Expanding Opportunity and Unleashing Potential

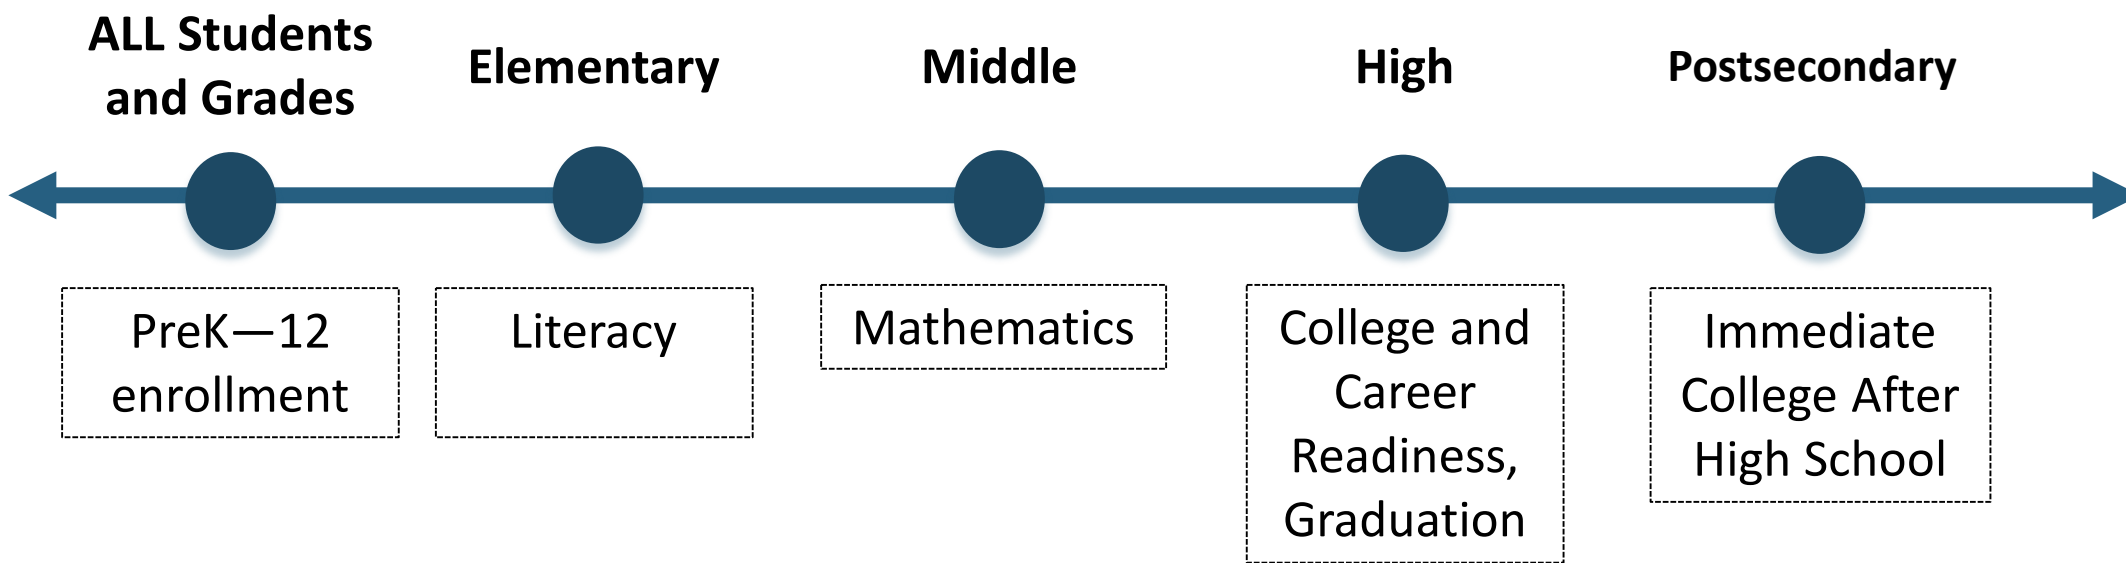

Press Briefing

Student Performance Data

