Key 1: Read at Advanced Levels in Grades K–2

Description and Examples of Reading Text Levels

Spring 2009
Teaching reading to young children is a complex process. Young children develop reading skills and strategies at different rates and reach benchmarks at different times. This document provides examples and characteristics of texts at levels 4, 6, 16 and M. Text levels are used to plan and deliver reading instruction. Provide feedback on this document to the Department of Curriculum and Instruction, Elementary Reading Language Arts Department, 850 Hungerford Drive, Rockville, Maryland, 20850, Room 256, or at 301-279-3154.
Elementary Reading Text Level Description

Leveled texts are an arrangement of books, both literary and informational, from easiest to hardest defined by a set of characteristics. Literary texts are stories, poems, and plays. Informational texts convey or explain. Assigning levels to texts assists teachers in selecting books that match readers’ skills to the supports and challenges in the text.

Text characteristics determine whether a text is easy or hard for a student to read. There is a degree of variation within each level. The challenge of one book might be figurative language, while the challenge of another book at the same level might be sentence length, vocabulary, or advanced concepts.

In MCPS, two leveling systems are used:
- Reading Recovery Text Levels 1–16
- Guided Reading (Fountas and Pinnell) Text Levels J–Z

The Reading Recovery numerical system is used to designate kindergarten and first grade level-appropriate text in all MCPS schools and aligns with Reading Recovery. Reading Recovery is a first grade intervention that is implemented in selected elementary schools. The transition to the Guided Reading alphabetical system occurs at the second grade level.

Text levels indicate a progression from easiest to most challenging and are not limited to a specific grade level. However, to provide guidance to teachers, a Reading Targets Text Level Chart has been developed.

TerraNova, The Second Edition (TN2) Example

The TN2 is a standardized nationally normed assessment given to second grade students in the spring of each school year. The assessment tests knowledge and skills in reading and mathematics. In the reading item below, students read the poem, *My Favorite Snow*, and then respond to several multiple choice questions. A sample of a multiple choice question is provided below.

---

*My Favorite Snow*

by Mark Merfeld

My favorite snow is the happy snow
that flutters down
in friendly flakes
smiling from peaceful piles
then invites me
into powdery games
laughing all the while
and becomes a man
of snowball shapes
wearing a frosty smile.

---

**03 Analyze Text**

This item measures the student's ability to draw conclusions from inferences in the poem. Other items in this objective measure the student's ability to determine the main idea, or theme, in a passage, analyze character, infer relationships such as cause and effect, or identify story elements such as plot and setting.

**2 What is the friendly snow inviting the poet to do?**

- make a snowman
- throw a snowball
- catch a snowflake
