

Group A: Foundation courses that provide core knowledge and skills needed for the Program of Study.

Group B: Courses that extend academic, technical, and workplace skills to be successful in the Program of Study.

Group C: Capstone courses or work-based learning opportunities (e.g., internship, clinical experience, or a college course).

The Program of Study (POS) provides students with a planned, sequential program that blends academic, technical, and workplace skills to prepare for college or a career. The POS contains a minimum of four credits and includes relevant courses and a capstone experience such as an internship or a college course. Many POS may lead to the attainment of industry/professional certification (e.g., through formal assessments or course hours). POS are designed collaboratively with colleges, including Montgomery College, and some programs and courses have articulation agreements. An articulation agreement establishes the process for students to earn college credit for courses completed in high school. If there are articulation agreements associated with this POS, links to the process and award form appear below at the left.
