EMPLOYEE AND STUDENT SURVEY RESULTS

PURPOSE AND SURVEY METHODOLOGY

The mission of MCPS is to provide a high quality, world-class education that ensures success for every student through excellence in teaching and learning. Achieving this mission requires that MCPS is aware of the perceptions of employees and students, and that each employee and student see MCPS as a great place to work and learn. MCPS launched a partnership with Gallup in 2012 to measure employee and student perceptions and uses this information to make further progress toward achieving the MCPS mission.

Based on more than four decades of research, Gallup has identified definitive employee attitudes that correspond with the most successful workplaces. Employee engagement — involvement with and enthusiasm for work — is measured by Gallup in a 12-question employee survey. An employee's level of engagement links to various school outcomes, including employee retention, parent engagement, student retention, and student achievement. The employee engagement survey was conducted online from Oct. 14 through Oct. 28, 2013, with 18,292 MCPS employees registering their opinions (80% response rate).

The Gallup Student Poll is a 20-question survey that measures the hope, engagement, and well-being of students in grades 5-12. Research supports the idea that hope (ideas and energy for the future), engagement (involvement with and enthusiasm for school), and well-being (how we think about and experience our lives) are actionable targets linked to student achievement, retention, and future employment. The Gallup Student Poll was conducted online during the school day from Oct. 1 through Nov. 1, 2013, with 75,885 MCPS students completing the survey.

Both of these surveys have yielded a wealth of data designed to inform MCPS improvement efforts. Gallup has provided training presentations for MCPS executive staff, principals, and central office managers, and consultation on the analysis of student performance outcomes as they relate to employee engagement. Members of the Gallup team also have made individual follow-up calls to each school's triad (principal, elected facility representative, and elected support representative) to help plan how to use the data to improve student success.

The results provide a comprehensive view of school-level data collected from the employee and student surveys. Please note the following:

- The employee survey results are reported at the school level, and also include the MCPS districtwide results.
- The student survey results are shown at the school level, and also include MCPS level-alike reports (e.g., all MCPS high schools). The Gallup 2013 database results (a convenience sample of over 610,000 students from around the nation) are also presented.
- The student survey was only conducted with students in grades 5-12, so most elementary school reports only represent the results of the 5th grade students. Some special schools did not have enough participating students to generate a report.

These data are at the foundation of many important discussions and actions being taken throughout MCPS. We look forward to leveraging insights from these results as we work to achieve our important mission.

EMPLOYEE ENGAGEMENT

Overall Engagement is measured by the GrandMean, which is an average of the 12 Engagement items. The higher your score (with a maximum possible score of 5), the more engaged your fellow employees are.

STUDENT WELL-BEING

How we think about and experience our lives, tells us how students are doing today and predicts their success in the future.

Please imagine a ladder with steps numbered from zero at the bottom to ten at the top. The top of the ladder represents the best possible life for you and the bottom of the ladder represents the worst possible life for you.
