MCPS HIGH SCHOOL
STUDENT-ATHLETE PRESEASON
HEALTH AND SAFETY PRESENTATION
INTRODUCTION & PURPOSE

There are tremendous benefits associated with being a student-athlete. Student-athletes learn important things, lessons that cannot be learned in a classroom; but these potential benefits are wiped out if students are not aware of some basic, fundamental health and safety guidelines.

**The purpose of this presentation is to:**

1. Educate student-athletes and parent/guardians of Health and Safety resources available.

2. Make student-athletes aware of the importance of basic health and safety needs.

3. Give student-athletes an understanding of the role their health plays in academic and athletic achievement.

4. Discuss how student-athletes can promote a positive culture free of bullying, hazing, harassing, and intimidating behaviors.
IMPORTANT INFORMATION

- The items in this presentation are highlights of information posted on the Health and Safety section of the MCPS Athletics web page found at: www.montgomeryschoolsmd.org/departments/athletics.

- Student-athletes and their parent/guardians are required to review some of that information as a condition of participation.

- Students who cannot access the MCPS Athletics web page should see their coach or athletic director for the information.
THE R.A.I.S.E. CORE VALUES OF MCPS ATHLETICS

- Respect & Sportsmanship
- Academic Excellence
- Integrity & Character
- Spirited & Safe Competition
- Equity & Access

Coaches and student-athletes are expected to promote and R.A.I.S.E. our core values across MCPS Athletics and our school district.

#WeRAISE
In order to participate in the fall season, students must bring the following to all team activities:

- Mask
- Towel
- Hand Sanitizer
- Water Bottle
  - Name clearly labeled on the bottle
  - Recommended to bring a gallon of water
  - Hydration stations will not be available

At all times, students should refrain from touching their face and washing and sanitizing hands after equipment and restroom use,
COVID-19 INFORMATION

We CAN, We Will, We R.A.I.S.E.

Arrival to Campus

Students experiencing symptoms associated with COVID-19, should not report to campus for any activity session.

If at any given time (either home or on-campus) you experience the following symptoms associated with COVID-19, please alert your coach immediately.

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Symptom</th>
<th>Symptom</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fever or chill</td>
<td>Cough</td>
<td>Shortness of breath or difficulty breathing</td>
</tr>
<tr>
<td>Fatigue</td>
<td>Muscle or body aches</td>
<td>Headache</td>
</tr>
<tr>
<td>Headache</td>
<td>Sore throat</td>
<td>Congestion or runny nose</td>
</tr>
<tr>
<td>Nausea or vomiting</td>
<td>Diarrhea</td>
<td>Loss of smell or taste</td>
</tr>
</tbody>
</table>
The MPSSAA Medical Advisory Committee recommends that any participants wearing a face mask cover should:

- Be aware that a face mask may increase CO₂ retention;
- Be aware of increased concerns of heat illness;
- Be disinfected daily by the user;
- Take additional water and rest breaks;
- Find social distancing areas of six or more feet from other participants during recovery.

We CAN, We Will, We R.A.I.S.E.
COVID-19 INFORMATION

WE CAN, WE WILL, WE R.A.I.S.E.

MIS-C is a severe inflammatory syndrome that can cause problems with the heart and other organs and may result in hospitalization.

Symptoms of MIS-C might include persistent fever (temperature of 100.4 degrees F or 38.0 degrees C or greater), a rash or changes in skin color, red eyes or conjunctivitis, red cracked lips or a red, bumpy tongue that looks like a strawberry, swollen hands and feet, abdominal pain or swollen lymph nodes.

MIS-C appears to be rare and most children who get COVID-19 will not develop MIS-C, according to the Centers for Disease Control and Prevention (CDC).

