

# Solver's Problems

*Developing Skills and Confidence Through  
Engineering Challenges*

**Winter STEM Program 2025**

## Builder's Club: Design and Discover

**TIME: Wednesdays** (1/15 - 3/5 - 8 sessions) 3:30 PM - 4:30 PM

**LOCATION:** Stonegate Elementary (in-person)

**GRADES:** 2nd - 5th grade

**COST:** \$225.00

**Is your child fascinated by how things move?**

They'll thrive in Builder's Club: Design and Discover! This hands-on program lets students explore the physics of motion through fun projects like designing cars and planes.

They'll experiment with aerodynamics, friction, and engineering principles while building, testing, and refining their creations. Along the way, they'll boost problem-solving, creativity, and teamwork skills—all while sparking a passion for STEM. A great way for kids to see how design impacts performance and learn valuable skills for the future!

**STEM**  
SCIENCE • TECHNOLOGY • ENGINEERING • MATHEMATICS
