

Date: _____

Dear Parent/Guardian:

The school health team, including the School Community Health Nurse (SCHN) and School Health Room Technician (SHRT), will work with you, your student, and your child's health care provider to assure the well-being and safety of your child at school. We will also help foster your child's self-management of diabetes.

Parents/guardians are responsible for providing the following:

- The Diabetes Medical Management Plan (DMMP)/Health Care Provider Order form, completed by your child's medical provider, including orders for:
 - Insulin dosing
 - Glucose monitoring
 - Hypoglycemia management, including Glucagon
 - Hyperglycemia management
 - Exercise, sports, and bus transportation
 - Disaster Plan
- Diabetes Questionnaire. Please complete and return to the Health Room to help determine diabetes needs.
- Authorization to Administer Prescribed Medication Form (MCPS 525-13). Complete and sign Part I only.
- Diabetes supplies, equipment, and medications, including:
 - Glucometer and testing strips. Safety lancets are recommended if staff will perform blood glucose testing.
 - Ketone testing strips
 - Snacks and fast-acting carbohydrates such as juice or glucose tabs.
 - Medications, including insulin and Glucagon; must include original pharmacy labels.
 - Students receiving insulin at school require at least one of the following:
 - Vial and insulin syringes; safety needles recommended if staff will administer insulin
 - Insulin pen refills or additional insulin pens if using disposable pens; safety pen needles recommended if staff will administer insulin
 - Inhaled insulin cartridges and inhaler device
 - Pump supplies, including alternate insulin delivery method (vial and syringe or insulin pen).
 - User manuals or links to online user manuals for diabetes related equipment such as glucometers, insulin pumps, and continuous glucose monitors.

Throughout the school year, parents/guardians should consult and work with the health room staff at their child's school. It is important to:

- Notify the school health team of any changes in the management of your child's diabetes.
- Let the school nurse know if your child is participating in school-sponsored events and activities.
- Understand that information will be shared with school staff on an as-needed basis to ensure your child's safety.

Please return completed forms, supplies, and medications to the Health Room. Please call if you have any questions.

Sincerely,

School Community Health Nurse
