Technology and Social Media are Here to Stay

How do we better understand it’s influence on the lives of our teens?

How do our teens use and feel about technology and social media?

How can we talk to our teens about their use to help them to find balance and mitigate potential negative effects?
Generation LIKE
Finding Balance

Pros/Cons:

Teens and Parents
“I want them to understand that much of what I do online is very fun to me and I am often interacting with people through the game. Some of the games I play also enhance my ability to think strategically and others make my creative thinking and 3D spatial reasoning better.”

“It has positive effects and negative effects, however since there are both and in equal quantity, I would say that the effects are neutralized because technology is equally good and bad.”