For more information on COVID-19 please refer to the CDC website.
In order to ensure the safety of all coaches and teammates, let’s do the following:

- Bring required materials (mask, sanitizer, water bottle, towel) to your assigned pod.
- Maintain a minimum of 6 feet between teammates, to the extent possible.
- Properly clean and sanitize equipment after each use.
- Refrain from handshakes, fist bumps, and team huddles; instead, give a thumbs up.
- Keep saliva in your mouth and sunflower seeds at home.
PROMOTING A POSITIVE CULTURE

Student-athletes assist with promoting a positive culture by:

- Exhibiting behaviors consistent with the expectations outlined in the MCPS Code of Conduct and consistent with the R.A.I.S.E. core values.
- Entering and exiting all school facilities under the direct supervision of a coach or other designated, certified staff member.
- Accessing the locker rooms and team rooms during the designated time and under the direct supervision of a coach or other designated, certified staff member.
- Reporting to the designated supervision area, if remaining in the building after school prior to late practice and/or athletic contests.
- Communicating the designated practice location, drop-off and pick-up times with parents/guardians.
- Ensuring a safe environment by immediately reporting behaviors that are not consistent with the MCPS Code of Conduct or R.A.I.S.E. core values using appropriate MCPS procedures.
BULLYING, HARASSMENT & HAZING

- Bullying, Hazing & Harassment conflict with our R.A.I.S.E. core values
  (please view the bystander video linked above)
- Abuse of any kind – verbal, mental, emotional, physical – will not be tolerated in any form across MCPS athletics and our school district.
- Students engaging in such activities are not welcome in our program.
- Coaches and student-athletes are expected to promote a positive culture and immediately report any instances of abuse, bullying, hazing, and/or harassment.
BULLYING, HARASSMENT & HAZING

WHAT IS HAZING?
A reckless or intentional act or creation of a situation “that subjects a student to the risk of serious bodily injury for the purpose of initiation into a student organization.”

WHAT ARE EXAMPLES OF HAZING BEHAVIOR?
• Common hazing practices include humiliation, isolation, sleep deprivation, alcohol/binge drinking and sexual acts. Additional hazing rituals, that may lead to traumatic injuries include beating, branding, consuming nonfood substances and simulated drowning.

WHAT IS BULLYING?
Bullying is defined as an aggressive act by one or more individuals where the intent is to cause physical or psychological harm; this includes cyberbullying.

HOW IS BULLYING RELATED TO HAZING?
• Hazing may be considered a form of bullying for the goal of causing discomfort, embarrassment, or ridicule for the purpose of joining a group.
• Bullies tend to operate individually or in small groups while hazing typically is performed by the group or team as a whole.
BULLYING, HARASSMENT & HAZING

WHAT ARE THE CONSEQUENCES OF HAZING?

- Hazing may result in immediate dismissal from the team and team sanctions, including the forfeiture of contest(s).
- Hazing will result in the full range of disciplinary action per the *MCPS Student Code of Conduct*.
- Hazing is prohibited and considered a misdemeanor that is punishable by imprisonment and/or a fine.

<table>
<thead>
<tr>
<th>FOR THOSE BEING HAZED</th>
<th>FOR THOSE WHO HAZE</th>

</thead>
<tbody>
<tr>
<td>Physical, emotional, and mental difficulties</td>
<td>Academic difficulties</td>
</tr>
<tr>
<td>Loss of control and empowerment</td>
<td>Relationship difficulties</td>
</tr>
<tr>
<td>Academic difficulties</td>
<td>Guilt and shame</td>
</tr>
<tr>
<td>Relationship difficulties</td>
<td>Distorted self-image &amp; perception of leadership</td>
</tr>
<tr>
<td>Post-traumatic stress</td>
<td>Damaged reputation</td>
</tr>
<tr>
<td>Loss of trust and respect for the team and its members</td>
<td>Legal difficulties including risk of criminal charges and imprisonment</td>
</tr>
</tbody>
</table>
IDENTIFYING HAZING

If you’re not sure whether or not something happening to you or to someone else is hazing, ask yourself these questions:

• Would I feel comfortable participating in this activity if my parents or other adults were watching?
• Would we get in trouble if a school administrator walked by and saw us?
• Am I being asked to keep these activities a secret?
• Am I doing anything illegal?
• Does participation in this activity violate my values or those of this organization?
• Is this causing emotional or physical distress or stress to myself or to others?
• Am I going to be able to get a job if I have to put a criminal arrest on my application?

REPORTING BULLYING, HARASSMENT, HAZING, INTIMIDATION

Contact the Montgomery County Police Department, 301-279-8000.

Submit [MCPS Form 230-35, Bullying, Harassment, or Intimidation Reporting Form](#).

Contact the [MCPS Title IX Coordinator](#) at TitleIX@mcpsmd.org. Reports and allegations concerning MCPS employees will immediately involve the Department of Compliance and Investigations. They can be reached at DCI@mcpsmd.org.

