

Green Cleaning Plan

PRIMARY OBJECTIVES

- Reduce the entry of exterior contaminants into the building
- Minimize use of chemicals (product dilution)
- Store, use and dispose of chemicals properly
- Minimize the amount of moisture released into the air and on surfaces
- Remove dust and dirt
- Remove bacteria and minimize bacterial growth
- Dispose of waste properly
- Optimize operation of mechanical systems

Healthy, High Performance "Green" Cleaning Steps to Sustain Green

		Collaboration			
			Certification	Audit	Information Sharing
		Processes	Third Party (LEED)	Quality Assurance Inspections by School and Non-school Staff	Data Collection
		Equipment			
Products	Carpet & Rug Institute (CRI) Certified	Systematic Team Cleaning DSPO preventative maintenance Integrated Pest Mgmt School EcoResponse Team			School Celebration
