland State Teachers' Retirement System and the Maryland State Teachers' Pension System are included in the comprehensive annual financial report of the Maryland State Retirement System. A copy of that report may be obtained by writing to The Maryland State Retirement System, 120 East Baltimore Street, Baltimore, Maryland 21202.

Funding Policy. Covered employees are, by statute, required to contribute 5 to 7 percent to the retirement system, and 5 percent to the pension system. MCPS is not required to contribute. The employer's share of contributions to these two plans for MCPS employees, which amounted to \$149,981,157, \$124,897,387 and \$115,507,019 in 2010, 2009 and 2008, respectively, is the legal responsibility of the state. MCPS has recognized in the governmental fund statements revenue and expenditures in the amount equal to the state's contribution payment.

MCPS Plan

Plan Description. The MCPS Employees' Retirement and Pension System is funded and administered as a single plan with two separate benefit structures, the retirement system and the pension system. Retirement system benefits cover employees hired prior to January 1, 1980. The retirement system provides retirement benefits, as well as death and disability benefits, to employees who are not members of the Maryland State Teachers' Retirement System and supplements the state benefits to members of the Maryland State Teachers' Retirement System. Benefits at retirement are based on years of service and the average earned compensation of an eligible employee during any three years that provide the highest average earned compensation, and are adjusted for changes in the consumer price index after retirement. Benefits at early retirement are reduced by an early retirement factor. Benefits vest after five years of creditable service.

Pension system benefits cover employees hired after January 1, 1980. Members in the retirement system may elect to participate in the pension system, in which case their excess contributions are refunded. The pension system provides retirement benefits, as well as death and disability benefits, to employees who are not members of the Maryland State Teachers' Pension System and supplements the state benefits to members of the Maryland State Teachers' Pension System. Benefits are based on years of service and a percentage of the average earned compensation of an eligible employee during any three consecutive years that provide the highest average earned compensation and are adjusted for changes in the consumer price index after retirement of not more than 3 percent per year. Benefits at early retirement are reduced by an early retirement factor. Benefits vest only after five years of creditable service.

At July 1, 2009, the date of the latest actuarial report, MCPS' plan membership consisted of:

| Retirees and beneficiaries currently receiving benefits | 10,720 |
|---|---------------|
| Terminated plan members entitled to benefits but not yet receiving them | 3,976 |
| Active plan members | <u>21,979</u> |
| Total | <u>36,675</u> |

Separate financial statements for the MCPS Employees' Retirement and Pension System are not available.

Funding Policy: Plan members are required by resolution to contribute to the plan. Plan members contribute for the supplemental benefit, and the combined core and supplemental benefit .5 percent and 5.5 percent, respectively, of their salary to the plan. MCPS is required by resolution to contribute the remaining actuarially determined amounts necessary to finance the combined coverage of plan members. Benefits and contribution provisions are established and may be amended only by the Board of Education. Administrative costs are financed through investment earnings.

Annual Pension Cost and Net Pension Obligation: Components of the annual pension cost and the change in net pension obligation are as follows:

| Annual required contribution (ARC) | \$ 60,024,115 |
|--|------------------|
| Interest on net pension obligation | 232,372 |
| ARC adjustment | (273,932) |
| Annual pension cost | 59,982,555 |
| Contributions made | 63,080,846 |
| Decrease in net pension obligation | (3,098,291) |
| Net pension obligation-beginning of year | 3,098,291 |
| Net pension obligation-end of year | \$ - |

MCPS' annual pension cost and net pension obligation to the plan for the current year and the prior two years were as follows:

| Year Ended June 30 | Annual Pension Cost (APC) | Percentage of APC Contributed | | Net Pension Obligation |
|-----------------------|---------------------------------|-------------------------------------|---|---------------------------|
| 2008 | \$ 58,447,592 | 101 % | - | 3,722,929 |
| 2009 | 60,780,525 | 101 | | 3,098,291 |
| 2010 | 59,982,555 | 105 | | · · |