[Safe Schools Maryland Tip Line](#) is an anonymous reporting system used to report threats to the safety and/or well-being of students. Call 1-833-MD-B-SAFE or download the App.

Contact the [Victim Assistance and Sexual Assault Program (VASAP)](#) for support. VASAP provides information, referrals and advocacy, as well as crisis and ongoing counseling for victims of sexual assault.

Contact the [Montgomery County Hotline](#) at 240-777-4357. A trained staff member or volunteer will provide supportive listening and information, 24 hours a day, seven days a week.

Send a text to [EveryMind](#) hotline telephone number, 301-738-2255, daily between noon and midnight.
Teams are encouraged to:

- Establish Team Core Values
- Create a Season Theme
- Implement a Team Mentorship Program
- Plan Team Building Activities (team meals, problem solving, communication, trust, etc.)
- Conduct a Team Community Service Project
- Engage in a Study Buddy program
- Develop a Communication Framework to Discuss Team Concerns
SPORTSMANSHIP

Officials and MCPS administrators rate teams on their ability to exemplify sportsmanship. When competing keep the following in mind:

- **Focus** attention on positive aspects of competition.
- **Support** school personnel in conducting a spirited and safe environment.
- **Maintain** composure when breaks seem to go against your team.
- **Report** any negative or discriminatory comments to school personnel – See something, say something!
I. CONCUSSIONS

A concussion is a brain injury that:
- Is caused by a bump, blow, or jolt to the head or body
- Can change the way your brain normally works
- Can occur during practices or games
- Can happen even if you have not been knocked out

CONCUSSION SYMPTOMS:
- Headache or “pressure” in the head
- Feeling sluggish, hazy, or foggy
- Nausea or vomiting
- Difficulty paying attention
- Balance problems or dizziness
- Memory problems
- Double or blurry vision
- Confusion
CONCUSSIONS – WHAT SHOULD YOU DO?

- Student-athletes who think they might have a concussion should report this to their coach and parent immediately.

- Student-athletes who suspect that a teammate may have suffered a concussion should report this to the coach immediately.

- Student-athletes must make certain they are thoroughly healed before returning to play.

- Remember - There is no such thing as a “minor” concussion.
II. HYDRATION & WEATHER GUIDELINES

- Heat acclimatization means gradually preparing one’s body to adjust to practicing in the heat.

- Hydration includes drinking fluids. Simply put, when you sweat, you lose fluids. Your body must replace those fluids.

- Maintaining a proper level of hydration is important from a health and performance perspective.

- When you are not properly hydrated, you are weaker and slower. More importantly, dehydration can lead to heat stroke.

*The volume and color of your urine is a simple way of seeing if you’re well hydrated.*
Drink more water!

The National Athletic Trainer Association recommends:

<table>
<thead>
<tr>
<th>Fluid</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>16 ounces</td>
<td>2 hours before exercise</td>
</tr>
<tr>
<td>8 to 16</td>
<td>15 minutes before exercise</td>
</tr>
<tr>
<td>ounces</td>
<td></td>
</tr>
<tr>
<td>4 to 8</td>
<td>Every 15 minutes during exercise</td>
</tr>
<tr>
<td>ounces</td>
<td></td>
</tr>
<tr>
<td>16 to 20</td>
<td>Within 6 hours after exercise for every</td>
</tr>
<tr>
<td>ounces</td>
<td>pound lost during exercise</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Every student-athlete should take measures to make sure they are safe, some things that you can monitor include:

- **Clothing and equipment** – lightweight, light color
- **Hydration** – drink before, during, and after workouts. Avoid caffeinated beverages (i.e. soda, coffee, energy drinks).
- **Diet** – maintain a healthy, well-rounded diet
- **Fitness** – maintain an exercise regimen in the offseason
- **Acclimatization to heat conditions** – gradually prepare for hot conditions
- **Monitoring medications** – some medications promote dehydration
III. SUDDEN CARDIAC ARREST

Sudden Cardiac Arrest is rare but fatal. The heart suddenly unexpectedly stops. It can happen to a student-athlete or coach. It is important for everyone to know protocol.