January 23, 2023

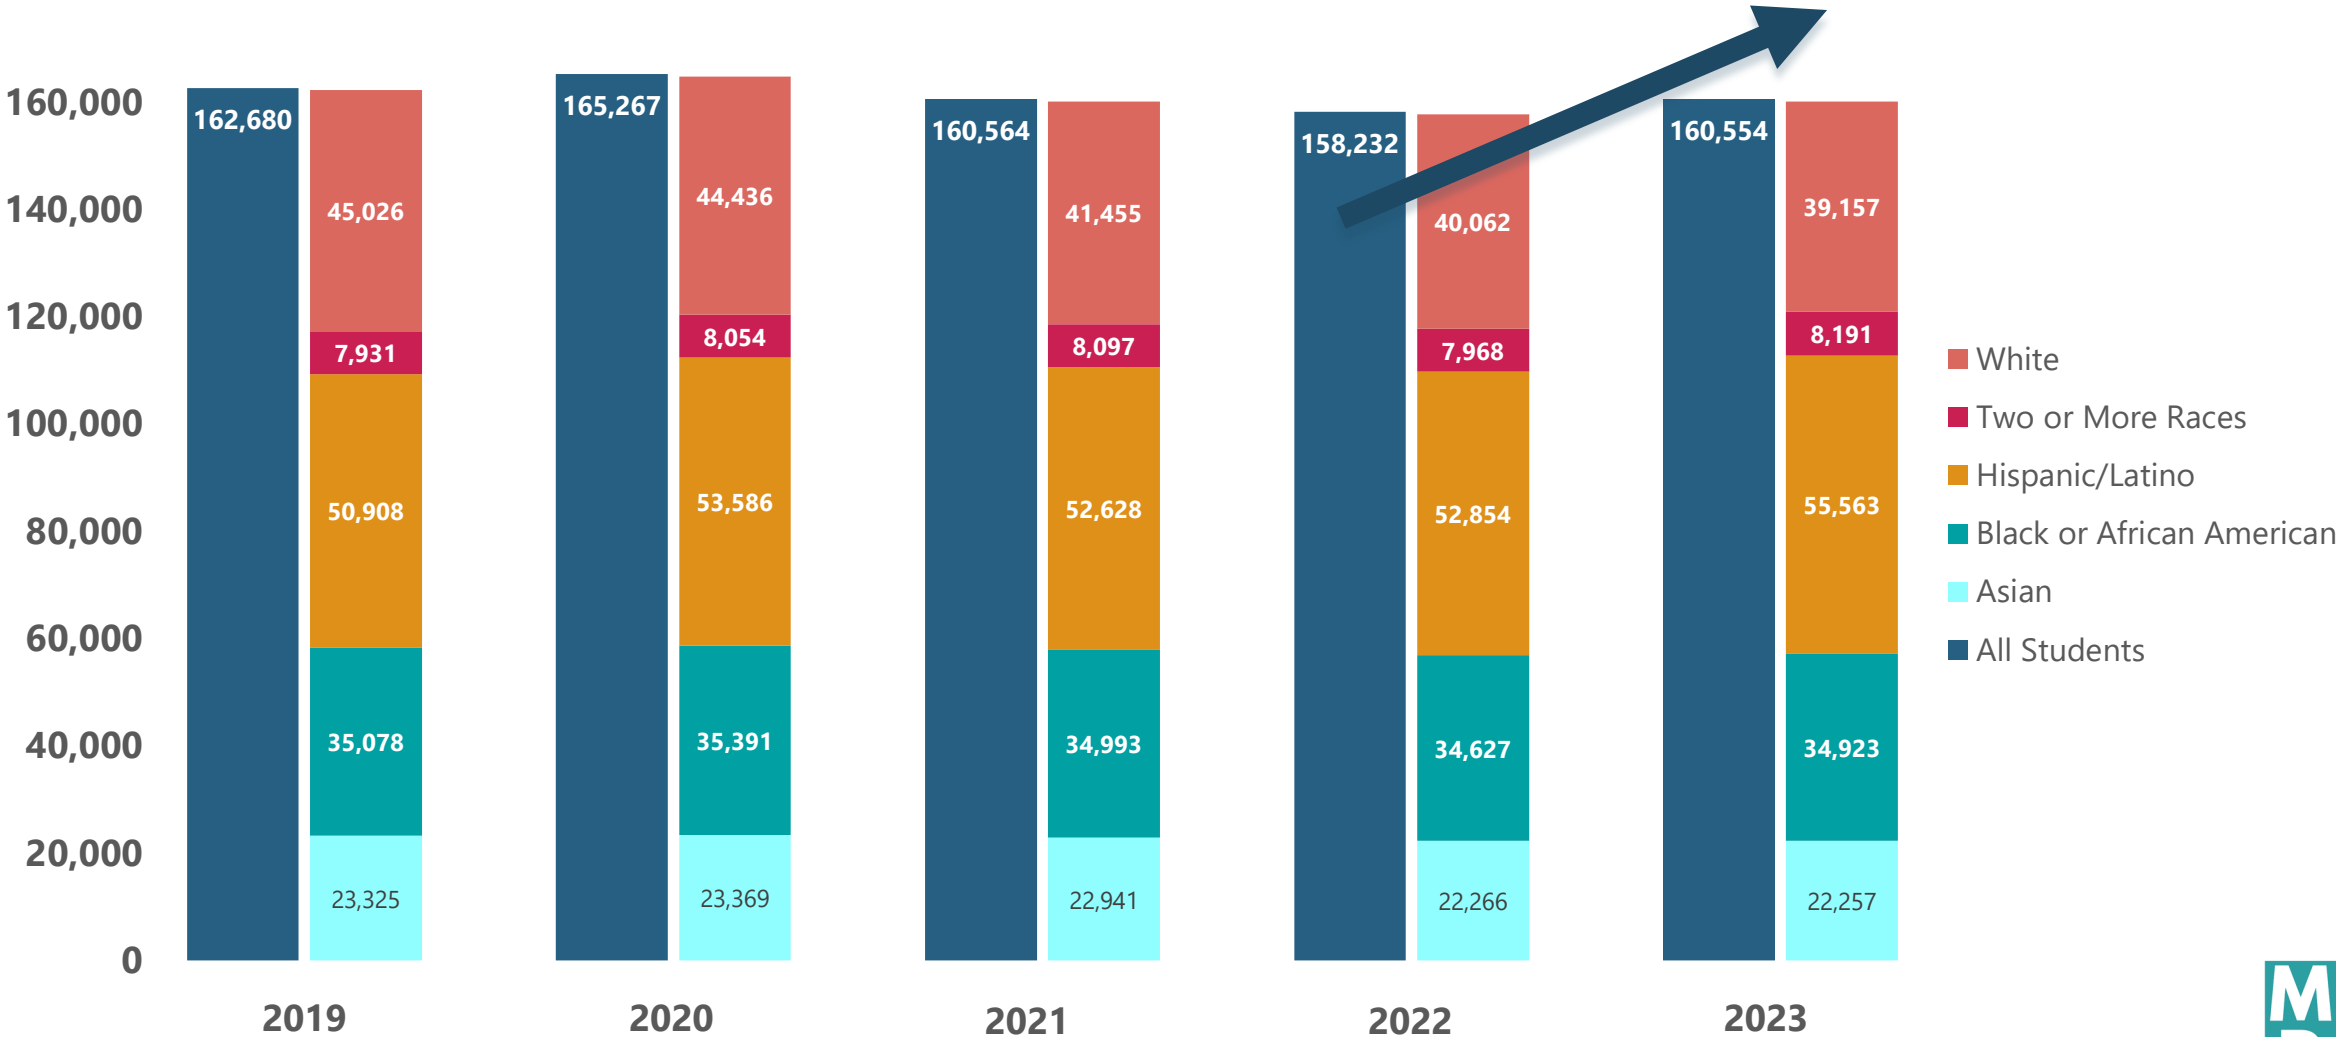

Why We're Here

- Are our students learning?
- Are they learning enough?
- How do we know?
- If not, why not?
- What are we going to do about it?

More MCPS students are accessing college coursework during high school.

