# Chromebook Directions

1) **Power ON the Chromebook**:
   Plug-in the charger to a wall outlet and connect to the Chromebook (*batteries may need to recharge).

   Open the Chromebook and press the power button  located in the upper-right hand corner of the keyboard.

2) **Connect to WiFi (network)**:
   Once powered-up, go to the bottom right-hand corner of the screen, select the US|WiFi|Battery|Time section: 

   A new window will open, select the WiFi icon  and connect to your WiFi network.

3) **Login to the Chromebook:**
   Using the student's Google account (@mcpsmd.net), enter the student ID and password then select the Next button. 

   Once logged-in, student can navigate normally as they would while on school premise.

**For Technology Assistance contact JFK's IT support via e-mail at Loren_Hersh@mcpsmd.org**