1. Know where an AED is in your school.

2. Understand Signs and Symptoms:
   - Fainting or frequent dizziness
   - Chest pain
   - Shortness of breath
   - Unusual tiredness
   - Family history

3. If you suspect cardiac arrest, find an adult and communicate!

Note: These signs can mean many things, but it is important that you tell your parent/guardian and coach if you have any of these symptoms.
IV. EPIPEN & INHALER

Student-athletes need to indicate to their coaches if they use an EpiPen or an inhaler. Come up with a Plan:

Do you have your own?
Where are you going to keep it?
Does the coach know?

EPIPEN

• When a person experiences anaphylaxis (serious Allergic Reaction), treatment includes epinephrine to be injected into the body. One of the most common types of Epinephrine injection is the EpiPen.

INHALER

• Inhalers are portable devices intended to treat breathing conditions such as asthma. Inhalers intended to supply small doses of medicine to the lungs to relieve struggles with breathing.
V. OTHER HEALTH CONCERNS

STEROIDS

- Steroids adversely affect a person’s long-term health.
- Athletes who inject steroids are at greater risk for infections, including HIV and Hepatitis.
- Steroids lead to mood swings, depression, loss of sleep, and paranoia.

MRSA

- MRSA is a type of skin infection.
- An important defense against MRSA is simple hand washing and shower soon after practices and games.
- Suspicious skin lesions should be reported to the coach or school nurse and be evaluated by a doctor.

Rhabdomyolysis

- Rhabdomyolysis is when muscle fibers break down and fluids are released into the bloodstream.
- Gradually increase your workload when exercising (increase weight and amount of reps over a period of several weeks) – do not start with extremes.
VI. ELECTRONIC COMMUNICATION

- Electronic communication is any form of technology that can be used to get a message to others (i.e. Instagram, TikTok, Twitter, Snapchat, email, text messages, etc.).

- Parents and students are expected to utilize appropriate, positive use of electronic communications toward athletes, coaches, and/or opponents or other schools.

- A negative status, post, or comment can ruin relationships and compromise the welfare of athletes and coaches.
TAKE AWAYS

- Athletes have a responsibility to themselves and their teammates to exercise fundamental health and safety precautions.

- Fundamental health and safety habits keep everyone safe and playing.

- MCPS student-athletes and a parent/guardian are required to review specific information regarding Health and Safety on the MCPS Athletics web page.

- Athletes and parent/guardians will verify they have reviewed this information during the registration process for athletics.
IX. ADDITIONAL INFORMATION

- The following six slides are additional links and information that can be found on the MCPS Athletics Webpage.
· Below are items that MCPS refers to as its “Concussion Packet.” Parents and students are required to review this information and submit the required information during the online registration process.
  · Concussion Information for Parents (MCPS Letter)
  · Concussion And Sudden Cardiac arrest Awareness acknowledgement
  · Pre-participation Head Injury/Concussion Reporting Form for Extracurricular Activities
  · Medical Clearance for Suspected Head Injury
  · Graduated Return to Play Protocol
  · Head's Up: A Fact Sheet for Parents
  · Head's Up: A Fact Sheet for Students
The following are additional resources regarding concussion information on the Health & Safety section of the MCPS Athletics web page that parents and students are encouraged to review:

- MCPS Concussion Plan
- Concussion Signs and Symptoms Quick Reference Card
- What is a concussion?
- A Parent's Guide to Concussion
The next two slides include documents in the Health and Safety section of the Athletics web page. It is Recommended that You and a parent or guardian review these documents:

- Fall Heat Plan
- Heat Restrictions
- Temperature Guidelines
- Heat Index
- Environmental and Non-Environmental Risk Factors
- Extreme Heat: Prevention Guide
D – HYDRATION LINKS

While conditions are ever-changing in regard to COVID-19, updates regarding MCPS activities will be provided as available and posted on the MCPS Athletics webpage, under the COVID-19 tab.

This slide includes documents on the COVID-19 section of the Athletics webpage. You and your parent or guardian are required to review these documents:

- What you should know about COVID-19 to protect yourself and others
- Share facts about COVID-19
- Multisystem Inflammatory Syndrome in Children (MIS-C)
- COVID-19 Frequently Asked Questions from the Maryland State Health Department
- COVID-19 Awareness: Parent/Student-Athlete Participation Acknowledgement Statements
