9th grade field trip to
Planet Word- March 2nd

Guest Speaker
Benedict Adjoyi
Money and
Minorities

Coordinator Clements's Comments

As we begin Semester 2, this is a great time for everyone to pause, reset, and refocus on goals for the remainder of the school year. A new semester offers a fresh start and an opportunity to build on the progress already made.

Over the coming weeks, I will be reviewing Semester 1 grades and checking in with students who may need additional support. If a student could benefit from extra assistance, goal-setting, or academic planning, I will be reaching out to students and families to discuss next steps and available resources.

Please remember to regularly check Canvas for updates, including information about upcoming guest speakers and other APPS events. There are many opportunities coming up, and staying informed will help you make the most of them.

students about principles of physics.

Students of the Month

Class of 2026

Bennet Goldberg

He brings creativity and passion into everything he does. Just as importantly, he's kind to others, always treating people with warmth and respect.

Davis Ndure

Davis is a bit of a Renaissance Man. He plays the guitar, loves physics, and investigates historical problems.

Class of 2027

Class of 2028

Josh Eng

He works really hard in AP Comparative Government and has taken on a leadership role in Youth and Government.

Vivienne Lee

Vivienne is such a star in every way possible. She is an outstanding student, actress, and leader.

Class of 2029

Staff Spotlight: Gina Miller

I was an English Literature and Writing major in college, but before I became a teacher, I had a career in graphic design. My background in art has carried through in my teaching, as I try to infuse visual art and creativity into my students' learning. Before I came to CHS, I taught at Hallie Wells, and this year I'm teaching some students whom I've known since they were rising sixth-graders! It's been such a privilege to build lasting relationships with my students and their families. I absolutely love teaching English 9 APPS, but my favorite class to teach is AP Seminar 10, because it's such a unique class and really challenges me as an educator.
