

Session 8 LEARN: Time - The Big Barrier

Learn: Lack of time is the reason that most things don't get done in schools. But even if we could add more hours to the day, it is often more beneficial to think of ways to save time, or stop wasting it.

In this session, you'll explore some ways that time can be better spent in planning and during instruction.

Read three short articles on saving time.

Session 8 Discuss: Time - The Big Barrier

How does UDL Save Time?

Reflection and Discussion:

In what ways can adopting UDL in your classroom save you time?

Responses to Colleagues

In at least two replies, remember to deepen the discussion. Do not simply agree or state that this is an idea that you want to try. Instead, try to

- *Comment on what you think will work, and what you think will be a challenge.*
- *Further discuss the implications for UDL.*
- *Challenge an opinion (respectfully).*
