Reminders

- ❑ Parent-teacher conferences are on Nov 20th or Nov 21st. Please use the [link provided](#) or contact your child's teacher to sign up for a date and time.
- ❑ Arrival is from 8:40-9:00am. If your child is arriving after the 9:00am bell, they are late. PLEASE help your child start the day ON TIME.
- ❑ As weather gets colder, please make sure your student's clothing is labeled with their name.
- ❑ If your student is celebrating a birthday, items should be store bought and no candy, including goodie bags.
- ❑ Please practice tying shoes at home as that is not something taught in school.

Learning Focus

Math: We will be starting a new module in math! Module 2 is our introduction to shapes! We will learn about 2D (flat shapes) and 3D (solid shapes), as well as, positional words. This module is 12 days. We will then move into Module 3. In this module students will learn about length, weight and volume! You can look for your student to show knowledge of comparing things that are longer/shorter, heavy/light, and more/less.

Learning Focus Continued

Language Arts: Students are now in Unit 2! Our essential question we will be discussing is “How are characters different?” In this unit, your child will explore how characters differ in various ways, from the way they look to the way they act. Your child will also discover how characters in realistic fiction differ from one another just as people in real life are not all the same. Your child will think about how he is alike and different from the characters he/she reads about. The selections include a variety of genres, including animal fantasy, fables, poems, and realistic fiction. Look on Benchmark by using Clever to see the books to do the optional At Home Learning calendar!

Health & Social Studies: We will focus on Health at the end of marking period 1 and the first week of marking period 2. Students will learn about medicine safety, as well as, mental and emotional health.

In Social Studies, we will be learning about the topic of geography. We will learn about the importance of maps and globes. We will learn how to identify and describe various landforms, such as hills, mountains, plains and bodies of water, such as streams, lakes and oceans.