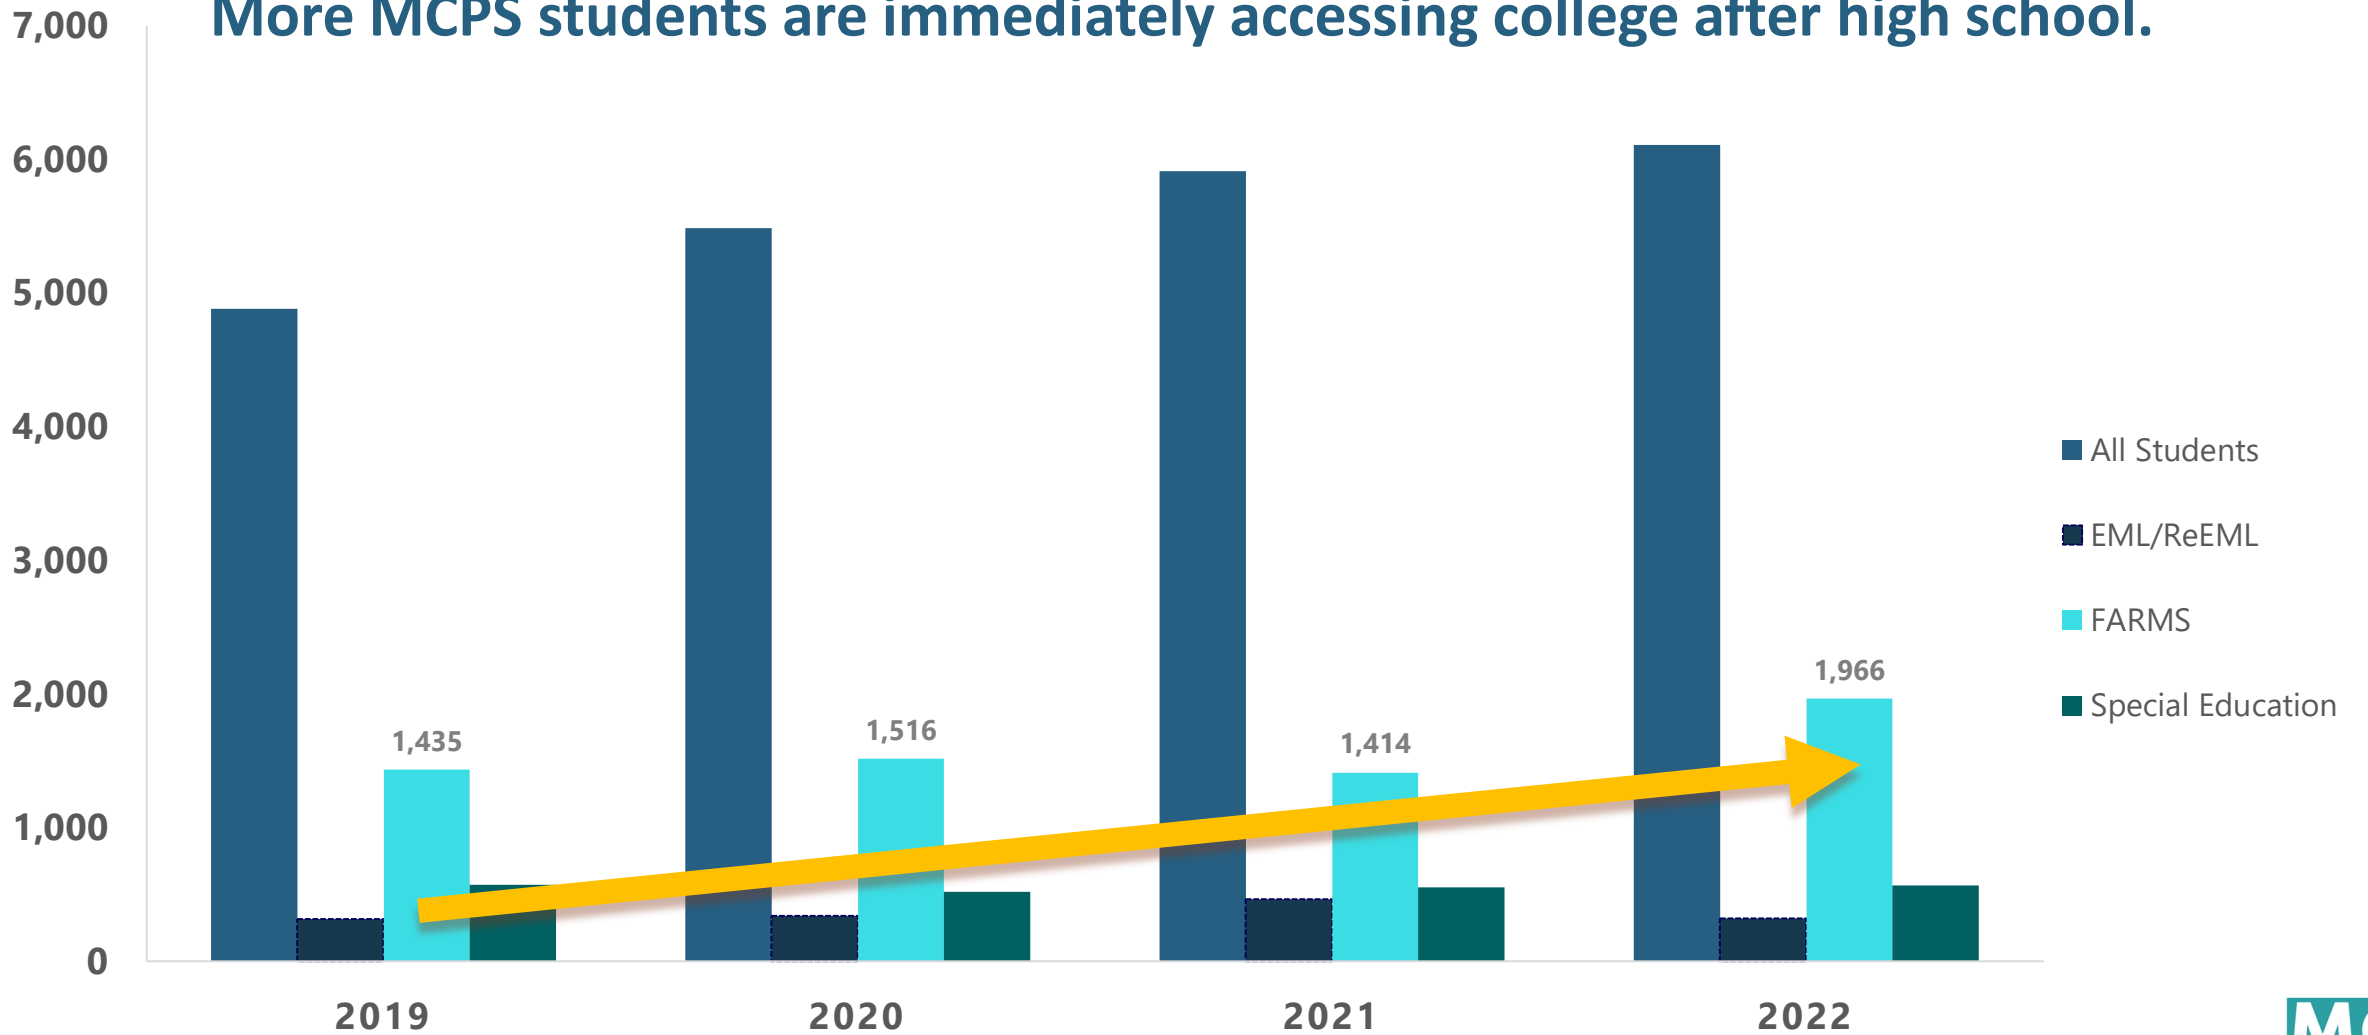

Immediate College Enrollment After High School by Race/Ethnicity

7,000 **More MCPS students are immediately accessing college after high school.**

Immediate College Enrollment After High School (by Services Received)

More MCPS students are immediately accessing college after high school.

FY 2024 Accelerator Highlights

Innovation / Acceleration / Support

Proposed FY 2024 Budget includes \$47M in accelerators to support the diverse and growing needs of our students, while rebounding from the effects of the pandemic.

Early Childhood Education, \$2.1M

Expand Pre-K and provide additional inclusive classrooms for children with disabilities. Early childhood education programs are foundational for Kindergarten-readiness.

Innovative Calendar Schools, \$2.5M

Establish 2 additional year-round schools for increased instructional time and engagement in at-risk communities. System is seeing consistent gains in math performance among Hispanic students in our year-round programs.

College & Career Readiness, \$5.2M

\$3.4M to remove all costs for AP and IB exams so this expense is not a barrier. **\$1.8M** to expand CollegeTracks to 5 more high schools, to provide help to students navigating the college application process.

Dual Language Schools, \$591K

Bring dual language programs to 3 additional schools, 2 in Spanish and 1 in Chinese. Learning in dual languages is a proven approach to get all students on grade level and close disparities in learning.

Expanding IB Programs, \$317K

Bring International Baccalaureate Program across all levels, including Middle Years Programme, to more schools. Allows students to engage in critical thinking and learn a second language.

Support Resources, \$24.8M

\$5M for tutoring services. **\$1.5M** for bus tracking app. **\$14M** for technology support. **\$1.1M** for resource support for children with disabilities. **\$3.2M** for transportation and facilities management.
