

Joining the Tilden Listserv

Yahoo! requires that you have a Yahoo! account to join a Yahoo! Group (and we wish they didn't). If you use Yahoo! Mail, you already have an account and can log in (as seen on page 1 and then skip to page 5). If you do not use Yahoo! Mail and would prefer to use another email address (work, Hotmail, Gmail, etc), you must first create a Yahoo! account, link your other email address to the Yahoo! account, and then select the other email address as the address where you want to receive your Listserv emails (go to page 2).

- Go to <http://groups.yahoo.com/group/tilden>
- Right side of the screen, click the box

+ Join Group

If you have a Yahoo! Account

- If you have a Yahoo account, log in with it here. If you are already signed in to Yahoo!, you will not see this box.

The image shows a screenshot of the Yahoo! login interface. At the top, the word "YAHOO!" is displayed in a purple, stylized font. Below it are two input fields: "Yahoo ID" and "Password". Under the "Password" field is a checkbox labeled "Keep me signed in". At the bottom of the form is a purple button with the text "Sign In" in white.

Skip to page 5 for next steps.

If you do **NOT** have a Yahoo! Account

- If you do not have a Yahoo account, create a new account or sign in with Facebook or Google and then create a Yahoo! Account.

- Next is an example signing up with a Google account and a Gmail address. You can create a new account and then link to any email address.

Requesting to Join

Now you are either signed in via your Yahoo! account or have created a Yahoo! account

- Choose your Yahoo! Alias, your Email Address, your message delivery option, and enter the code shown on your screen. In the “Comment to Owner” box, identify yourself (name) and your connection to Tilden so that your subscription may be validated. **If the email address you want to use is not listed on the screen, the next page shows how to link a different email and then use it for Listserv emails.**

If you had to create a new Yahoo! account

- If you had to create a new Yahoo! account and you want the emails to go to a different address,

click this icon in the upper right corner and when the dropdown menu appears, select “Account Info”. Near the top of the “Account Info” page, you will see this:

The screenshot shows the 'Account Info' page. Under 'Profile Information', there is a link to 'Edit profile details' and a profile picture placeholder with the name 'Male'. Under 'Contact Information', there are links for 'Update your contact information' and 'Choose how Yahoo contacts you'. On the right, there are fields for 'Yahoo Email', 'Email', and 'Mobile', all of which are redacted with black bars. A 'Primary' label is next to the 'Yahoo Email' field, and a 'Change' button is circled in red.

- Click “Change” (as circled in red) and at the bottom, you will see this:

Manage your email addresses

These are the email addresses that Yahoo uses to communicate with you.

- Select “Add Another” at the bottom and enter your preferred email. Yahoo! will send an email to your preferred address to verify you are the owner of that address. There will be a link in the email for you to click to verify ownership. After you have verified your preferred email, go to

<https://groups.yahoo.com/group/tilden/info>

and in the upper right corner, click

and then

from the drop-down menu. Then click the pencil icon next to “Identity” as seen here

Identity 

and then pick the email where you want to receive your messages and click “save”. Emails will be sent to your preferred address and NOT the Yahoo! account.

Please make note of your Yahoo! username and password. You will need this to make changes to your listserv membership (i.e. changing message delivery, changing preferred email address, etc)
