

Say YES  to the TEST!

**FREE COVID-19 testing**  
**for ALL students in EVERY school**

COVID-19 testing for all students will help us keep our schools open and safe *and* keep students IN the classroom and OUT of quarantine.

# Say YES

## Health professionals in schools will:

- » Test students with NO COVID-19 symptoms weekly using a screening test. Results are available in a few days.
- » Test a student who has COVID-19 symptoms using a rapid test. Results are available in 20 minutes.

Both tests are **free, safe, and painless.**

A cotton swab is used on the front part of the nose.  
Students say it feels like a tickle!

**Parents/guardians must give their consent for COVID-19 testing.**  
**Just one form, one signature for both tests.**
