child yoga

with Terra

for Kids - ages 3 to 9

Sundays | 10:15 to 11:15 a.m.

Instructor Terra Douglass leads young children on a playful yoga adventure filled with music, movement and imagination. Through silly poses, fun breathing exercises and interactive games, children explore how their bodies move while building focus, confidence, strength, balance and flexibility. Classes encourage creativity, listening skills and self-awareness in a supportive, cheerful setting. Each session ends with a calming story or visualization to help children slow down and rest. Parents do not need to register but must supervise children ages 3 to 5.

Spring Session I
March 1 to April 12 (6 Classes)
No class on April 5
\$60/Resident, \$70/Non-resident

Paint & Clay

FOR KIDS – AGES 6 TO 12

abrakadoodle

Saturdays | 10 to 11 a.m.

Grab a paintbrush and jump right in for a colorful Kids on Canvas adventure! Use various media to explore traditional painting subjects, such as figure, landscape and still life – with a fresh Abtrakadoodle twist – while we learn about cutting-edge Colombian artist Fernando Botero, experimental painter Yin Lum from Singapore and classic Flemish artist Jan van Eyck. We use mirrors, windows, natural items and more to paint in fun and creative ways! Each class features a different project taught by Abtrakadoodle instructors.

Campers will learn **Computer Science & Coding**.
Outdoor activities & optional **extracurricular** off-screen lessons.
Students learn how to create **games** and **animations**.
Robotics, Python and **JavaScript** available for advanced students.

Scratch

Created by MIT, Scratch allows students to create their own interactive stories, games and animations

Robotics

Students can learn how to program a small robot. This is a favorite among our campers!

Python

From web development to data science, machine learning and more. Python's real-world applications are limitless

JavaScript

JavaScript is the language that powers your favorite websites and online applications. Students learn HTML and CSS

Sesiones de una semana del 22 de junio al 21 de agosto

10% de descuento para hermanos | 10% de descuento por varias semanas
Cuidado extendido (After Care): \$100/semana

Los campistas aprenderán **Ciencias de la Computación y Programación**.

Actividades al aire libre y lecciones **extracurriculares** opcionales fuera de la pantalla.

Los estudiantes aprenden a crear **juegos y animaciones**.

Robótica, Python y JavaScript disponibles para estudiantes avanzados.

Scratch

Creado por el MIT, Scratch permite a los estudiantes crear sus propias historias interactivas, juegos y animaciones.

Robótica

Los estudiantes pueden aprender a programar un pequeño robot. ¡Este es uno de los favoritos entre nuestros campistas!

Python

Desde desarrollo web hasta ciencia de datos, aprendizaje automático y más. Las aplicaciones de Python en el mundo real son ilimitadas.

JavaScript

JavaScript es el lenguaje que impulsa tus sitios web y aplicaciones en línea favoritos. Los estudiantes aprenden HTML y CSS.
