

HI! I'M TRISTAN THE TRICERATOPS

- Cut me out and include me on all your summer escapades.
- Take me along on a neighborhood stroll, summer vacations, and wherever your story takes you.
- Don't forget to tag #MCPLreads on social media when sharing your summer adventures!

GET TO KNOW ME!

- Triceratops means “three-horned face” in Greek.
- I lived during the late Cretaceous period—almost 68 to 66 million years ago!
- I am an herbivore, which means I eat plants.
- When I'm fully grown, I'll be about 30 feet long, 9 feet tall, and weigh 12,000 pounds. That's bigger than most trucks!
