Burtonsville, MD 20866

Summer Enrichment Program (SEP) Goals

The goals of SEP are to provide extended instructional time for students who want to accelerate their learning, strengthen their skill base, or enhance their content knowledge of curriculum.

Summer Enrichment Program (SEP) Focus

- The focus of this year's SEP is to prepare students for success with Montgomery County Public Schools (MCPS) math curriculum during the upcoming school year.
- The SEP is to bolster student success by providing extended instructional time and unique learning opportunities for students who want to accelerate their learning, strengthen their skill base, and enhance their content knowledge of curriculum.
- The program will be held **July 9—July 26, 2019**.
- The school day will be from **8:15 AM – 12:00 PM** each day.
- **Breakfast and lunch** will be provided daily at no cost to students.
- **Class size will be 12-20 students per class.** Space is limited and students will be selected on a first-come, first-serve basis.
- **Bus transportation** will be provided.
- Paper registration begins Monday, **May 21** and online registration begins **Tuesday, May 28. Registration ends Friday, June 7, 2019.**

Summer Enrichment Program Courses:

Math Enrichment for Grade 6

This course will review content from elementary math curriculum and preview some indicators from the Math 6 curriculum: Statistics & Data, Expressions & Equations and Geometry. Conceptual development of material and on-level concepts, content, and processes is addressed as students are taught concrete understanding through manipulatives, transitioning to pictorial representation, to abstract understanding through problems.

Focus on Investigations into Mathematics Enrichment (IM)

This course extends students' understanding of mathematical concepts developed in C2.0 Mathematics 6 and accelerates the pace of instruction to prepare for C2.0 Algebra 1. This course compacts all of the Grade 7 Common Core State Standards and much of the Grade 8 Common Core State Standards into a single year. Students who successfully complete C2.0 IM are prepared for C2.0 Algebra 1 in Grade 8.

Focus on Algebra Enrichment for Grades 7 and 8

This combined course focuses on instruction that reviews Algebraic concepts and skills which will allow students to access the Algebra curriculum related to the Common Core curriculum during the 2019-2020 school year.
