MCPS Application Access

Your MCPS user name and password provides access to any MCPS PC computer including basic access to: Outlook e-mail, ePaystub, myMCPS, PDO, MS Office, FMS and student data applications. **Your position code determines your level of access.**

Some applications require a separate user name and password.

Use the check list below to keep track of the most common stand-alone accounts that may be required for your position.

Data

OASIS (Online Administrative Student Information System) provides a central location for viewing and updating student administrative data, including enrollment, scheduling, demographic and special services information.

MyMCPS is the major depository for student data, assessment data, reports, instructional resources, curriculum and collaboration sites.

NOTE: If you are unable to see classes or students, check with your school's master scheduler, registrar or guidance counselor to confirm that classes and students are assigned in OASIS.

The chart below shows the **most common data paths** that effect teachers and students:

Important Message: Computer and Email Security

- Do not leave your computer unattended while you are logged in
- You can lock the computer at any time by pressing the Windows logo key+L on your keyboard
- It is a security violation if you share confidential access credentials provided to you by MCPS

By logging into a computer or account supplied by MCPS you acknowledge you have read [MCPS Regulation IGT-RA](#) (User Responsibilities for Computer Systems and Network Security), and understand its contents. Violation of the regulation is unethical and may be a criminal offense. Should you commit any violation, your access privileges may be revoked, disciplinary action may be imposed, and/or appropriate legal action may be taken.

- What are “phishing” email messages? An attempt to gain sensitive, confidential or personal information such as usernames, address, phone numbers or passwords from a mail recipient

- Typically, the message appears to be legitimate and/or from a trusted source

It is important that you know that MCPS network administrators will NEVER ask for your password. If you receive a suspicious email, please forward the email to abuse@mcpsmd.org. Do not reply to the email and do not click on the link. If you do accidentally fall for a phishing scam it is very important that you change your password immediately and notify your school's technical support staff.
