Reminders

- ☐ Please send in extra clothes in a ziploc bag **labeled** with your child's name on it
- ☐ Send in small blanket for rest time
- ☐ Send a reusable water bottle

Eureka Math

Matching: Have your child help to match and sort different objects in your house. For example, have them match socks, shoes, or utensils for meals. Ask sure child, "How do they match?"

Encourage them to use words like "They match because they are both socks and red." OR "They match because they are both socks but they are different colors (Not exactly the same)."

Numbers to 3: Touch and count three objects together. Then ask your child, "How many?" Touching one object at a time, they count to find the total and match the count to a numeral.

Learning Focus Continued

Language Arts: Our Theme this month is **All About Me!** We will be reading books that help students answer the question, "How do we use our body parts to learn and move?" We will discuss how we can use body parts to express our feelings, and how we use our body parts together with our senses to learn about the world around us.

Students will also work on identifying the parts of a book: front cover/back cover, top, bottom, and Title.
