## School Counseling Office-College Application Process

**Parent Questionnaire for student:** \_\_\_\_\_

Your student's school counselor will be writing a letter of recommendation as part of the college application process. This letter is a vital part of the application that is reviewed by the college admission offices. In an effort to provide unique information about your child that is not found on his/her transcript, resume or self-evaluation, we are asking for your input.

Examples of information that would be helpful are:

1. Describe your son/daughter:

2. Significant childhood experiences:

3. Critical events that had either a positive or a negative impact:

4. Family events that impacted your child: (i.e. marriage, divorce, adoption, death, accidents, medical issues, etc.)

5. Other information you feel is necessary to share or to be included in the letter of recommendation.

Although we may not use all of the information you provide, your comments are certainly helpful to us in composing this important recommendation.
