

Winston Churchill High School
Summer Symposium 2010

FORENSIC SCIENCE*

July 12th – July 16th

Cost: \$200 (Includes materials fee)

This one week program immerses students into the field of Forensic Science and Criminal Investigation. Through laboratory experiments and other activities, students will practice some of the basic techniques used by forensic teams, including the following: Crime scene investigation, forensic medicine, serology, toxicology, forensic chemistry and material science, ballistics, fingerprint interpretation, and explosive and arson investigation.

- Although subject matter is similar to the MCPS Forensic Science course, this one week course is not the MCPS course and, therefore, does not qualify for MCPS credit.
