

## The International Baccalaureate Magnet Diploma Program at Richard Montgomery High School

The International Baccalaureate Magnet Diploma Program (IB) at Richard Montgomery High School is a thirty-one year-old program that combines the rigor and challenge of the IB curriculum with a competitive, countywide student selection process.

### STUDENT SELECTION

The IB Magnet Diploma Program at Richard Montgomery High School is a four year International Baccalaureate continuum program which blends an intensive two-year IB Middle Years preparatory program (grades 9 and 10) with the rigorous international standards of the full Diploma Program (grades 11 and 12). As the IB Magnet at Richard Montgomery is a countywide program, entrance is competitive. The IB at Richard Montgomery attracts many of the best students from Montgomery County, Maryland, a community of over a million outside of Washington, DC, with one of the finest public school systems in the nation. Academically exceptional and motivated students are offered entry to the program after a highly selective process that evaluates standardized admission test scores, a writing assessment, teacher recommendations, and academic grades. Over 900 students apply annually for admission; the average freshman class is 125 students.

### EXPECTATIONS AND STUDENT SUCCESS

As a result of the selection process, classroom expectations and exam performance are substantially higher than that of comparable programs worldwide. For the May 2017 testing season, IB scores at Richard Montgomery exceeded worldwide averages in 22 subjects. Several subjects exceed worldwide averages by a full point.

Individual performance records, e.g. high school transcripts, should be considered in light of the extraordinary nature of the program and its students, who continue as academic community standouts in college. IB students also take advantage of the many AP classes offered at the high school and sit for both AP and IB examinations. IB Magnet students make up approximately 25% of the school population. Richard Montgomery Magnet and IB courses are advanced level classes and are designated "RMS".

- For more than a decade, Richard Montgomery High School's IB Diploma Program has ranked among the most successful in the world.

88% of Richard Montgomery's 161 IB candidates in 2017 earned the IB Diploma; (The average worldwide success rate is approximately 79 %.); RM Diploma Mean Grade 5.18 (4.8 worldwide); RM Diploma Mean Points 33 (30 worldwide).

23 students earned the Bilingual Diploma.

- Student performance on the IB exams reflects the high classroom expectations.

246 IB Exams Taken in the Junior Year by the Class of 2018

Score Summary: 7 = 15% 6 = 41% 5 = 23% 4 = 13%

- Student performance on the Advanced Placement exams reflects the high classroom expectations.

1048 Advanced Placement Exams Taken Before the Senior Year by IB Students in the Class of 2018

Score Summary: 5 = 51% 4 = 28% 3 = 15%

- The Median SAT scores for the Class of 2018

Critical Reading/Verbal - 720 Mathematics - 750

- National Merit Scholarship Competition Finalists Class of 2017 - 29
- National Merit Scholarship Competition; Semifinalists Class of 2018 - 33
- National Merit Scholarship Competition; Commended Students Class of 2018 - 53
- 2017 Presidential Scholar Semifinalist - 1
- 2017 Presidential Scholar Candidates - 7

## IB Magnet Course of Study at Richard Montgomery High School

### THE MIDDLE YEARS PROGRAM (MYP):

Students in the MYP Program engage in a rigorous course of study in six or more subject areas. In grade 10, students undertake a long-term, independent research project called a Personal Project. The Personal Project provides students with the opportunity to put into practice the skills and knowledge developed over the course of the program under the guidance of a staff supervisor.

### THE FRESHMAN YEAR:

All 9th grade magnet students are enrolled in an academic program with include the International Baccalaureate MYP instructional model. These courses are taught at the advanced level in: English 9; French, Spanish, or Chinese levels 2 or 3 or 4; Government; Biology, AP Physics (optional); and Geometry, Analysis and Applications of Functions (AAF), or IB Pre-Calculus. The accelerated speed of these courses allows time for in-depth analysis and sophisticated content more commonly associated with grade 11 and grade 12 high school honors and advanced placement courses. Non-magnet courses with similar titles at Richard Montgomery do not offer the same content. As an example, the magnet Government course prepares students for the AP U.S. Government exam.

### THE SOPHOMORE YEAR:

All 10th grade magnet students continue the IB Diploma preparation. Courses include: English 10; French, Spanish, or Chinese levels 3, 4 or 5; U.S. History; Chemistry, AP Physics (optional); and AAF, IB Pre-Calculus, AP Calculus AB, or AP Calculus BC. Prerequisites for IB electives begin in 10th grade. Again, non-magnet courses with similar titles at Richard Montgomery do not offer the same content. For example, the magnet U.S. History course prepares students for the AP U.S. History exam. Students in year 5 of a world language and advanced mathematics sit for the AP equivalent exams.

### THE DIPLOMA PROGRAM (DP):

All students complete an Extended Essay (EE), Theory of Knowledge (TOK), and Creativity, Activity and Service (CAS). This program core is above and beyond the academic requirements, and is the signature experience of the IB Diploma model. Diploma candidates complete the EE research essay of 3500 words in one of the subjects of the IB curriculum. The TOK course is an interdisciplinary course that leads students to reflect on the bases of knowledge and experience. Finally, all students participate in and reflect upon CAS experiential learning experiences.

### THE JUNIOR YEAR:

In 11th grade students begin preparing for their six IB subject exams, two of which may be taken in their junior year. Students show strengths in college-level exams in five required disciplines (English, World Language, Math, History, and Science) and one elective discipline (a second world language, a second science, Economics, Global Politics, Psychology, Philosophy, Social Anthropology, Theatre, Music, Film, Computer Science, or Visual Arts). Unlike signature and magnet programs that allow specialization in one or two disciplines, IB expects students to demonstrate cross-curricular strength, which creates an intensely rigorous program for all students. All students must complete at least level 5 of French, Spanish, or Chinese to be able to test in world language. The highest level world language is 7, and a bilingual fluency test.

### THE SENIOR YEAR:

In the senior year IB diploma candidates have demonstrated commendable motivation, determination, and academic achievement. Students complete Higher Level coursework in two or three disciplines and complete coursework leading to additional Standard Level exams. Higher Level offerings include English, History, World Language, Biology, Physics, Mathematics, Visual Arts, Computer Science, Music, Film and Theatre. Standard Level course offerings include Foreign Language, Psychology, Philosophy, Social and Cultural Anthropology, Economics, Chemistry, Physics, Environmental Systems, Mathematics, Math Studies, Music, Film and Theatre. Student coursework is assessed

throughout the two-year program, but they sit for final examinations in May.