The annual required contribution for the current year was determined as part of the July 1, 2008 actuarial valuation, using the projected unit credit cost method and the same actuarial assumptions used in the latest actuarial valuation, as follows:

| Valuation date | July 1, 2009 |
|-------------------------------|---|
| Actuarial cost method | Projected unit credit |
| Amortization method | July 1, 2006 Plan Amendments: |
| | Amortized over 30 years |
| | All other: |
| | Level percentage of projected payroll. Increasing |
| | 3% per year. Open for gains/losses. Closed for |
| | other changes. |
| Remaining amortization period | July 1, 2006 plan amendments: |
| | 27 years |
| | All other: |
| | 15 years |
| Asset valuation method | 5-year, smoothed market |
| Actuarial Assumptions: | |
| Investment rate of return | 7.5% |
| Inflation rate | 3.0% |
| Projected salary increases | 4.0 –6.5% |
| Cost of living adjustments | 3.0% |

Funded Status and Funding Progress. The funded status of the plan as of July 1, 2009, was as follows (dollar amounts in thousands):

| Actuarial accrued liability (AAL) | \$ | 1,344,071 |
|---|------|-----------|
| Actuarial value of plan assets | | 966,296 |
| Unfunded actuarial accrued liability (UAAL) | \$ _ | 377,775 |
| Funded ratio (actuarial value of plan assets/AAL) | _ | 71.9% |
| Covered payroll (active plan members) | \$ | 1,352,101 |
| UAAL as a percentage of covered payroll | | 27.9% |

Actuarial values of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and mortality. Amounts determined regarding the funded status of the plan and annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

12. Postemployment Healthcare Benefits

Plan Description. OPEB Plan Trust is a single-employer defined benefit healthcare plan funded and administered by MCPS. Employees receiving a Board of Education approved retirement are eligible, in accordance with bargaining agreements between the Board of Education and

employee associations, for continued healthcare coverage if they have been covered under the MCPS Employee Benefit Plan for at least five years. Terminated employees are not eligible to participate in the plan. The OPEB Plan provides medical, dental, vision, prescription drug and life insurance benefits for retirees and their dependents. Authority to establish and amend benefit provisions resides with the Board of Education.

Plan membership consisted of the following at July 1, 2008, the date of the latest actuarial valuation:

| Retirees and beneficiaries receiving benefits | 11,921 |
|---|--------|
| Active plan members | 21,916 |
| Total | 33,837 |

Separate financial statements for the OPEB Plan Trust are not available.

Funding Policy: The Board of Education has the authority to establish and amend contribution requirements of the plan members and MCPS. Retired plan members and beneficiaries currently receiving benefits are required to contribute 36 percent and MCPS contributes 64 percent toward the current cost of healthcare benefits. During fiscal year 2010, plan members and beneficiaries receiving benefits contributed \$24,397,574 (approximately 35.1 percent of current contributions). MCPS and other contributing entities' contributed \$45,140,315 (approximately 64.9 percent of current contributions) for current premiums, claims and administrative expenses. Administrative costs are financed through investment earnings.

Funded Status and Funding Progress. As of July 1, 2008, the most recent actuarial valuation date, the actuarial accrued liability (AAL) was \$1,361.0 million and the unfunded AAL (UAAL) was \$1,326.4 million. Actuarial plan assets were \$34.6 million. The annual covered payroll of active employees covered by the plan was \$1,352.1 million, and the ratio of the UAAL to covered payroll was 98.1 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of MCPS are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as supplementary information following the notes to the financial statements, present multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing overtime relative to the actuarial accrued liabilities for benefits.

Annual OPEB Cost and Net OPEB Obligation. MCPS' annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize the unfunded actuarial liability over a period not to exceed thirty years. MCPS has agreed with the Montgomery County Council that MCPS would transition to full funding of the ARC over a period of eight years. Due to county economic pressures, the Montgomery County Council directed MCPS to not fund the FY 2010 amortization, as appropriated. The following table shows the components of MCPS' annual OPEB cost and changes in the net OPEB obligation.

| Annual required contribution | \$ 131,690,000 |
|--|---|
| Interest on net OPEB obligation | 9,644,926 |
| Adjustment to annual required Contribution | (7,043,048) |
| Annual OPEB cost | 134,291,878 |
| Contributions made | 45,140,315 |
| Increase in net OPEB obligation | 89,151,563 |
| Net OPEB obligation – beginning of year | 128,599,016 |
| Net OPEB obligation – end of year | \$ 217,750,579 |
| Contributions made Increase in net OPEB obligation Net OPEB obligation – beginning of year | \$ 45,140,315 89,151,563 128,599,016 |

MCPS' annual OPEB cost and net OPEB obligation to the plan for the current and the prior year were as follows:

| | Annual | Percentage of | | | |
|------------|-------------------|---------------|------|-------------|--|
| Year ended | OPEB | APC | | Net OPEB | |
| June 30 | Cost (APC) | Contributed | | Obligation | |
| 2009 | \$ 124,021,673 | 49.7 % | \$ _ | 128,599,016 | |
| 2010 | 134,291,878 | 33.9 | | 217,750,579 | |

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by MCPS and plan members) and include the types of benefits provided at the time of each valuation and the historic pattern of sharing of benefit costs between MCPS and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Actuarial assumptions used in the latest actuarial valuation were:

| Valuation date | July 1, 2008 |
|-------------------------------|---|
| Actuarial cost method | Projected unit credit |
| Investment return | 7.5% |
| Health care cost trend rates | (initial, ultimate) |
| Medical pre-65 | 8.5%, 5.0% |
| Medical post-65 | 7.0%, 5.0% |
| Prescription drugs | 10.0%, 5.5% |
| Dental | 6.5%, 4.5% |
| Vision | Flat 3.5% |
| Amortization method | Level percentage of projected payroll, Open basis |
| Remaining amortization period | 29 years |

13. Trust Plans Condensed Financial Statements

Condensed financial statements for the Retirement and Pension System and the OPEB Plan Trust are as follows:

CONDENSED STATEMENT OF FIDUCIARY NET ASSETS

| | Retirement and Pension System | OPEB Plan Trust | Total |

14. Contingencies

Litigation. MCPS, in the normal course of its operations, is subject to lawsuits and claims. While the outcome of these matters is uncertain, MCPS believes that any losses not otherwise covered by insurance, which may ultimately be incurred as a result of lawsuits and claims, will not have a material adverse effect on MCPS' financial condition. Additionally, it is the opinion of counsel that under current law, MCPS would have governmental immunity in non-contractual matters for any individual judgments in excess of \$100,000, except for civil rights cases.

Supported Projects. Certain programs, referred to as supported projects, serving specific needs and purposes of the school system and the welfare of the students, are funded by special federal and state grants and are included in the General Fund and the Enterprise Funds. Grant activities are subject to audit by the granting agencies.

In the opinion of management, the ultimate resolution of any of these matters will not be material to the basic financial statements of MCPS.

FIDUCIARY FUNDS

June 30, 2010

Pension and Other Employee Benefits Trust Funds:

Retirement and Pension System – Accounts for the activities of the Retirement and Pension System, which accumulates resources for pension benefit payments to qualified MCPS employees.

OPEB Plan Trust – Accounts for activities that accumulate resources for postemployment healthcare benefits for qualified MCPS retirees.

Agency Funds – Accounts for assets held by elementary and secondary schools for student groups. Agency funds are custodial in nature (i.e., assets equal liabilities) and do not involve measurement of results of operations.

STATISTICAL SECTION

STATISTICAL SECTION

This section of MCPS' Comprehensive Annual Financial Report presents detailed information for understanding what the information in the financial statements, note disclosures, and required supplementary information says about MCPS' overall financial health.

| Contents | Page |
|--|---------|
| Financial Trends These schedules provide trend information to help the reader understand how MCPS' financial performance and well-being have changed over time. | 77-84 |
| Revenue Capacity Since MCPS revenues are primarily provided by Montgomery County, these schedules on the county's revenue sources are relevant to an understanding of Montgomery County's most significant local revenue source, the property tax. | 85-91 |
| Debt Capacity Since MCPS construction funding is primarily provided by Montgomery County, these schedules of the county's debt capacity assist the reader in assessing the affordability of Montgomery County's current levels of outstanding debt and Montgomery County's ability to issue additional debt in the future. | 93-97 |
| Demographic and Economic Information Details found in these schedules offer demographic and economic indicators to aid the reader in understanding the environment within which MCPS' financial activities take place. | 98-99 |
| Operating Information These schedules contain select operating indicators to help the reader understand how the information in MCPS' financial report relates to the services MCPS provides and the activities it performs. | 101-104 |

NOTES:

- * Exempt and nontaxable property are not included in this table.
- * The following classes of property are not taxed: 1) personal property not used in a trade, business, or profession, and 2) business inventories.
- * Intangible personal property is exempt from taxation except in two instances: shares of stock in certain domestic utilities and oil pipeline corporations (shown above) and intangible personal
- property of corporations under a contract with the State, granted charter exemptions from property taxation.

 * Property owned by the Federal government, the State, or a subdivision or agency of either, is exempt. Also exempt are real and personal property used for religious, educational, or charitable purposes. Specific exemptions involve historical property, societies and museums, conservation property, cemeteries, certain fraternal and service organizations, continuing care facilities for the aged, nonprofit housing property, and dwelling houses of disabled veterans and blind persons.
- (1) Fiscal year 2002 was the first year that all real property in the State of Maryland was assessed at 100 percent of full assessed value; prior to 2002, real property was assessed at 40 percent of full assessed value. Real property tax rates were changed in fiscal year 2002 to reflect this change in methodology.
- (2) Residential real property includes single-family homes, townhouses, and condominiums but excludes apartment dwellings which are included under the Commercial/Other category.
- (3) For personal property, the assessed value and estimated actual value are the same.

- * The Tax rates are per \$100 of assessed value.
- * The charter requires that revenues from real property taxes cannot exceed last year's revenues adjusted by the rate of inflation excluding revenues from new construction. The Council can adopt tax rates that exceed this limit by a supermajority of seven out of nine councilmembers.
- * No discounts are allowed.
- * Taxes are levied as of July 1, are due by September 30, and become delinquent the following October 1 for non-owner occupied property.
- * Unless homeowners elect to pay their real property taxes annually, taxes are paid on a semi-annual basis with payment due by September 30 and December 31 for owner occupied property.
- * Interest and penalty at 20 percent are assessed on delinquent tax bills.
- * Revised tax bills based upon certifications from the State received after September 1 may be paid within thirty days without interest.
- * Delinquent taxes on real property are collected by sale. Taxes on personal property are enforced by legal action. Corporations may lose charter for failure to pay taxes.
- * Costs of tax sale, which vary, are added to tax bills. The last sale cost \$50 per parcel.
- * Tax sale date: second Monday in June.
- * Personal property tax rates are applied to 100 percent of the property assessment.
- (1) Rates classified as substantially county-wide represent those tax rates that are levied against all of the County's assessable base, except those incorporated cities and municipalities that provide their own such service.
- (2) M-NCPPC County property tax rates are included in the County's direct rate since the County Council has the power to set, modify, or approve these tax rates for this joint venture organization.
- (3) Fiscal year 2002 was the first year that all real property in the State of Maryland was assessed at 100 percent of full assessed value; prior to 2002, real property was assessed at 40 percent of full assessed value. Real property tax rates were changed in fiscal year 2002 and subsequent years to reflect this change in methodology.
- (4) County direct rate includes: County tax rates that are levied County-wide, and County tax rates levied by M-NCPPC. For County special taxing district tax rates that are levied substantially County-wide, the direct rate includes a prorata portion of the tax rate that corresponds to the portion of the County's assessable base against which the rate is levied. Therefore, the total County direct rate presented above is not a mathematical sum of all the individual rates presented.

^{*} Tax rates are per \$100 of assessed value.

^{*} Personal property tax rates are applied to 100 percent of the property assessment.

^{*} The County special taxing district rates above represent taxes that are levied against mutually exclusive specific geographic portions of the County's assessable base. Such rates are not included in the County direct rate as they are not reflective of what all County taxpayers would pay.

⁽¹⁾ Parking Lot Districts also carry a tax rate of one-half the amount shown which applies to property zoned commercial but not used as such.

- (1) General Bonded Debt includes all general obligation debt, variable rate demand obligation, regardless of purpose or repayment source, and other bonded debt financed with general government resources. Governmental lease revenue bonds and business-type revenue bonds are excluded because they are repayable from specific resources other than general governmental resources. Other debt is excluded because it is not in the form of bonds.
- (2) General obligation bonds, variable rate demand obligations and build america bonds are comprised of both governmental and business-type activities.

NOTES:

As a Charter County, the legal debt limit is provided by Article 25A, Section 5(P(i)), of the Annotated Code of Maryland. Prior to June 1, 2001, the legal debt limit was 15 percent of the assessable base (real and personal property) of the County. During that time, the assessable base for real property was 40 percent of the full assessed value. Effective June 1, 2001, real property in the State of Maryland began being assessed at 100 percent of full assessed value instead of the previous 40 percent assessment method. Also effective June 1, 2001, the section of the Code referred to above was amended in conjunction with the real property assessment change. Under the amendment, the legal debt margin is a total of 6 percent of the assessable base (presented at 100 percent) of real property of the County and 15 percent of the County's assessable base of personal property and operating real property.

- (1) Direct debt relating to the governmental activities of the County includes general obligation bonds, variable rate demand obligations, bond anticipation notes, notes payable, lease revenue bonds, and capital leases. Overlapping debt is the debt of other governmental entities in the County that is payable in whole or in part by taxpayers of the County. It includes general obligation bonds, revenue bonds, mortgages payable, notes payable, commercial paper, bond anticipation notes, certificates of participation, capital leases, and bank loans.
- (2) Entities are wholly within Montgomery County.
- (3) Unaudited information provided by entities.
- (4) Overlapping debt percentage is based on the debt relating to the County.

- (1) Sources: Data for 2001-2008 from the Bureau of Economic Analysis (BEA), U.S. Department of Commerce. Data for 2009 and 2010 are estimated by the Montgomery County Department of Finance from Round 7.2A Cooperative Estimates and pertain to population in households. Estimates for 2001-2008 revised by BEA in April 2010.
- (2) Source: Bureau of Economic Analysis (BEA), U.S. Department of Commerce. Personal income includes money income from wages and salaries; transfer payments such as social security and public assistance; income from rent, interest and dividends. Data for 2001-2007 were revised by BEA and data for 2008 are a preliminary estimate from BEA. Data for 2009 and 2010 are estimates derived by the Montgomery County Department of Finance.
- (3) Per capita income is derived by dividing personal income by population.
- (4) Source: Bureau of Labor Statistics (BLS), U.S. Department of Labor. Civilian labor force data include all persons in the civilian noninstitutional population classified as either employed or unemployed and counted by place of residence and are revised by BLS for 2005 2009. Data for 2010 estimated by Montgomery County Department of Finance based on the percent change from first half of CY2009 to the first half of CY2010.
- (5) Source: Bureau of Labor Statistics (BLS), U.S. Department of Labor. Resident employment includes all persons who during the survey week (a) did any work as paid employees, worked in their own business or profession or on their own farm, or worked 15 hours or more as unpaid workers in an enterprise operated by a member of their family, or (b) were not working but who had jobs from which they were temporarily absent because of vacation, illness, bad weather etc. Each employed person is counted only once, even if he or she holds more than one job and is counted by place of residence and not by place of employment. Data for 2005-2009 revised by BLS. Data for 2010 estimated by Montgomery County Department of Finance based on the percent change from first half of CY2009 to the first half of CY2010.
- (6) The unemployment rates for 2005 and 2009 were revised by the Bureau of Labor Statistics, U.S. Department of Labor. Unemployment rate for 2010 estimated by Montgomery County Department of Finance based on the average of the monthly unemployment rates for the first half of 2010.
