

**INTEGRATED PEST MANAGEMENT NOTICE**  
**2021–2022 School Year**

**Elementary Schools:** Maryland Law requires that school staff and parents/guardians of all students be notified prior to planned pesticide applications in the school or on school grounds, or within 24 hours of an emergency application. Without exception, notices will be sent to all parents/guardians and circulated among school staff members.

**Secondary Schools and Administrative Centers:** Maryland Law requires that school-based staff, parents/guardians of middle or high school students, and staff at administrative centers who wish to be notified prior to pesticide applications in the building or on the grounds must request that they be placed on the school’s pesticide notification list. To do so, please fill out the enrollment form attached to this notice and return it to your school or administrative center.

**All Facilities:** The Integrated Pest Management (IPM) Program implemented in Montgomery County Public Schools is a proactive approach designed to control insect and rodent control in school facilities and on school grounds. The IPM Program includes frequent inspections of all school facilities to examine for pests and the conditions that favor pest invasions. As a first step in pest control, the IPM approach employs a number of preventive strategies and alternatives to pesticide application, such as employee education, source reduction, inspection, identification of potential problem areas, and improved sanitation. Each strategy is monitored and evaluated, and modifications, if necessary, are completed. Pesticides will be used only as a last resort or in an emergency

Pesticides and bait stations, by product name and common name, which may be used in buildings or on grounds during the school year include, **but are not limited to:**

| <u>Product Name</u>           | <u>Common Name</u>                |
|-------------------------------|-----------------------------------|
| 4 The Birds II                | Polybutene                        |
| Advion cockroach bait arena   | Indoxacarb                        |
| Advion cockroach gel bait     | Indoxacarb                        |
| Altosid                       | Methoprene                        |
| Avert cockroach bait station  | Abamectin                         |
| Avert dry flowable roach bait | Abamectin                         |
| Conrac                        | Bromodiolone                      |
| Cynoff EC                     | Cypermethrin                      |
| Cy-Kick CS                    | Cyfluthrin                        |
| Deltadust                     | Deltamethrin                      |
| Demon WP                      | Cypermethrin                      |
| Drione insecticide            | Pyrethrins                        |
| Dylox 6.2 grams               | Trichlorfon                       |
| First Strike                  | Difethialone                      |
| Freehand 1.75G Herbicide      | Pendimethian/Dimethenamid-P (ISO) |
| Garlon 4 Ultra Herbicide      | Triclopyr-2-Butoxyethyl Ester     |
| Gentrol IGR concentrate       | Hydroprene                        |

| <b><u>Product Name (con't)</u></b>     | <b><u>Common Name</u></b>        |
|--|----------------------------------|
| Gentrol point source roach control     | Hydropene                        |
| Golden malrin fly bait                 | Methomyl thioacetimidate         |
| Maxforce roach killer bait gel         | Hydramethylnon                   |
| Niban granular bait                    | Orthoboric acid                  |
| Nibor D                                | Disodium octaborate tetrahydrate |
| Premise 75                             | Imidacloprid                     |
| Premise foam insecticide               | Imidacloprid                     |
| PT wasp freeze II                      | Prallethrin                      |
| PT565 plus XLO                         | Pyrethrins                       |
| Ratsorb                                | Camphoraceous                    |
| Rozol tracking powder                  | Chlorophacinone                  |
| Talon G                                | Brodifacoum                      |
| Talstar Professional multi-insecticide | Bifenthrin                       |
| Termidor SC termiticide                | Fipronil                         |
| Terro PCO ant bait                     | Sodium borate                    |
| Timbor                                 | Disodium octaborate tetrahydrate |

Mr. Joseph I. Likambi, environmental design assistant, Environmental Services/Indoor Air Quality, Division of Sustainability and Compliance, maintains copies of Safety Data Sheets and product labels for all pesticides and bait stations used in school buildings or on grounds. If you would like to review this information, please contact Mr. Likambi at 240-740-2330 or via e-mail at [Joseph\\_I\\_Likambi@mcpsmd.org](mailto:Joseph_I_Likambi@mcpsmd.org).

Public comments regarding IPM program may be addressed at Board of Education meetings.

*Please complete this form ONLY if you want to be notified prior to a pesticide application in a secondary*

*school or admin center (notifications are automatically sent to everyone in primary schools).*
