Dear Parents and Guardians:

Each year, the Division of Transportation Services reviews school bus routes across the county for safety and compliance with Montgomery County Schools policies and regulations to ensure the most efficient use of resources possible. Every effort is made to strike a balance between convenient school bus stops for students, efficient routes, and consistent service levels while keeping safety the top priority.

Adjustments are made to school bus routes as roadways and neighborhoods change and develop, which often provide added pedestrian accessibility. It is extremely important that every measure be taken to appropriately implement changes that create equitable delivery of service to all students and schools.

The changes noted below impact Burtonsville Elementary School for the **2026-2027** school year:
