

MONTGOMERY COUNTY PUBLIC SCHOOLS

**Application for Interim Instructional Services,
 with Qualified Physical Health Condition ONLY**

Interim Instructional Services
 MONTGOMERY COUNTY PUBLIC SCHOOLS (MCPS)
 CESC, Room 248, Rockville, Maryland

Note: This form is used by the Interim Instructional Services (IIS) Office to obtain a physician or certified nurse practitioner recommendation and parent/guardian permission to initiate instruction for students with a physical health condition. **Return completed application to student's school counselor or principal/designee.** For more information, see MCPS Regulation IOE-RB, *Interim Instructional Services*.

A new completed application, with updated information from the practitioner regarding diagnosis and treatment is required for continuation of service beyond 60 calendar days.

In order for this application to be considered, ALL components of this application must be completed and submitted:

- I. Parent portion including signature
- II. School portion
- III. Practitioner verification including specific steps the school can take to support the student returning to instruction
- IV. Return to school plan: The conversation regarding the return to school plan should happen with all stakeholders prior to the submission of the application. It is preferable that the plan be submitted with the application, but it must be submitted no later than 30 days after the application submission.

The school must send the form electronically, when completed, to IISOffice@mcpsmd.org.

Delivery of IIS will be virtual. Individual exceptions will require review and approval by the Supervisor of Interim Instructional Services.

IV. RETURN TO SCHOOL PLAN

The return to school plan should be created through a collaboration among the school, student (when possible), parent, and practitioner to outline the steps each will take in facilitating the student's return to the school by the end of the requested duration of services. The school should document the success or challenge of each component of the plan. In the event that services need to be continued at the end of the requested duration of services on this application, schools will need to submit evidence of the implementation of the return to school plan, along with an updated plan taking into account any new information.

Please note that the return to school plan can be implemented as soon as is practical, and should not be delayed until the full requested duration of services has elapsed.

The return to school plan should consider the following:

1. What supports will the school put in place to ease the student's transition back into the school building? Some items to consider:
 - Identify the trusted adult who will meet the student upon their return and the steps school staff will take during the first day/week/month/etc. to support the student's transition back into the school building.
 - Identify a lunch/check-in buddy for the student
 - Schedule a time for the student to come to the school outside of school hours to acclimate to the building, view their schedule, etc.
 - Schedule regular check-ins with the counselor or other, trusted, school-based staff.
2. If a student has a 504 plan or an IEP, when will the team meet to determine whether modified or additional accommodations may be necessary (renewal applications should contain notes from this meeting)?
3. If the student does not currently have a 504 plan or an IEP, is an EMT meeting necessary to determine whether codified accommodations are necessary for this student upon their return?
4. What steps will parents take to ensure that the student is present at school for the transition back into the building?
5. What specific steps can the practitioner take to support student attendance at school, and how and when will the school communicate with the practitioner to gather this information?
6. How will the school scaffold the student's return to the building?

This is not an exhaustive list, and schools, students, parents, and practitioners should include anything that will be necessary to ensure a welcoming, safe environment for students returning to school. Below, you will find return to school plan exemplars to support you in creating a successful plan for this student:
