Math Focus

We have started Module 3. Module 3 builds directly on students' work with multiplication and division in Module 1. Module 3 extends the study of factors from 2, 3, 4, 5, and 10 to include all units from 0 to 10, as well as multiples of 10 within 100.

See below for parent tip sheets.

Reading and Writing Focus

In unit 4, students will learn about Roman geography and history, government, major leaders, and monumental battles. They will also study the rise and decline of the Roman Empire. Students will be introduced to a writing portfolio, which they will reference as they collaborate, share ideas, and give feedback on their writing. They will also focus on writing an opinion piece that will be completed through a multi-day performance task.

Science and Social Studies Focus

Students will be doing both social studies and science in December. In social studies, students will use literacy and thinking skills to explore what it means to live and be involved in a democracy. In science, students will learn about how weather and climate affect our choices.
